Population Data from CT DPH: https://portal.ct.gov/DPH/Health-Information-Systems--Reporting/Population/Annual-Town-and-County-Population-for-Connecticut

NOTES:

Source: US Census Bureau, Population Estimates Program, Vintage 2022 Estimates, available at https://www.census.gov/programs-surveys/popest/data/tables.html.

a) Minor variations in the Census Bureau's estimates of state, county, and town populations are expected to occur between years as part of the estimation process. However, the COVID-19 pandemic and pandemic-related delays in the release of decennial 2020 census data products have created novel challenges for accurately estimating annual town populations. As a result, towns may experience annual shifts in their certified population totals as methodological changes and input corrections are incorporated over time. See the *Estimated Populations in Connecticut as of July 1, 2022* narrative report for more information: https://portal.ct.gov/DPH/Health-Information-Systems--Reporting/Population/Annual-Town-and-County-Population-for-Connecticut

b) For 2022, the Department of Public Health has determined that the estimates released by the Census Bureau overestimate the populations of select towns that contain large group quarters facilities, such as colleges and prisons. The collective impact on Connecticut is an overestimate of approximately 20,000-25,000 people. The following eleven towns have been identified as artificially high (1% or greater) based on evaluation of the Department's annual group quarters reporting for prisons and colleges: Mansfield (~32%), New Haven (~3%), Enfield (~2%), New London (~2%), Windham (~2%), Montville (~1.5%), New Britain (~1.5%), Somers (~1.5%), East Lyme (~1%), Hamden (~1%), and Middletown (~1%). See the *Estimated Populations in Connecticut as of July 1, 2022* narrative report for more information: https://portal.ct.gov/DPH/Health-Information-Systems--Reporting/Population/Annual-Town-and-County-Population-for-Connecticut
