Ordinance requesting the granting of temporary and permanent easements and authorizing an easement agreement with the Lake County Forest Preserve District for the Ela Road at Long Grove Road intersection improvements.

- The proposed intersection improvement for Ela Road at Long Grove Road involves the installation of a new traffic signal, addition of turn lanes, and non-motorized improvements.
- The County needs both temporary and permanent easements from the Lake County Forest Preserve District to construct and maintain these improvements.
- As consideration for granting the easements, the District desires certain improvements be included as part of the project, including the removal of invasive species, installation of vegetated swales, and improved connectivity to the Cuba Marsh Forest Preserve trail network.
- This improvement is included in the Transportation Improvement Program with construction planned to begin in 2022, contingent upon land acquisition and permit approvals, and designated as Section 14-00144-20-CH.
