Title:**A RESOLUTION ADOPTING THE GOMEZ PARK MASTER PLAN AND THE FRENGER PARK MASTER PLAN.****TYPE OF ACTION:** ☒ **Administrative** ☐ **Legislative** ☐ **Quasi-Judicial****PURPOSE(S) OF ACTION:**

To adopt the Gomez Park Master Plan and the Frenger Park Master Plan.

BACKGROUND / KEY ISSUES / CONTRIBUTING FACTORS:

The Parks & Recreation Department, at the request of neighbors to the west of Gomez Park, initiated a master planning effort to guide future renovations and changes to Gomez Park in 2018. That process was formalized in 2019 when Parks & Recreation sought proposals from area landscape architects to conduct the master planning process with interested residents. The primary focus of the master planning effort is to develop a vision for the overall, long-range re-development of Gomez and Frenger Parks. The Consultant and City Staff facilitated the community-driven process with the goal of reaching a public consensus on the vision and desired use of the parks.

Gomez Park is a multi-use 12-acre facility located near the heart of Las Cruces on S. Espina St. The park currently hosts the following amenities: a stormwater retention pond, a community garden, two group picnic shelters, a playground with swings and other elements, an unpaved parking area, concrete, and asphalt paved walking trails, open play turf space, shade trees, lighting, and Water Well #70 at the SE corner. The neighborhoods surrounding the park include multi-family and single-family homes, an assisted living facility, a manufactured home community, and undeveloped property.

Frenger Park is a 9.9-acre multi-use facility just north of Gomez Park. The park includes: two tennis/pickleball courts, a swimming pool facility from the 1960s, asphalt paved parking lot, open play turf, shade trees, street parking, overhead electrical lines, and Water Well #35. Neighbors to Frenger Park include a church, Las Cruces High School, single-family and multi-family homes, and commercial properties. Frenger Park also serves as a stormwater management facility.

Also, the swimming pool at Frenger Park has reached the end of its generally useful lifespan. With the completion of the Regional Aquatic Center Competition Pool, anticipated in January 2023, Frenger Pool should be considered for decommissioning. The decommissioning of Frenger Pool will open up an opportunity for making better and new use of the space in Frenger Park in accordance with the master plan.

The master planning process formally started in October 2021 with a site inventory and analysis. This information was presented to the public at the first public input meeting on December 4, 2021, at City Hall. An additional public workshop on March 5, 2022, was supplemented by an online survey, distributed in Spanish and English,

seeking public opinion regarding the desired amenities for each park. The draft master plans were presented to the Parks & Recreation Advisory Board at their regular April 21, 2022 meeting. The Board voted to recommend the adoption of the Gomez Park and Frenger Park Master Plans (Exhibit "A" and Exhibit "B").

OPTIONS / ALTERNATIVES:

1. Vote "Yes"; this will approve the Resolution and the Master Plans for Gomez Park and Frenger Park will be adopted.
2. Vote "No"; this will not approve the Resolution and the Gomez Park and Frenger Park Master Plans will not be adopted.
3. Vote to "Amend"; this will require direction from City Council to staff.
4. Vote to "Table"; this could delay implementation of the Gomez Park and Frenger Park Master Plans.

REFERENCE INFORMATION:

RESOLUTION 23-012

A RESOLUTION ADOPTING THE GOMEZ PARK MASTER PLAN AND THE FRENGER PARK MASTER PLAN.

The City Council is informed that:

WHEREAS, residents in the vicinity of Gomez Park and Frenger Park requested changes, modifications, and improvements at the parks; and

WHEREAS, a robust public input process, over the past year, lead by MRWM for the completion of master plans for the parks resulted in the Gomez Park Master Plan (Exhibit "A") and the Frenger Park Master Plan (Exhibit "B"); and

WHEREAS, these plans provide guidance and solid ideas for future improvements and renovations at Gomez Park and Frenger Park.

NOW, THEREFORE, Be it Resolved by the Governing Body of the City of Las Cruces:

(I)

THAT the Gomez Park and Frenger Park Master Plans, as shown in Exhibit "A" and Exhibit "B", attached hereto, be adopted.

(II)

THAT City staff is hereby authorized to do all deeds as necessary in the accomplishment of the herein above.

DONE AND APPROVED this 18 day of July 2022

APPROVED

Mayor

DESIGN NARRATIVE

The master plan design took shape based on input from community members, Parks & Recreation staff, and from site analysis performed by the consulting landscape architects. Design components include:

- Preservation of the open grassy field for flexible use including soccer games, cricket, baseball, kite flying, and community events
- Expanding and enhancement of the existing gathering space at the southern end of the park with a small restroom/storage building, a shaded plaza for community events, seating, lighting, and shade trees
- A paved parking lot that formalizes the existing *ad hoc* dirt lot and creates safer entry and exit points
- Expansion of the existing walking trail to include a loop around the entire park
- A safe and pedestrian-prioritized crosswalk at Farney Lane which would create a continuous 1-mile walking loop around Gomez and Frenger Parks
- Reorientation of the playground to accommodate the addition of a sport court
- Space for expansion of the existing community garden
- Utilization of green stormwater infrastructure strategies in the drainage channel on the park's west side including cobble-lined channels, organic erosion control, and drought-tolerant plants.

NOTE: This is an estimate of cost only based on rough costs at the time of publication. This estimate is for budgeting purposes only. Deviations can be anticipated due to unforeseen construction and material costs, revisions to the proposed design, and fluctuations in market prices. * Denotes items that could potentially be funded and/or installed independently.

Potential Funding Sources

City of Las Cruces General Obligation Bonds

- City of Las Cruces bonds that are the source of funding for basic capital improvement projects which benefit the general public but generate little or no revenue.
- Council-approved projects become ballot questions for a general election.
- Run by the Community Development Department.
- Typically on a four-year cycle with the next round on the November 8, 2022 general election ballot.

City of Las Cruces Park Impact Fees

- Funds new neighborhood park facilities and services from per-unit fees paid by new property developments.
- Impact Fees may not be used for demolition, repairs, or replacements at existing parks.
- Could potentially be used at Gomez Park for fitness equipment, a plaza structure, and/or lighting elements.

City of Las Cruces Capital Improvement Program

- Projects are funded by revenue bonds.
- Funding is facilitated by the City of Las Cruces Office of Management and Budget.

City of Las Cruces General Fund

- Typically used for operating expenses but can be used for small capital expenses such as playground equipment.

Grants & Supporting Organizations

- Outdoor Recreation Legacy Partnership—Urban Parks Grant Program through the Land and Water Conservation Fund
- National Park Service—Rivers, Trails, and Conservation Assistance Program
- National Recreation and Park Association
- Trust for Public Land
- City Parks Alliance
- National Park Trust
- Play equipment grants such as KABOOM!
- Community Wellness Hubs
- Waste Management Charitable Giving
- Community Garden grants such as Fruit Tree Planting Foundation Grant Program
- Physical Fitness grants
- Water quality and green stormwater infrastructure grants
- Public art grants
- American Association of Retired Persons grants

GOMEZ PARK MASTER PLAN

LAS CRUCES, NM

INVENTORY & ANALYSIS: EXISTING CONDITIONS

Existing Program

Located at 2250 S Espina St, Gomez park is named for long-time public servant Tony Gomez. The approximately 12 acre park is part of the City of Las Cruces stormwater management system and is also home to Well #70. In addition to these functions the park has a walking trail, parking, a popular community garden, a small picnic and play area, and a large grassy field.

LAS CRUCES, NM

INVENTORY & ANALYSIS: EXISTING PROGRAM

Adjacency

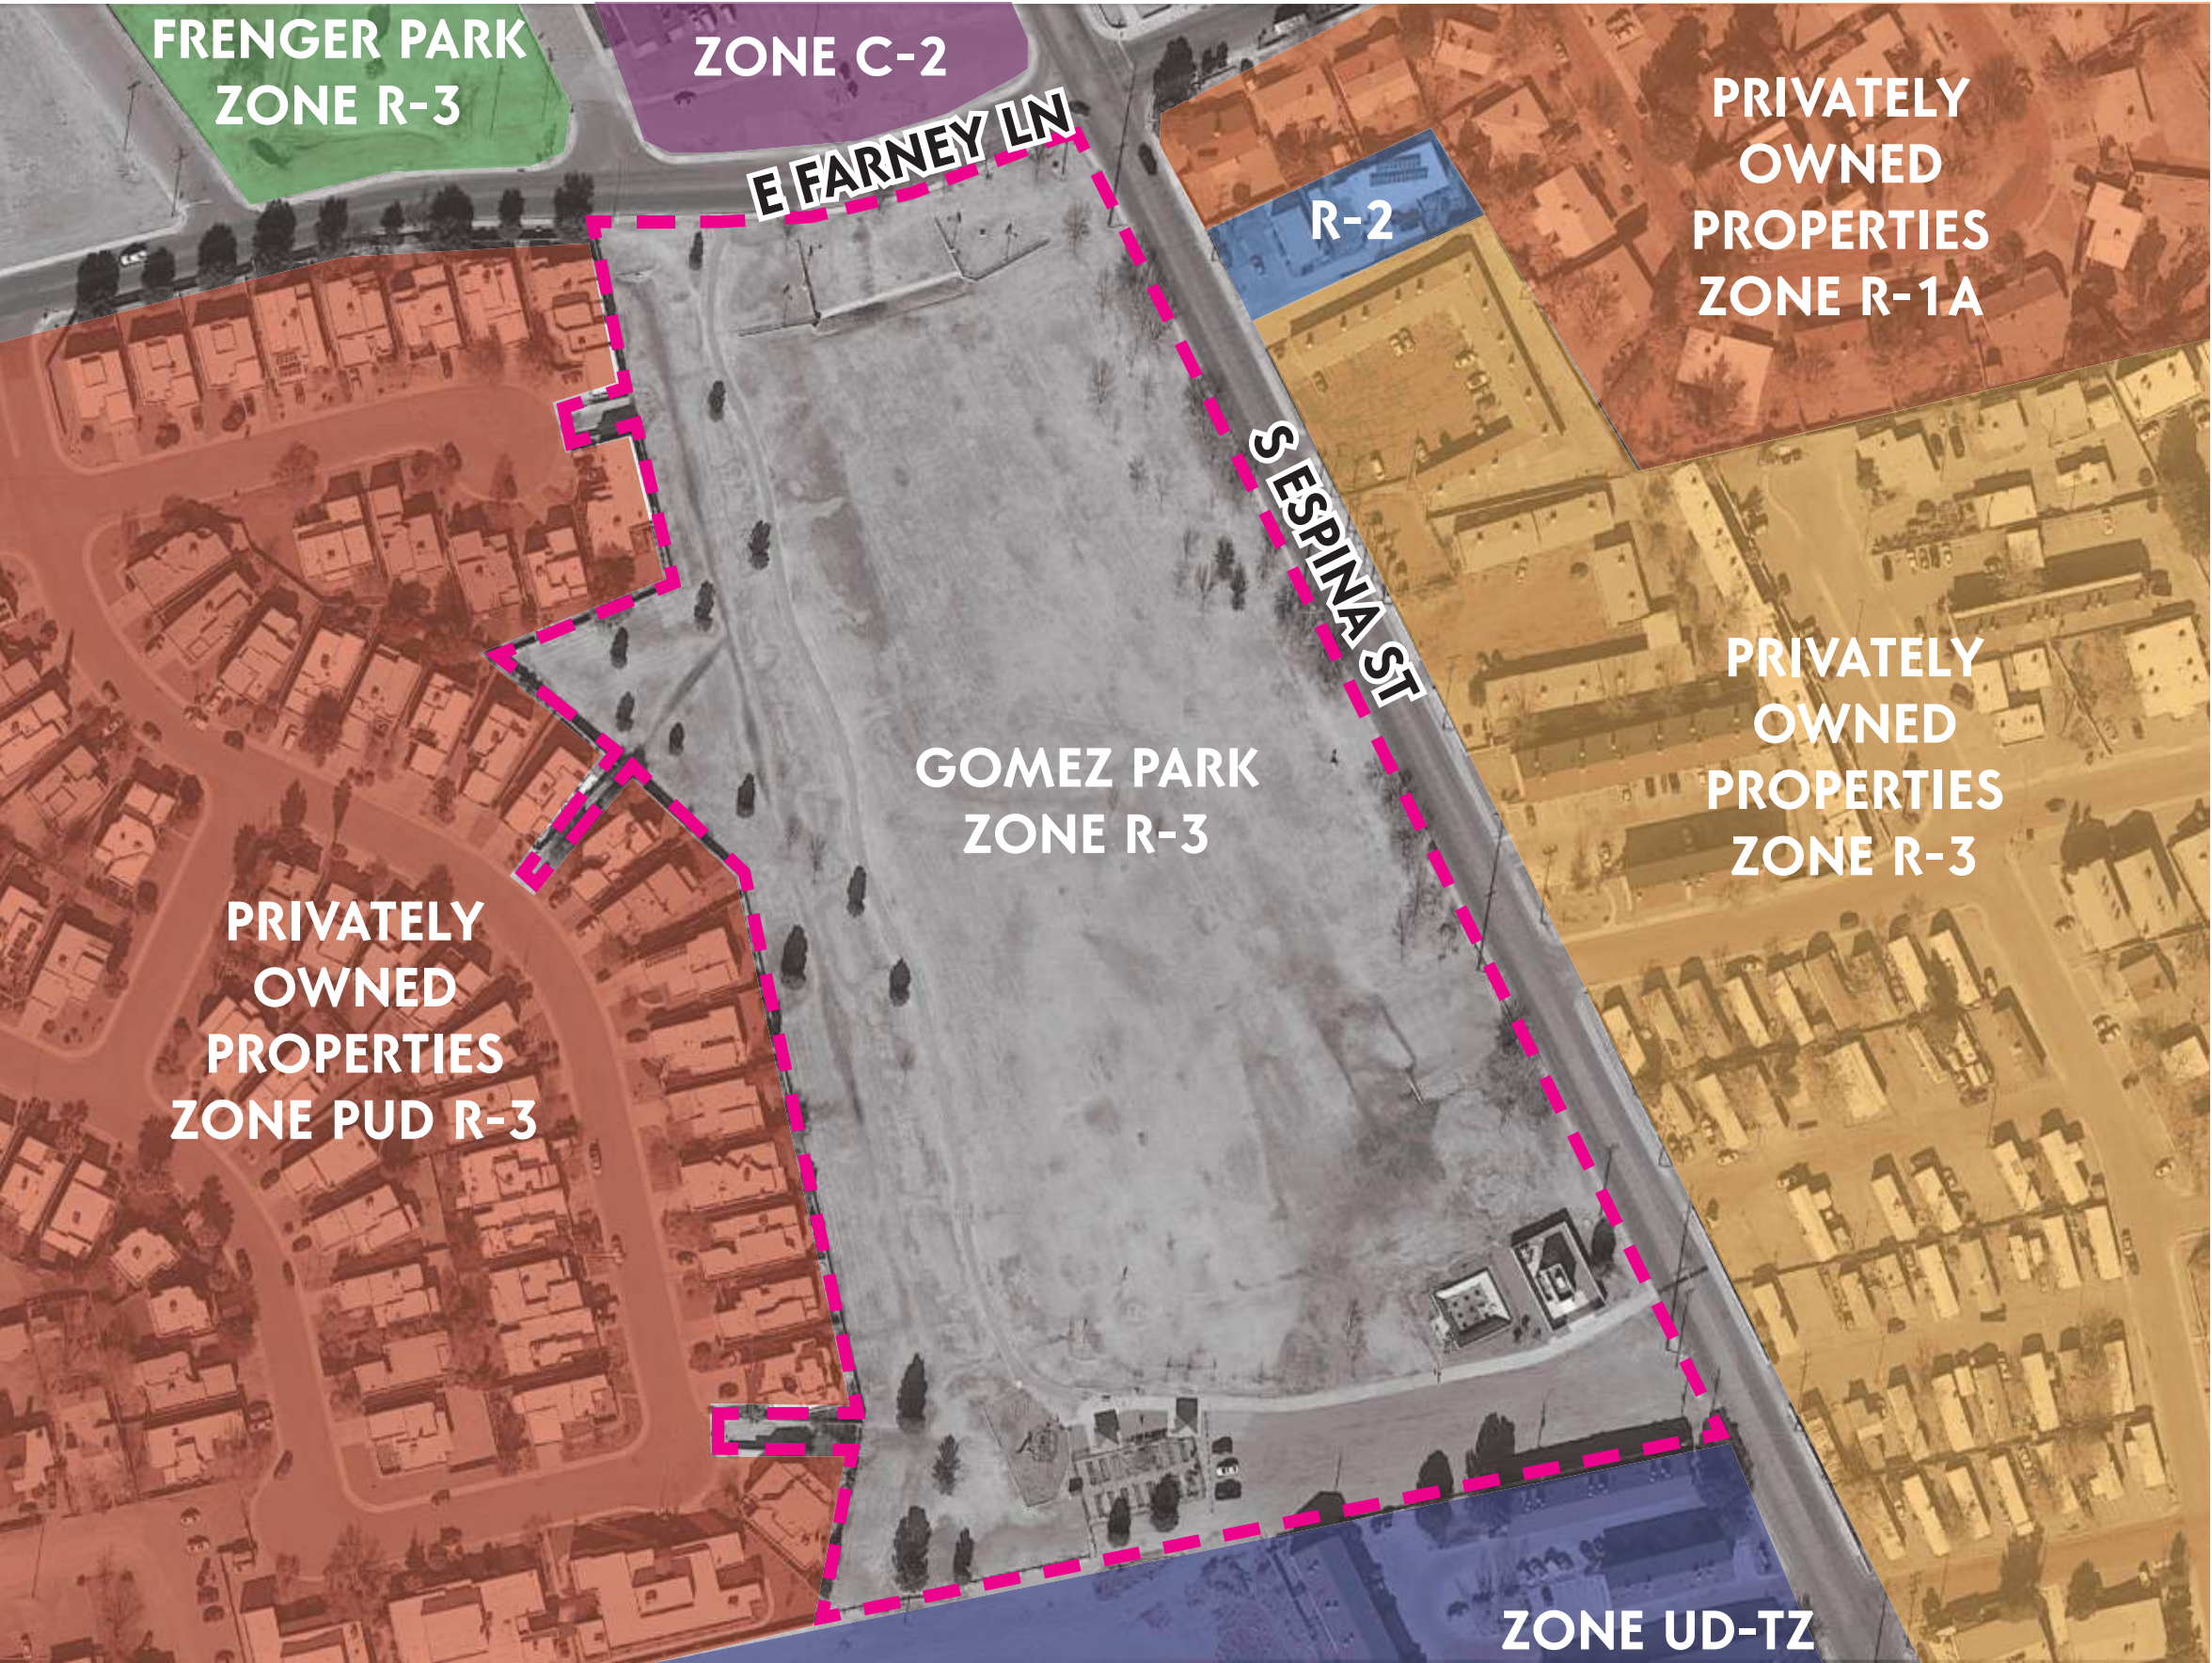

Gomez Park is situated primarily in a residential area. A subdivision of single family homes to the west is a significant presence in the park. Multi-family residential units make up a large portion of the properties to the east and south. The northern boundary connects to a small commercial area and to another city-owned property, Frenger Park.

Houses in the Heritage Farm subdivision face the park and have a view of the mountains to the east

A vacant lot to the southwest of the site

Apartments across S Espina St

GOMEZ PARK MASTER PLAN

LAS CRUCES, NM

INVENTORY & ANALYSIS: ADJACENCY

Access

The park is highly accessible from sidewalks along E Farney Ln and S Espina St but lacks formal or highly visible access points. The sidewalk along S Espina St is very narrow and is not buffered from the busy roadway. The unpaved parking area is accessed via a very narrow driveway on S Espina St and does not have parking that meets ADA standards. A crosswalk here would increase pedestrian access from residences across S Espina St. A significant point of entry at the northwest corner of the site also does not have a crosswalk. Reconsideration of this intersection could provide a strong and safe link to Frenger Park.

KEYED NOTES

- 1 SIDEWALK RAMP
- 2 UNSAFE CROSSING CONDITIONS
- 3 4' SIDEWALK
- 4 5' SIDEWALK

LAS CRUCES, NM

Neighborhood Connections

Located in a residential area, Gomez Park is already quite integrated into the neighborhood. The proximity to the University could be strengthened with improved sidewalks along S Espina St. Crosswalks at all intersections near the park could also significantly improve connectivity and safety.

LAS CRUCES, NM

INVENTORY & ANALYSIS: NEIGHBORHOOD CONNECTIONS

Amenities

The community amenities area in the southwest corner include a community garden, picnic shelters, two tables, swings, and a play structure. This area appears well maintained and the community garden is very popular. Numerous trash cans line the garden fence and could be better screened from view. A drinking fountain across the walkway is in very poor condition. The backstop at the field area shows wear and tear but the field receives routine use by a local cricket club. The walking trail is very narrow and is in very poor condition. Additionally it lacks connections across E Farney Ln and S Espina St to the surrounding neighborhoods.

KEYED NOTES

- 1 COMMUNITY GARDEN

Drainage

Formed into a large basin, Gomez Park is part of the City of Las Cruces stormwater system. Large outfalls at the north end of the site empty onto the grassy field. A large swale runs through the site from north to south, conducting stormwater from the subdivision to the west. The walking path is on a ridge that separates this swale from the main basin.

GOMEZ PARK MASTER PLAN

LAS CRUCES, NM

Utilities

A number of utilities line the perimeter of the site. High voltage power lines along S Espina St are a significant element. A sewer line runs under the site and water infrastructure is supplied from Well#70. Four solar-powered light poles sit near the large stormwater outfalls. Two streetlights line E Farney Ln but there are no lights along S Espina St.

Trees

Lines of osage orange trees along S Espina St provide a nice sense of separation from the busy street. Behind the osage orange, many trees of various species have been planted which will provide the next generation of canopy. These trees could also shade an interior walking trail. Immature trees also line the walkway that abuts the parking lot. The swale to the west is dotted with a number of large Afghan pines.

SPECIES

- 1 AFGHAN PINE
- 2 MODESTO ASH
- 3 RED OAK

03. PUBLIC ENGAGEMENT WORKSHOP

EXISTING CONDITIONS & OPPORTUNITIES

CONTENTS	SUMMARY
	WORKSHOP MATERIALS
	WORKSHOP RESULTS
	ONLINE SURVEY
	ONLINE SURVEY RESULTS

Workshop Summary

A Public Workshop was held at City Hall on December 4, 2021. The purpose of the workshop was to receive stakeholder input on existing site conditions and to engage them in envisioning possibilities for future improvements.

The meeting began with a review of existing conditions including both diagrammatic maps and site photographs. Next, participants were asked to review large scale aerial photographs of the park and were invited to provide comments and ideas using sticky notes placed on the aerials. Scaled plan cutouts of amenity items such as a regulation-sized soccer field, small restroom facility, and disc golf course were manipulated to envision possibilities for future site layout.

Finally, participants were asked to review precedent images of various materials and amenities. They were given colored dot stickers and asked to place them on the images they preferred. Throughout the workshop, verbal comments from participants were discussed and recorded.

Existing conditions were reviewed at the workshop

Preferences

Pollinator garden

Shade structure with seating

Playground

Paved walking path

Select Public Comments

TOPIC	COMMENT
Park Design	Preserve views of Organ Mountains
Maintenance	Grass fields without goatheads and other burrs and stickers
Planting	Opportunity for native plants, rainwater management, reduce erosion & mosquitos
Planting	More trees with fall color
Programming	The City should hold free planned activities such as health fairs and basketball clinics
Circulation	Add vehicular barriers between park and vacant lot to the southeast
Amenities	It would be really nice to have exercise equipment
Amenities	Provide water fountains

Survey

All participants were encouraged to take an online survey to share their thoughts about the existing park amenities and preferences for future amenities. Paper copies of the survey were also available at the workshop, see Appendix.

Results

Fourteen individuals completed the survey. Respondents indicated preferences regarding the park’s existing conditions and for potential new amenities.

CURRENT USE:

- 75% of respondents live nearby or pass by the park frequently
- 62% use the park daily or weekly
- **Walking, jogging, and running on the trail, walking a pet, and using the pet waste bag dispensers are the most popular activities.**
- Using the **picnic tables and shade structures** are the second most popular activities.

ENHANCE EXISTING AMENITIES:

- More **trees**
- More **picnic tables**
- More **shade structures**

PREFERRED NEW AMENITIES:

- **Improved/expanded paved trail**
- **Shade** structures and more **seating** options
- Paved **parking** area
- **Lighting**
- A significant majority of respondents were not in favor of pickleball courts or a BMX track

NEIGHBORHOOD CONNECTIONS:

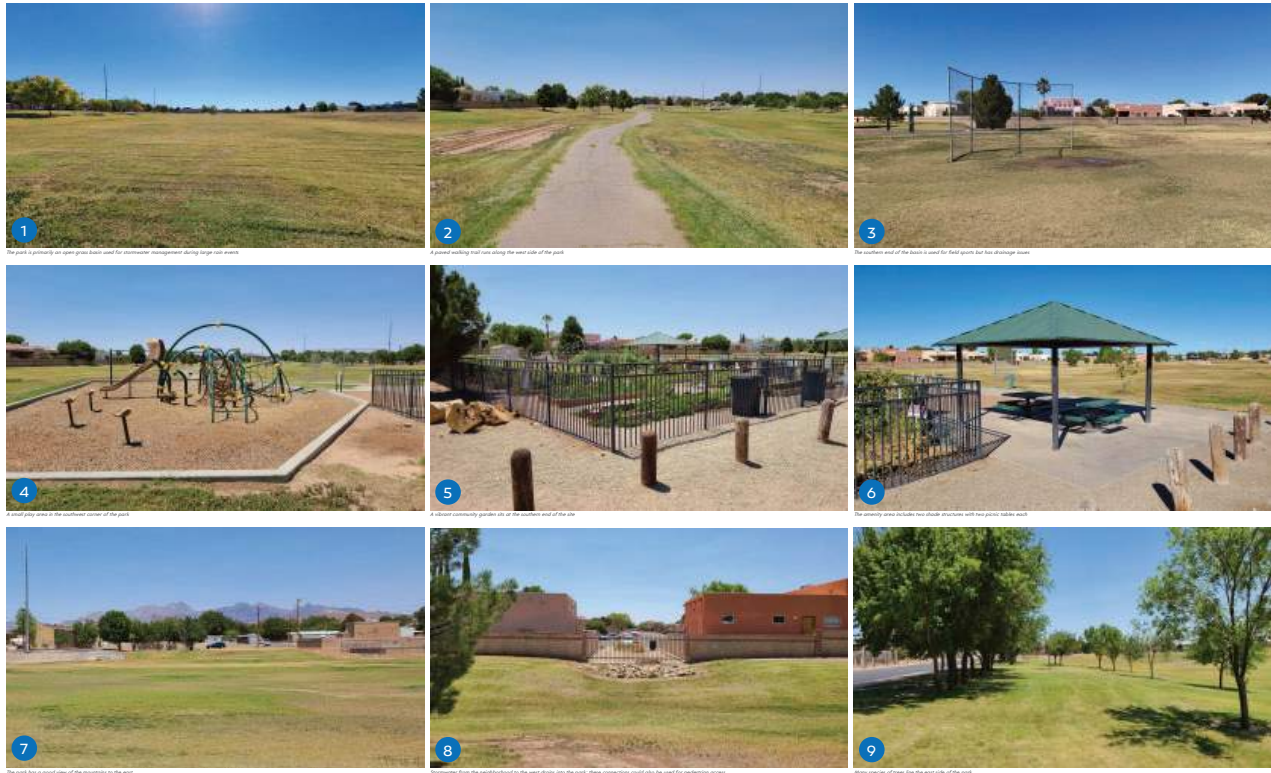

- 86% of respondents want a safe pedestrian and bicycle connection to **Frenger Park**.

12/1/2021	email to Wil	Elyn Clarke	dsrtmntgirl@hotmail.com	470 Farney Ln	Amenities	I think it would be REALLY nice to have exercise equipment in the Gomez park, on the south end, near the community garden. there are 2 sets of really nice equipment on the NE corner of the City. The Engler medians, and one in the new subdivision. it would be REALLY nice to have some in the southern part of the town too.
12/1/2021	email to Wil	Elyn Clarke	dsrtmntgirl@hotmail.com	470 Farney Ln	Planting	I would also like to have more colorful trees in the park. I miss seeing fall colors. the Chinese Pistache, some maples, etc would be very nice to have in the park.
12/1/2021	email to Wil	Elyn Clarke	dsrtmntgirl@hotmail.com	470 Farney Ln	Planting	I also wish the grass in the park was maintained like the ball fields are. It's VERY difficult to walk across Gomez park and not get a shoe full of goatheads. i once had to carry my dog out of the grass area because his paws were full of goatheads.
12/3/2021	email to Cathy	Rita Triviz	ritatriviz@comcast.net	2059 Cotton Avenue	Mountain View	Thank YOU so very much for inviting me to the December 10, 2021 Gomez Park and Frenger Park Master Plans meeting. As a way of emphasizing my appreciation and gratitude for the gorgeous view I currently enjoy from my home facing Tony Gomez Park, I am forwarding this YouTube video for your consideration in planning future Tony Gomez Park projects. I LOVE my view of my beloved Organ Mountains so much that the very first YouTube video I ever created was a tribute to the view of those glorious mountains that I enjoy from my very own backyard. While this YouTube video is 11 years old, I continue to savor the fact that I can soak in the splendor of the Organ Mountains every day. Those spectacular mountains helped me endure the COVID-19 shutdown. My backyard was my “happy place” for much of 2020. Therefore, I would very much appreciate it if Las Cruces Parks would take into consideration maintaining clear sight lines for those of us facing Tony Gomez Park and for ALL the neighboring residents who currently enjoy Tony Gomez Park as a place to play ⚾ cricket, T-ball, softball, baseball, soccer, frisbee, kite flying, football, dog walking and merely lounging on the grass to gaze at those marvelous mountains.
12/4/2021	prepared comment at event				Parking	The entrance to Gomez Park is pathetic and embarrassing. It should be paved and somehow separated from the apartments on its south side, so that the tenants do not use the area as to enter and exit. It should also be widened so that vehicles can enter and exit at the same time.
12/4/2021	prepared comment at event				Circulation	It is clearly evident that vehicles use the vacant lot on the southwest side to possibly access Espina Street and El Paseo. Barriers need to be added in between the park and the vacant lot. (Annotated map included with comments.)
12/4/2021	prepared comment at event				Shade/Shelter	Clearly the City recognizes the need for shade as evidenced by spending over a million dollars for that specific purpose in the downtown area. The shade structures in both parks are either non-existent or inadequate. Several students have waited to be picked up at the park by their parents, but have no protection from snow and rain.
12/4/2021	prepared comment at event				Parking	In addition, the City recognizes its need to provide parking as evidenced by plans to build a parking garage in the downtown area. Both parks need paved parking. The parking at Gomez Park needs to be separated, so it is not used by tenants in the apartments.
12/4/2021	prepared comment at event				Amenities	We need basketball goals.
12/4/2021	prepared comment at event				Lighting	We need lighting.
12/4/2021	prepared comment at event				Vagrancy	Our community has seen an increase in crime due to vagrants since the City closed its tent community. Shopping carts are everywhere and I foresee an increase now that the city has restricted its use of plastic bags. Do not add areas where vagrants can congregate and secure areas where they might.
12/4/2021	prepared comment at event				Programming	Finally, we need free planned activities. Health fairs, basketball clinics, gardening presentations, etc. should be held. It is incomprehensible how we can spend so much money on correcting social issues and social programs, but none in prevention.
12/4/2021	comment at event				Lighting	Inadequate lighting
12/4/2021	comment at event				Amenities	Is community garden open to anyone or NMSU only?
12/4/2021	comment at event				Planting	Opportunity for native plants, rainwater management, reduce erosion and mosquitos
12/4/2021	comment at event				Design	No one uses the middle of the park- no way in, not inviting
12/4/2021	comment at event				Planting	Goatheads are bad in the middle of the park
12/4/2021	comment at event				Circulation	Bisect trail on west side to connect to a new trail on the east side

What is your Zipcode?

Short answer text

Describe your relationship to Gomez Park:

☐ I live within walking distance

☐ I frequently walk or drive by

☐ I don't live nearby but I come to the park frequently

☐ None of the above

How often do you go to Gomez Park?

☐ Daily

☐ Weekly

☐ Monthly

☐ A few times a year

☐ Never

Page 2 of 6

Which amenities do you use at the park?

☐ Parking

☐ Playground

☐ Picnic tables & shelters

☐ Field

☐ Paved walking path

☐ Community garden

☐ Pet waste dispensers

☐ Other...

Which activities do you do at the park?

☐ Play a field sport

☐ Play at the playground

☐ Sit or eat at the tables

☐ Park a vehicle

☐ Park a bicycle

☐ Walk on the trail

☐ Sit in the grass

☐ Bike on the trail

☐ Jog or run on the trail

☐ Garden at the community plots

☐ Walk a dog or other pet

☐ Other...

Page 3 of 6

Design Opportunities

What existing features do you like about the park?

☐ Large open field

☐ Trees along Espina Street

☐ Playground

☐ Picnic tables

☐ Shade structures

☐ Plenty of parking

☐ View of the mountains

☐ Paved walking trail

☐ Community garden

☐ Pet waste dispensers

☐ Other

What would you like to see more or less of?

	Less	Same	More

05. PUBLIC ENGAGEMENT WORKSHOP

PRELIMINARY DESIGN CONCEPTS

CONTENTS	SUMMARY
	ANNOTATED DESIGN SCHEMES
	ANNOTATED PRECEDENT IMAGES
	PUBLIC AND STAFF COMMENTS
	ONLINE SURVEY RESULTS
	APPENDIX

Workshop Summary

A Public Workshop was held at City Hall on March 5, 2022. The purpose of the workshop was to receive stakeholder input on preliminary design concepts for Gomez Park. The design concepts were developed based on site analysis, discussion with Parks and Recreation Department staff, and feedback from the first public workshop held three months earlier.

The meeting began with a review of the three design concepts and a discussion of the proposed amenity options. Then participants were able to review large-scale print copies of the plans and use sticky notes to provide written comments. Participants were also given dot stickers so they could mark preferences on a poster of images that showed a range of amenity options.

Throughout the workshop, the consulting landscape architects and staff of the City’s Parks and Recreation Department were available to engage in discussion and answer stakeholder questions.

Community members discuss and comment on the preliminary design concepts

Amenity Preferences

Soccer field

Sport court

Shaded bench swings

Pedestrian prioritized crossing to Frenger Park

Select Public Comments

TOPIC	COMMENT
Program	Disc Golf would be better somewhere else- you need hazards and ground undulations
Program	Keep central field open so many activities can be held- right now all sorts of activities take place
Amenities	Benches and swings seem to be a lovely addition without tables being needed for an average outing
Planting	No tall trees to block view of mountains for Cotton Ave residents
Maintenance	The city should spend money on infrastructure before amenities

Online Survey

All participants were encouraged to take an online survey to share their thoughts about the existing park amenities and preferences for future amenities. A link to the survey was also shared by the Parks and Recreation Department through email and on social media.

Results

One hundred ninety-five individuals completed the survey in English and one respondent completed the survey in Spanish. Respondents indicated preferences regarding the preliminary design schemes.

DEMOGRAPHICS:

- 61% of respondents live nearby or pass by the park frequently
- 64% of respondents use the park daily, weekly, or monthly
- The **Scheme C** (Sunset Park) was slightly preferred over Schemes A and B.

GENERAL IMPROVEMENTS:

- **Site lighting** received the strongest support for general site improvements with 77% of respondents selecting it as a preference
- A **small plaza for community events** received strong support (51%) followed by a **paved parking lot**, a **pedestrian-prioritized crosswalk** to Frenger Park, and Green Stormwater Infrastructure

AMENITY PREFERENCES:

- **Walking paths and nature discovery paths** are consistently the most preferred amenity
- Comfort facilities such as **restrooms, picnic tables, and shade structures** are popular
- An **improved playground** received strong support followed by shaded bench swings, fitness stations, and a sport court

Scheme A Comments		
Location	Topic	Comment
General	Program	Homeless Campground Areas, with Facilities
West	Planting	No tall trees to block view of mountains for Cotton Ave residents
West	Planting	PLEASE do not obstruct view of organ Mountains for residents on Cotton Avenue
Center	Program	No (disc) golf course we have garden plots no matter when we come for it there are different groups using the fields soccer, baseball, kite flying frisbee etc young little kids highschool older families etc they would lose their place
Perimeter	Amenities	Support multi-use trail around park. Similar to trail at Sisbaro Park at NMSU. Use of speed pillow instead of speed table on Espina to allow bicycles to not have to deal with the bump.

Public Comments			
date	format	topic	comment
5-Mar	In-person	Spending	The City should spend money on infrastructure before amenities
5-Mar	In-person	Planting	Don't plant shade trees that will obstruct views of the Organ Mountains
5-Mar	In-person	Programming	Disc golf would be better somewhere else- you need hazards, ground undulations, not just open grass
15-Mar	Letter		Thank you for the multiple presentations to Las Cruces citizens related to the parks and recreation facilities across the city. Well done, thoughtful, and slated to encourage citizen participation for "wants and needs." I would be in favor of fixing all the drainage issues first in the most asthetically possible way - waterfalls, xeriscapes, and splash pools and rock walls. Care, outside of facilities, ought to be minimal, open fields are great for imaginative use and maintaining those open fileds with simple grass makes sense. Moveable posts and hoops have to be secured against vandals, so an auxilary police area ought to be in place at each park, with bike riding policemen or "citizens watch" signs (not necessarily manned) prominently displayed. Benches and swings seem to be a lovely addition w/o tables being necessary for an average outing. Thank you for being available for citizens comments and questions. You are quite an asset to the Parks & Rec Dept.

Staff Comments		
Name	Position	Comment
Mike Selves	Facilities Electrician	Will bollard lighting be needed for the walking paths? Will parking lot lights be needed and 120v outlets in the island? What about 240v for food trucks? Will lighting be needed for the soccer fields, playground, and sport court? Will 120v outlets be needed for the market space, picnic area, and plaza area? Will the 3 solar powered light poles in the NW corner be removed? Wherever the electrical services are located they will need to be fenced in or included in the restroom buildings. I will go look at both parks to determine current electrical supply.

Gomez Park-Preliminary Design Schemes

The City of Las Cruces is seeking public input on the future of Gomez Park, located at the intersection of South Espina Ave and Farney Lane. Please use the following form to share your thoughts.

What follows are 3 preliminary design schemes for you to consider. All of the ideas shown are still conceptual in nature and no one option would likely get built exactly as it is shown here. We welcome your input into the overall design as well as the specific features so that we can best incorporate the community's wishes into the final design proposal.

After viewing all three schemes, you will be asked about your preferences.

Esquemas de Diseño Preliminar del Parque Gómez

La Ciudad de Las Cruces busca la opinión del público para el futuro del Parque Gómez, ubicado en la intersección de South Esplan Ave y Farney Lane. Utilice el siguiente cuestionario para compartir sus pensamientos.

A continuación, presentaremos 3 esquemas de diseño preliminar para su consideración. Todas las ideas que se muestran son conceptuales y es probable que ninguna opción se construya exactamente como se muestra aquí. Demos la bienvenida su opinión sobre el diseño general y comentarios específicos para que podamos incorporar los deseos de la comunidad en la propuesta de diseño final.

Después de ver los tres esquemas, se le preguntará sobre sus preferencias.

Are there other new amenities you would use at Gomez Park?
Goat head free park!
Every park should have gardens- this is a huge park that can support a native plants area and is relatively cheap to install. Native grasses can facilitate drainage and native bushes and flowers can encourage pollinators and predators of mosquitos. A path through the gardens would invite people into the park to walk or sit. It would also connect one side of the park to the other and people with nature. Native trees like desert willow, and a bench or two, provide shade for people to sit and enjoy, and once established require little maintenance, esp if planted in areas that already see water and moisture through run-off.
grass without burrs and stickers, water fountains

DESIGN NARRATIVE

Frenger Park is part of the City’s stormwater management system. As such, any future improvements or maintenance to that system may influence the planning and design of the park. These factors played a role in the master planning process and lead to the inclusion of high-value/low-investment amenities such as a picnic grove in the southern portion of the park where infrastructure activities are concentrated.

The master plan design took shape based on input from community members, Parks & Recreation staff, and from site analysis performed by the consulting landscape architects. Design components include:

- A nine-hole Disc Golf course that utilizes distinct areas of native grasses and wildflowers to direct play
- A sport court area that can accommodate a variety of sports - see page 7
- A restroom and facilities building to support park amenities and provide comfort to park users
- A perimeter walking trail that reorganizes the existing street right-of-way to enhance pedestrian safety - see page 8
- Designated access points into the park using stairs and ramps
- A pedestrian-prioritized crosswalk across Farney Lane to Gomez Park
- A splash pad with shade structures and easy access to restrooms and equipment structures in accordance with State regulations
- An enhanced playground for neighborhood children

NOTE: This is an estimate of cost only based on rough costs at the time of publication. This estimate is for budgeting purposes only. Deviations can be anticipated due to unforeseen construction and material costs, revisions to the proposed design, and fluctuations in market prices. * Denotes items that could potentially be funded and/or installed independently

Potential Funding Sources

City of Las Cruces General Obligation Bonds

- City of Las Cruces bonds that are the source of funding for basic capital improvement projects which benefit the general public but generate little or no revenue.
- Council-approved projects become ballot questions for a general election.
- Run by the Community Development Department.
- Typically on a four-year cycle with the next round on the November 8, 2022 general election ballot.

City of Las Cruces Park Impact Fees

- Funds new neighborhood park facilities and services from per-unit fees paid by new property developments.
- Impact Fees may not be used for demolition, repairs, or replacements at existing parks.
- Could potentially be used at Frenger Park for disc golf equipment, picnic area, access stairs/ramps, and/or a perimeter path.

City of Las Cruces Capital Improvement Program

- Projects are funded by revenue bonds.
- Funding is facilitated by the City of Las Cruces Office of Management and Budget.

City of Las Cruces General Fund

- Typically used for operating expenses but can be used for small capital expenses such as playground equipment.

Grants & Supporting Organizations

- Outdoor Recreation Legacy Partnership—Urban Parks Grant Program through the Land and Water Conservation Fund
- National Park Service—Rivers, Trails, and Conservation Assistance Program
- National Recreation and Park Association
- Trust for Public Land
- City Parks Alliance
- National Park Trust
- Play equipment grants such as KABOOM!
- Community Wellness Hubs
- Waste Management Charitable Giving
- Community Garden grants such as Fruit Tree Planting Foundation Grant Program
- Physical Fitness grants
- Water quality and green stormwater infrastructure grants
- Public art grants
- American Association of Retired Persons grants

INVENTORY & ANALYSIS: EXISTING CONDITIONS

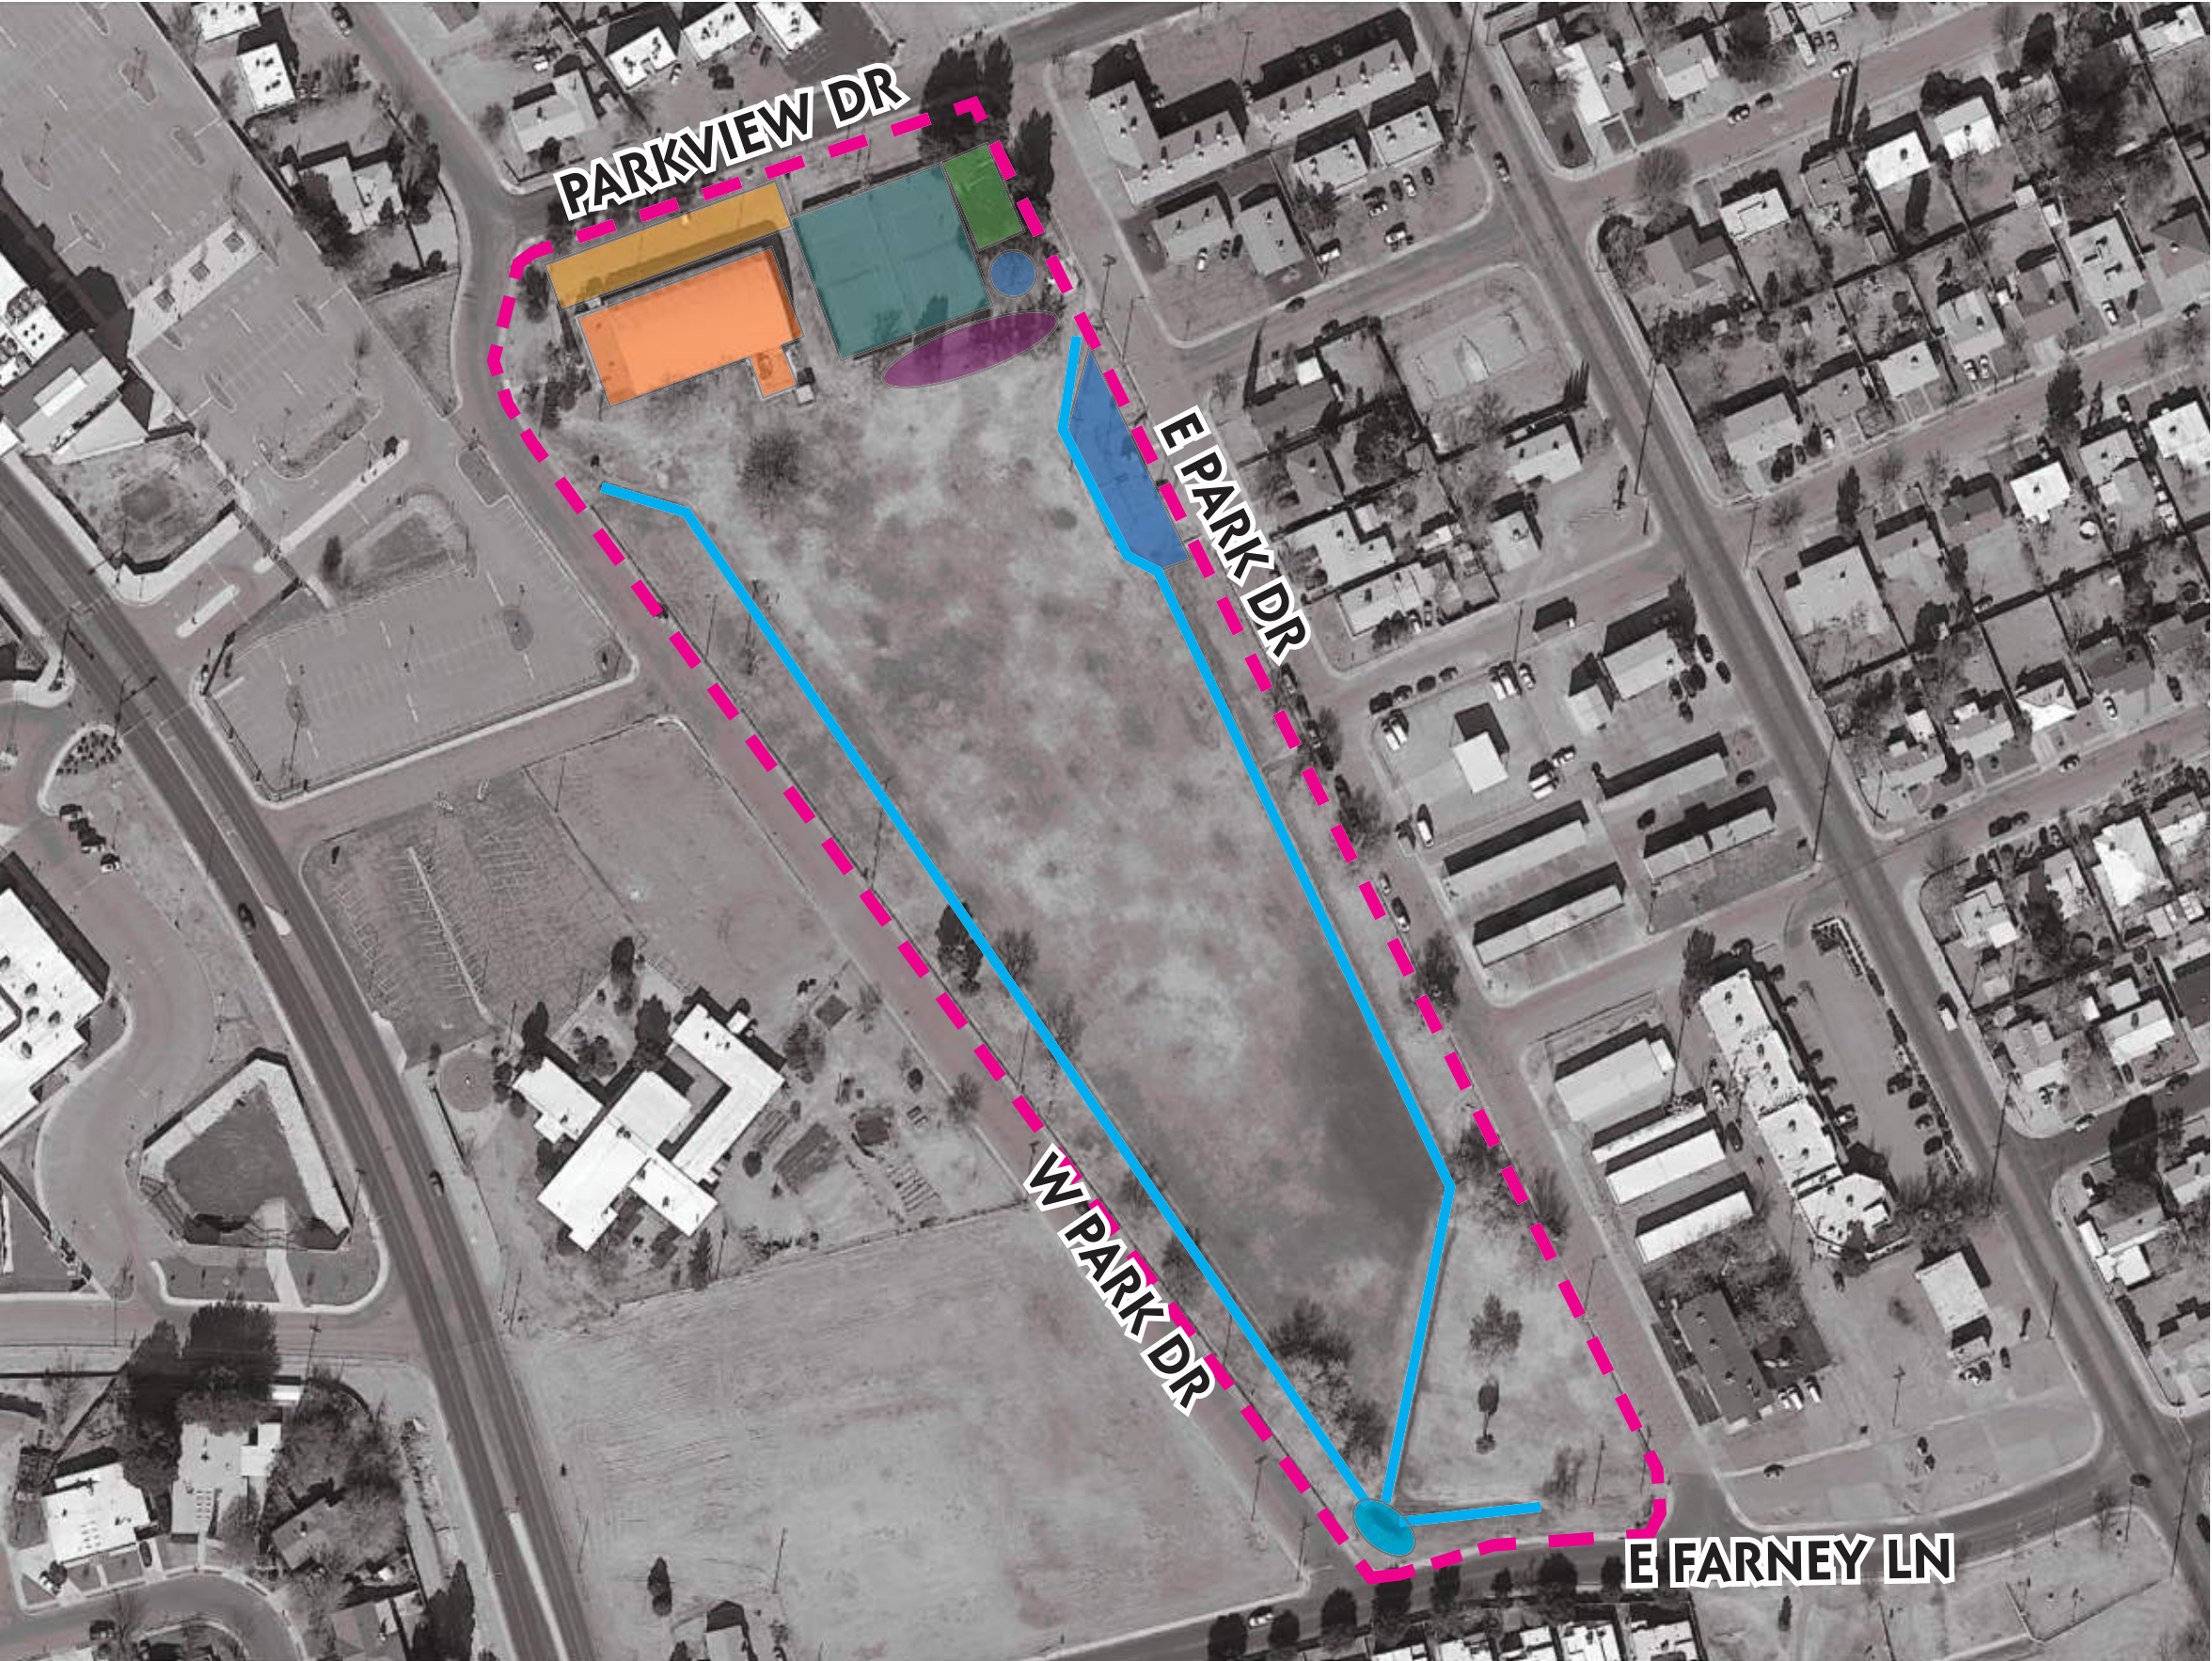

Existing Program

Frenger Park is primarily a large basin in the City of Las Cruces Stormwater management system. Amenities in the approximately 9.9 acre park are clustered at the north end of the site and include an indoor pool, tennis courts, and a play structure. The property is also the site of a wastewater lift station and Well #35.

FRENGER PARK MASTER PLAN

LAS CRUCES, NM

INVENTORY & ANALYSIS: ADJACENCY

The north and east sides of the park are adjacent to single family and multi-family residences

Las Cruces High School can be seen across El Paso Rd from the parking lot

Local businesses along the east side of the park

Gomez Park to the south

FRENGER PARK MASTER PLAN

LAS CRUCES, NM

INVENTORY & ANALYSIS: ADJACENCY

Access

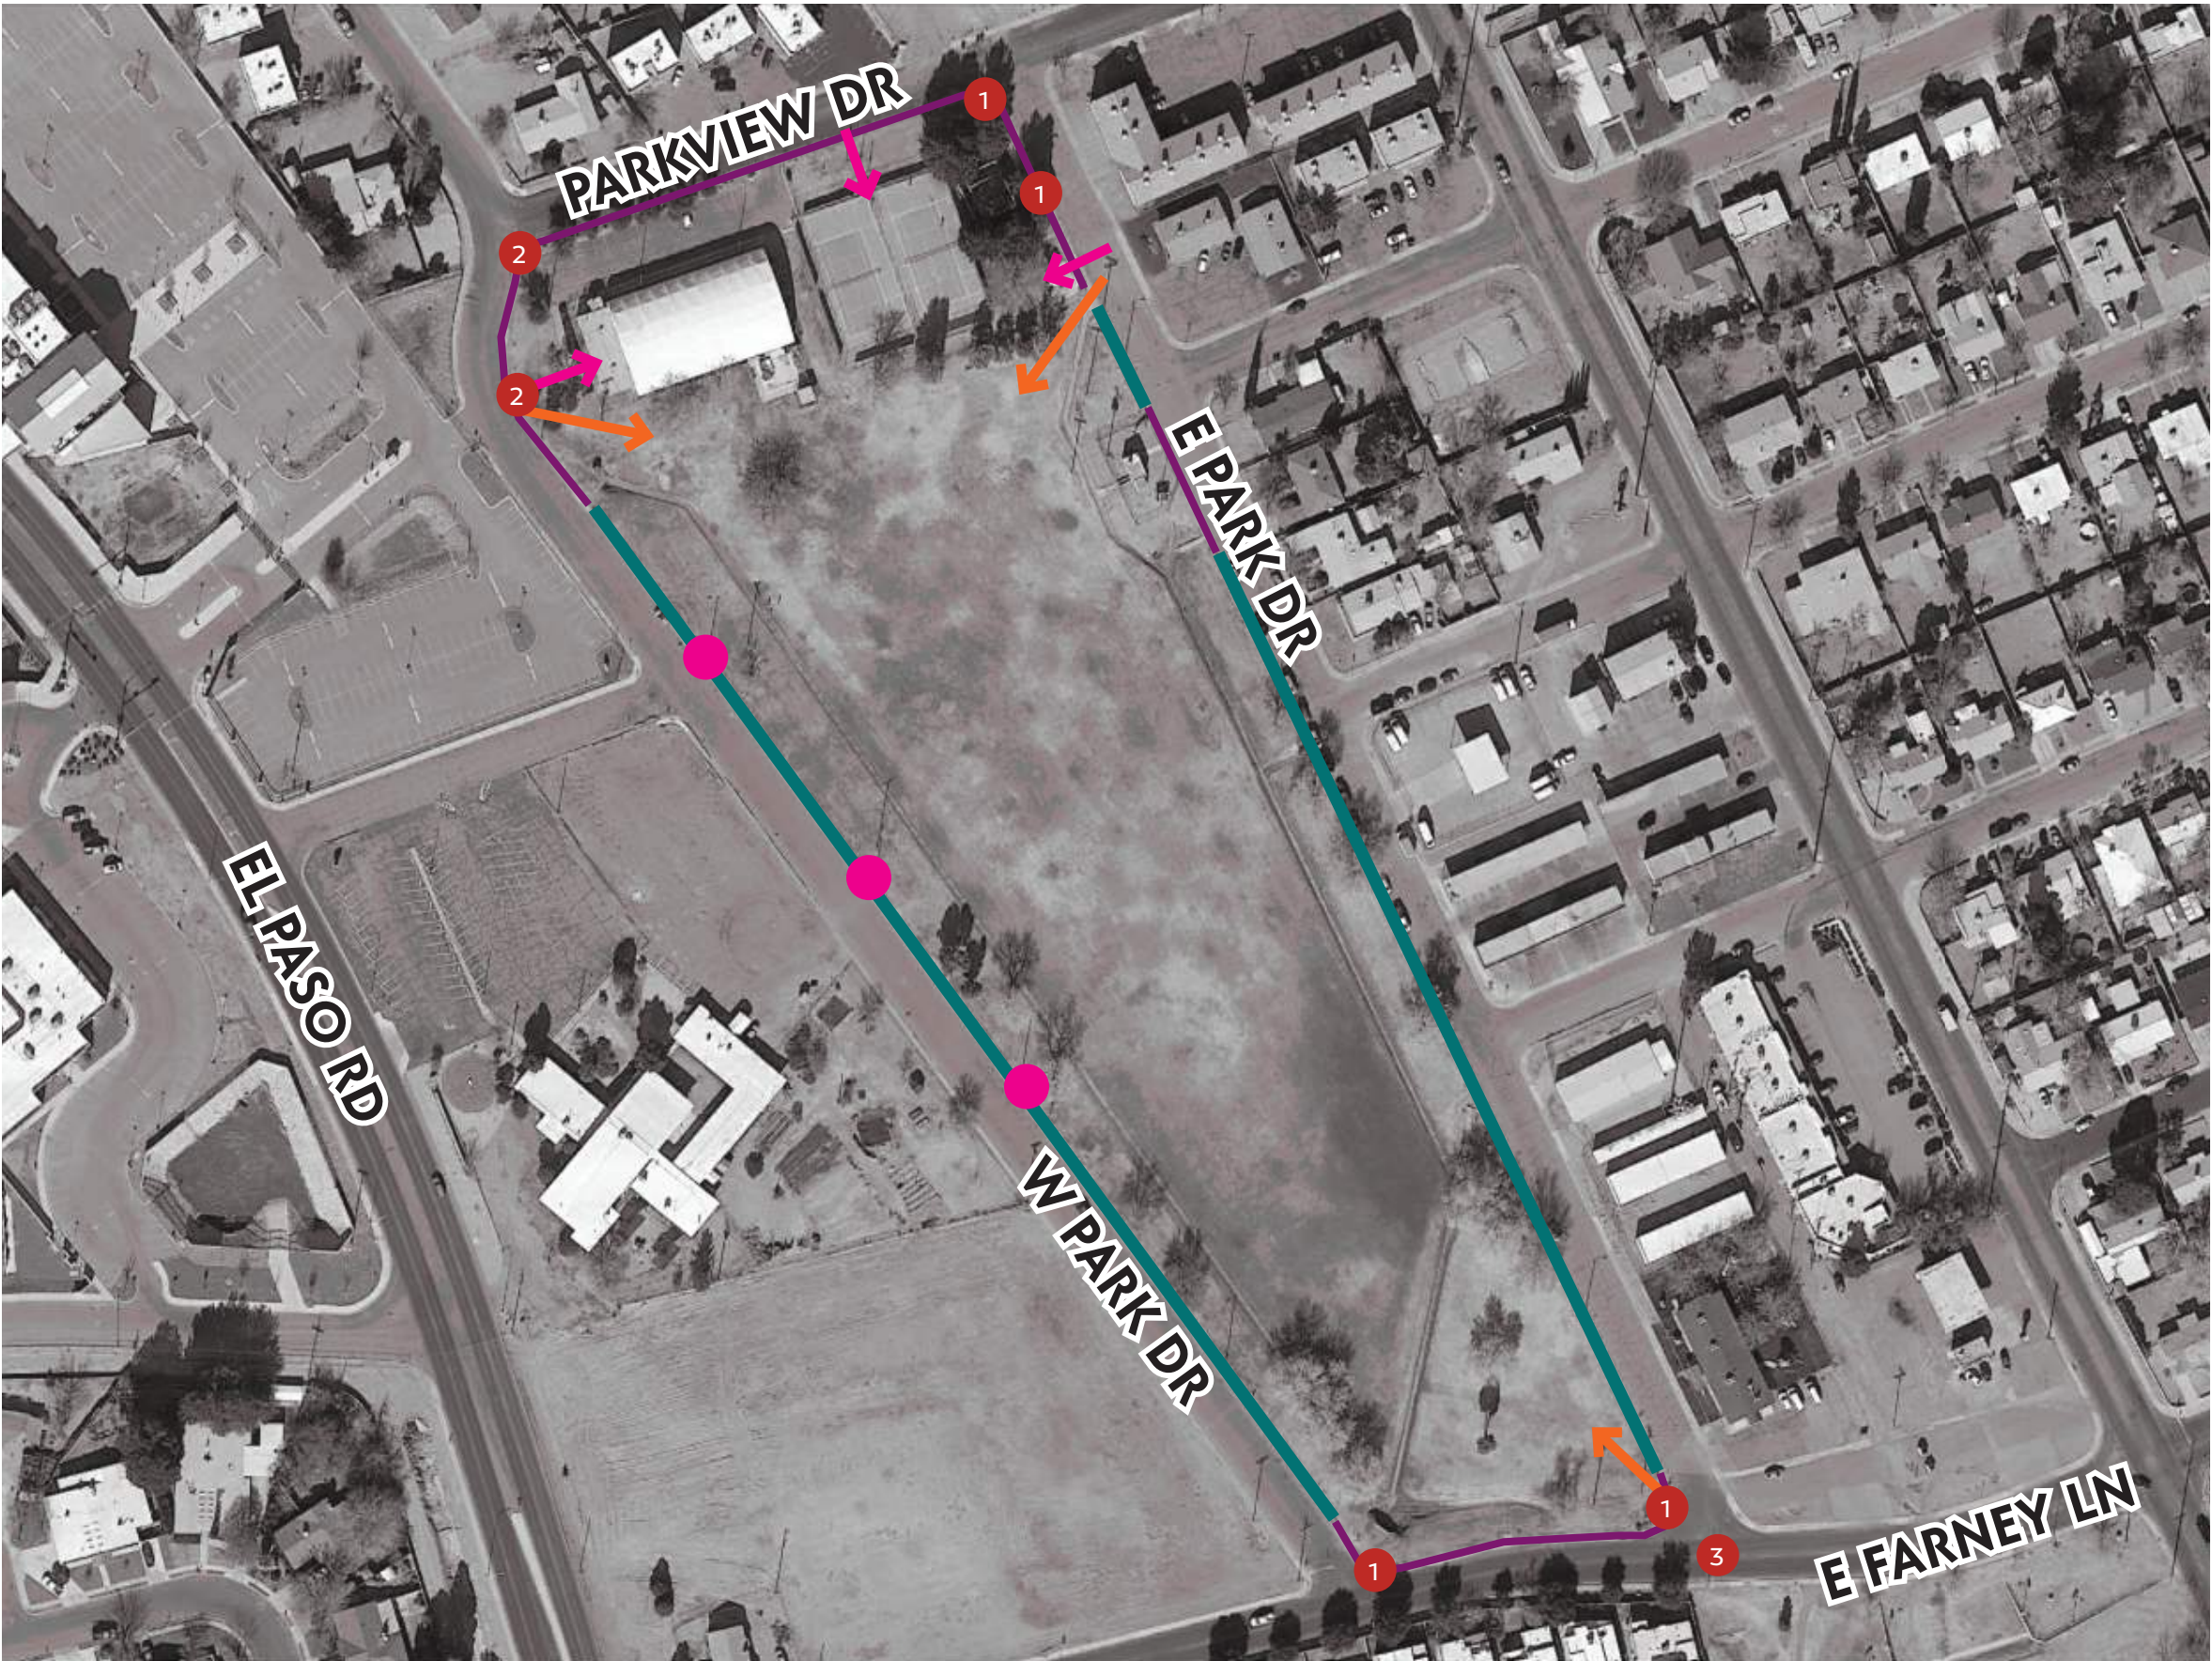

Vehicular access to the pool and tennis courts is accommodated by a parking lot in the northwest corner and includes ADA compliant spaces. The tennis court slab sits just above the surrounding grade therefore not meeting ADA standards. There is ample street parking on E Park Drive and W Park Drive. It appears W Park Drive is used for parking by Las Cruces High School students during the school year. E Park Drive appears to be used for parking by employees of the FedEx Depot on Jett Ave; this use could increase during the holiday season. A narrow sidewalk also runs along these streets but without a curb, many cars unintentionally park on the sidewalk. Aside from the designated amenity areas, access to the park is very difficult. There are no formal or highly visible access points. A guard rail separates the street and park along E Park Drive and W Park Drive. Only a few breaks in the guard rail allow people on to the field. Steep slopes on the sides of the basin limit accessibility to the field and currently there is not an ADA-compliant route to the field or to the benches at the top of the slope.

KEYED NOTES

- 1 RAMP/CURB CUT
- 2 ADA COMPLIANT SIDEWALK RAMP
- 3 UNSAFE CROSSING CONDITIONS TO GOMEZ PARK

- USER-CREATED PATH
- AMENITY ACCESS

FRENGER PARK MASTER PLAN

LAS CRUCES, NM

INVENTORY & ANALYSIS: ACCESS

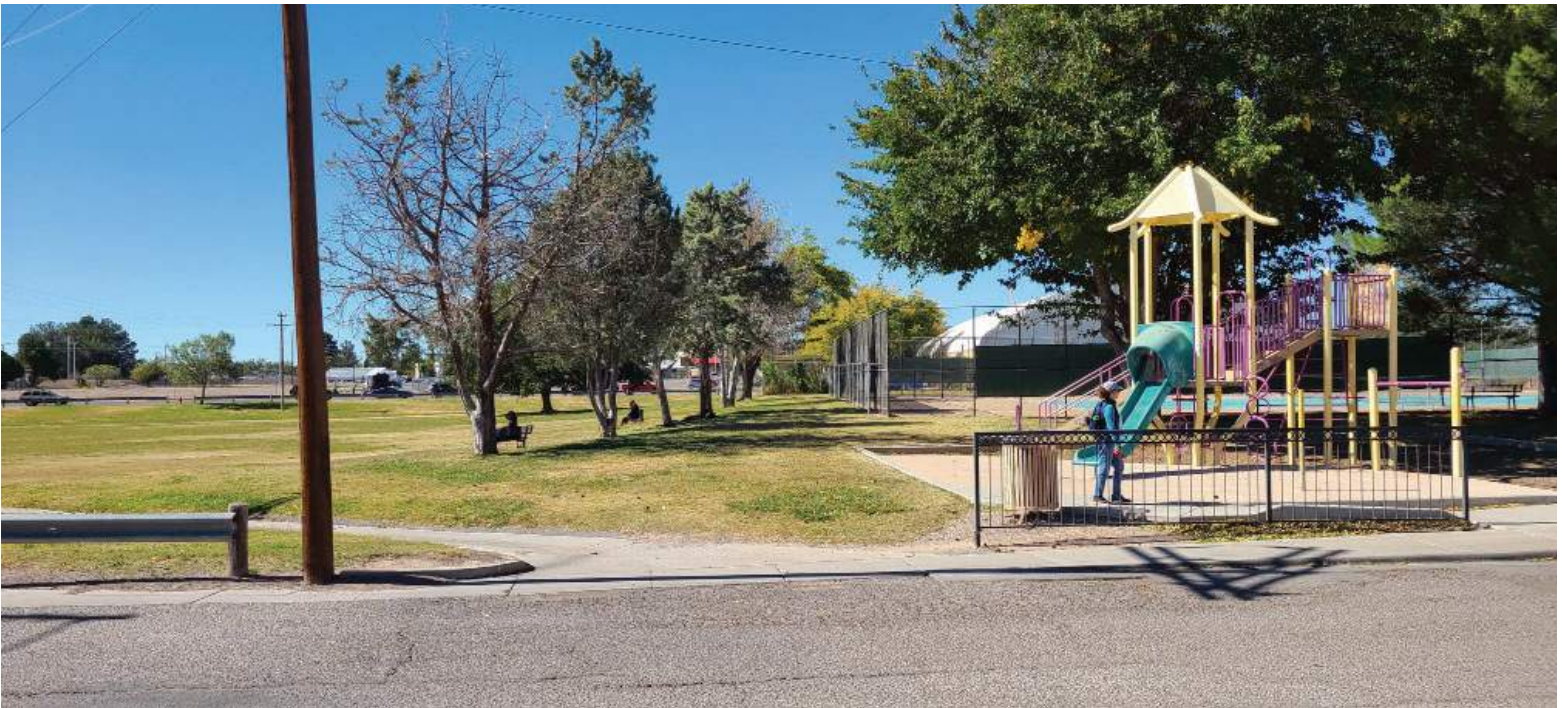

Streets without curbs & gutters, narrow sidewalks, and vehicular guardrails form most of the park's perimeter

Breaks in the guard rail serve as access points to the park

Where none has been provided, users have defined their own paths

The play structure is buffered from the road by an ornamental fence

FRENGER PARK MASTER PLAN

LAS CRUCES, NM

INVENTORY & ANALYSIS: ACCESS

Neighborhood Connections

Many opportunities exist to connect Frenger Park to the surrounding neighborhoods. Gomez Park to the southeast is another City-owned property. An enhanced intersection at E Park Dr and E Farney Ln, including a crosswalk, could safely link the two parks. Proximity to the High School could be enhanced, providing students access to the outdoors during lunch and other free times.

Amenities

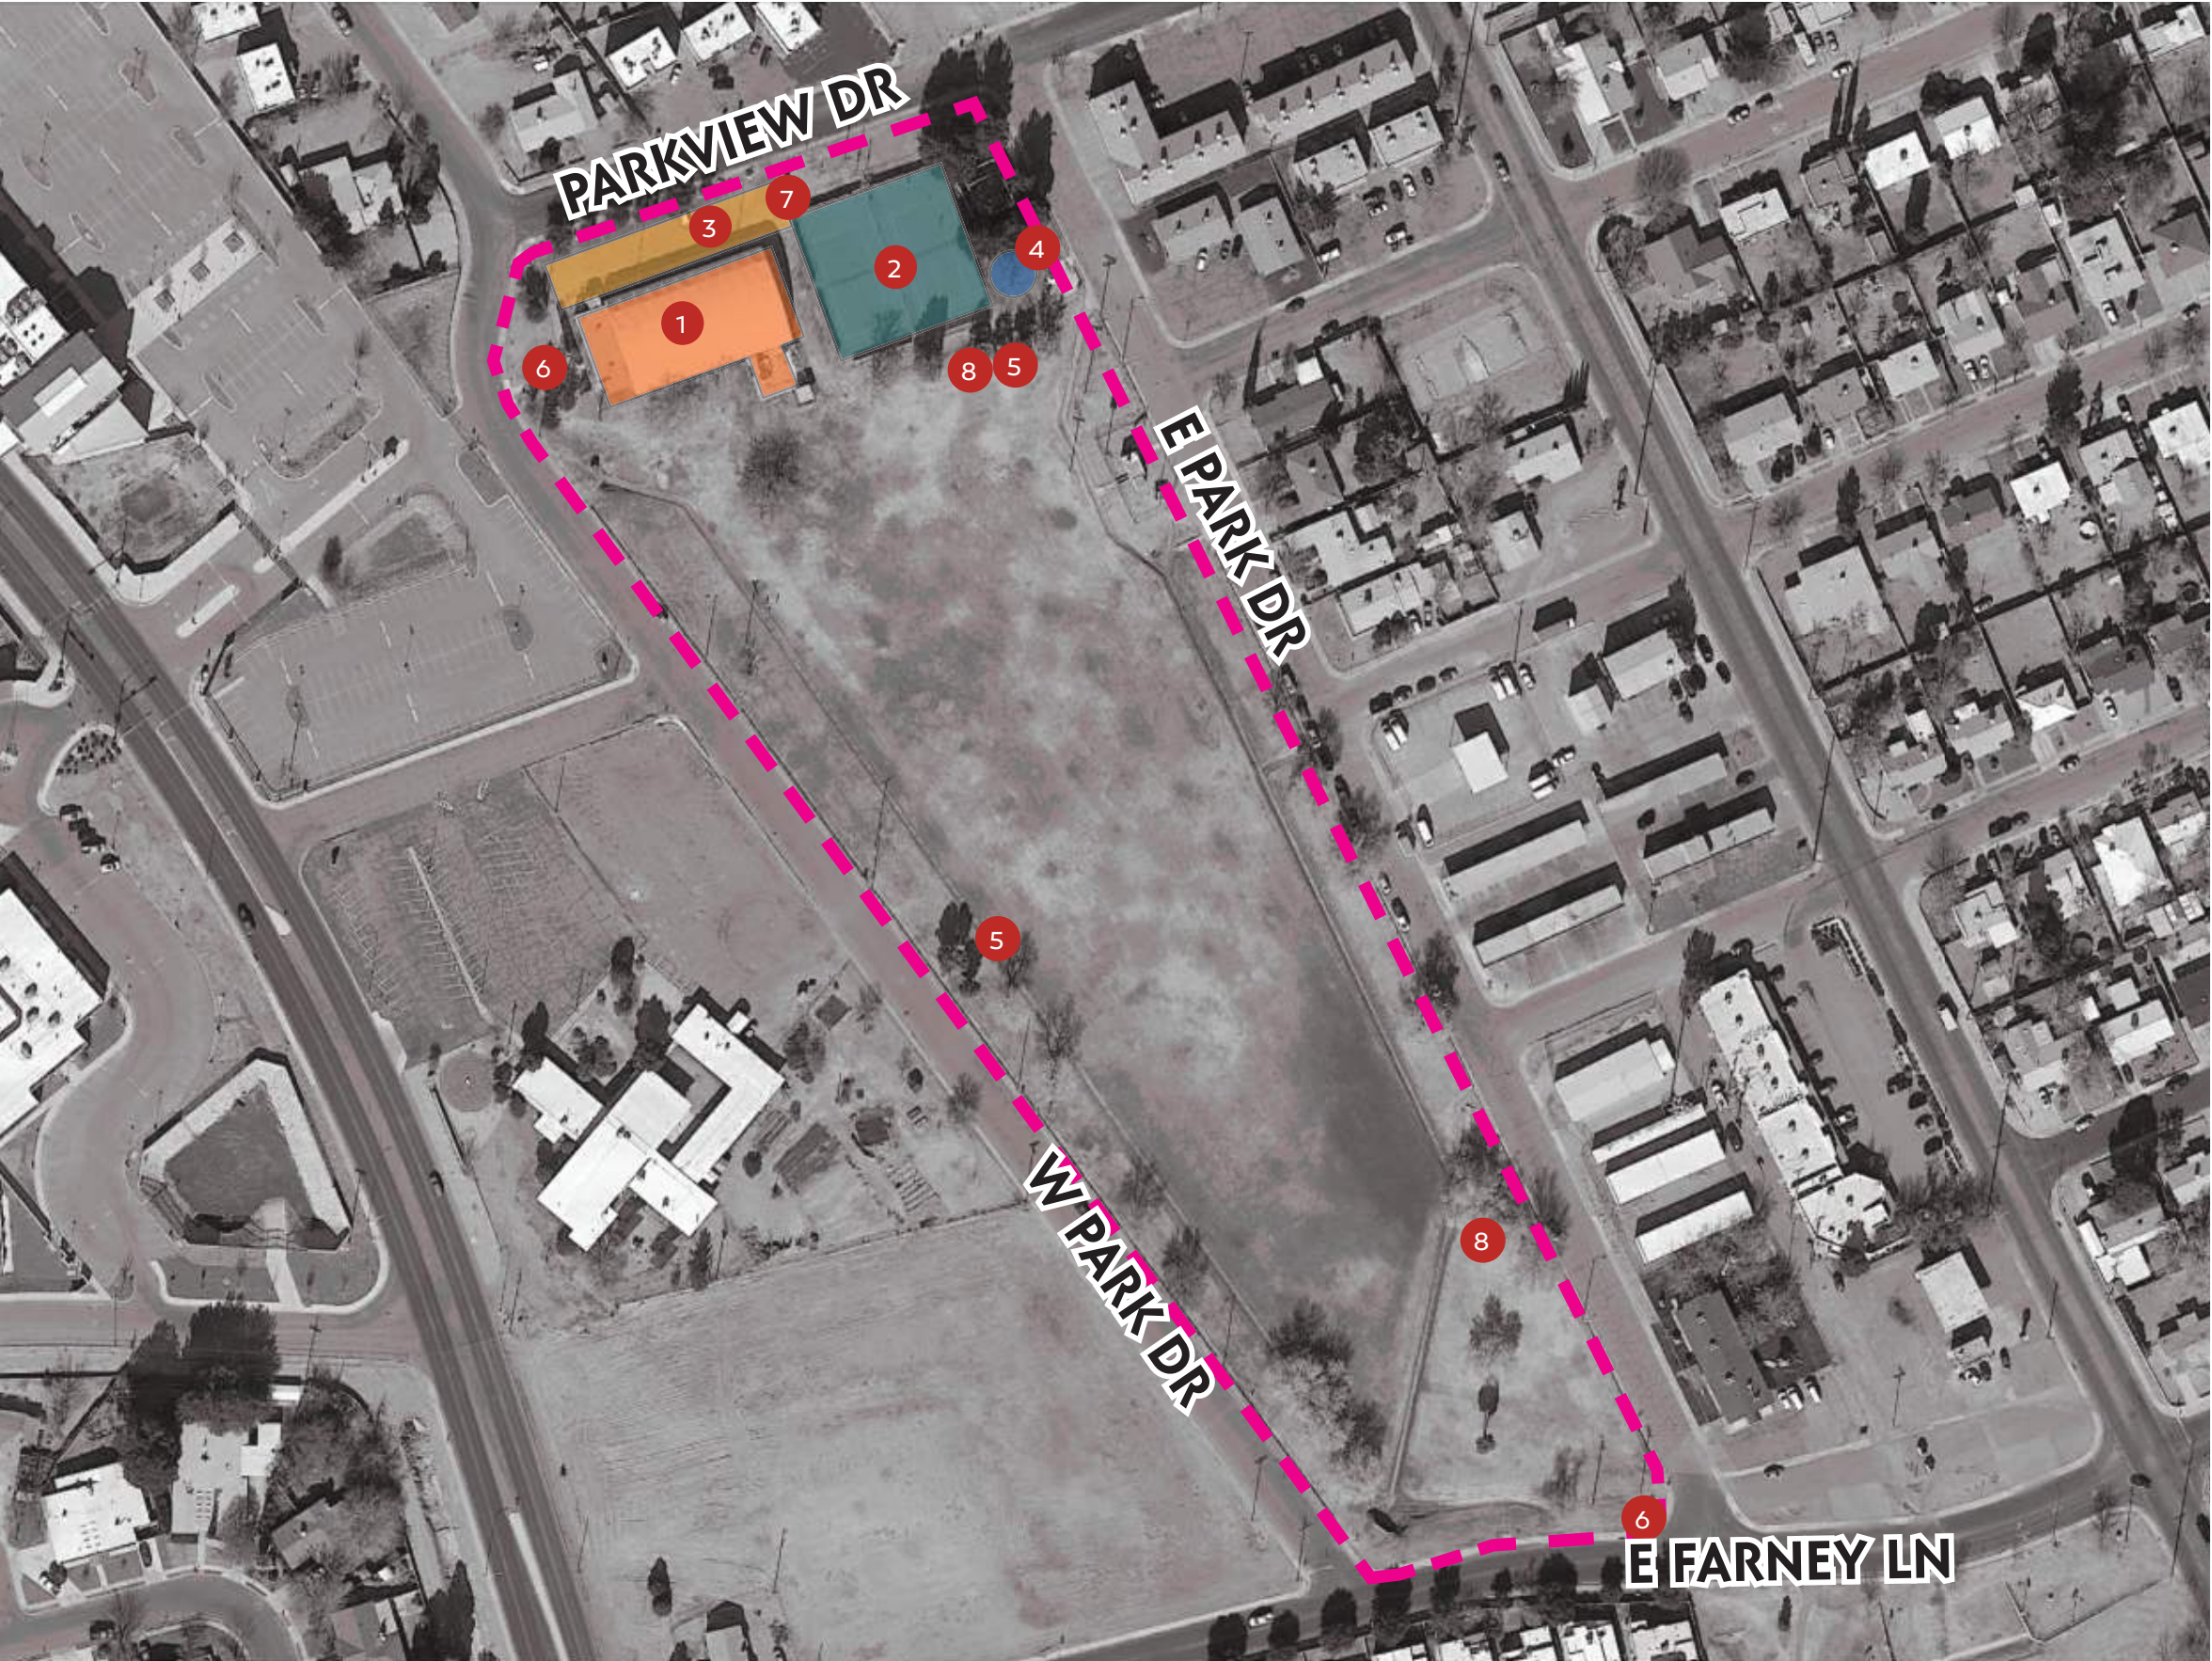

Park amenities are clustered at the north side of the site. An indoor pool was constructed in the 1980's and is still used by local residents. Two tennis courts are in good condition and are also striped for pickleball. A small play structure sits in the northeast corner. It is next to the Wastewater Lift Station, which emits a mild but noticeable odor. A few benches are situated in a the park near or under trees, offering a shady place to sit and look into the park.

Utilities

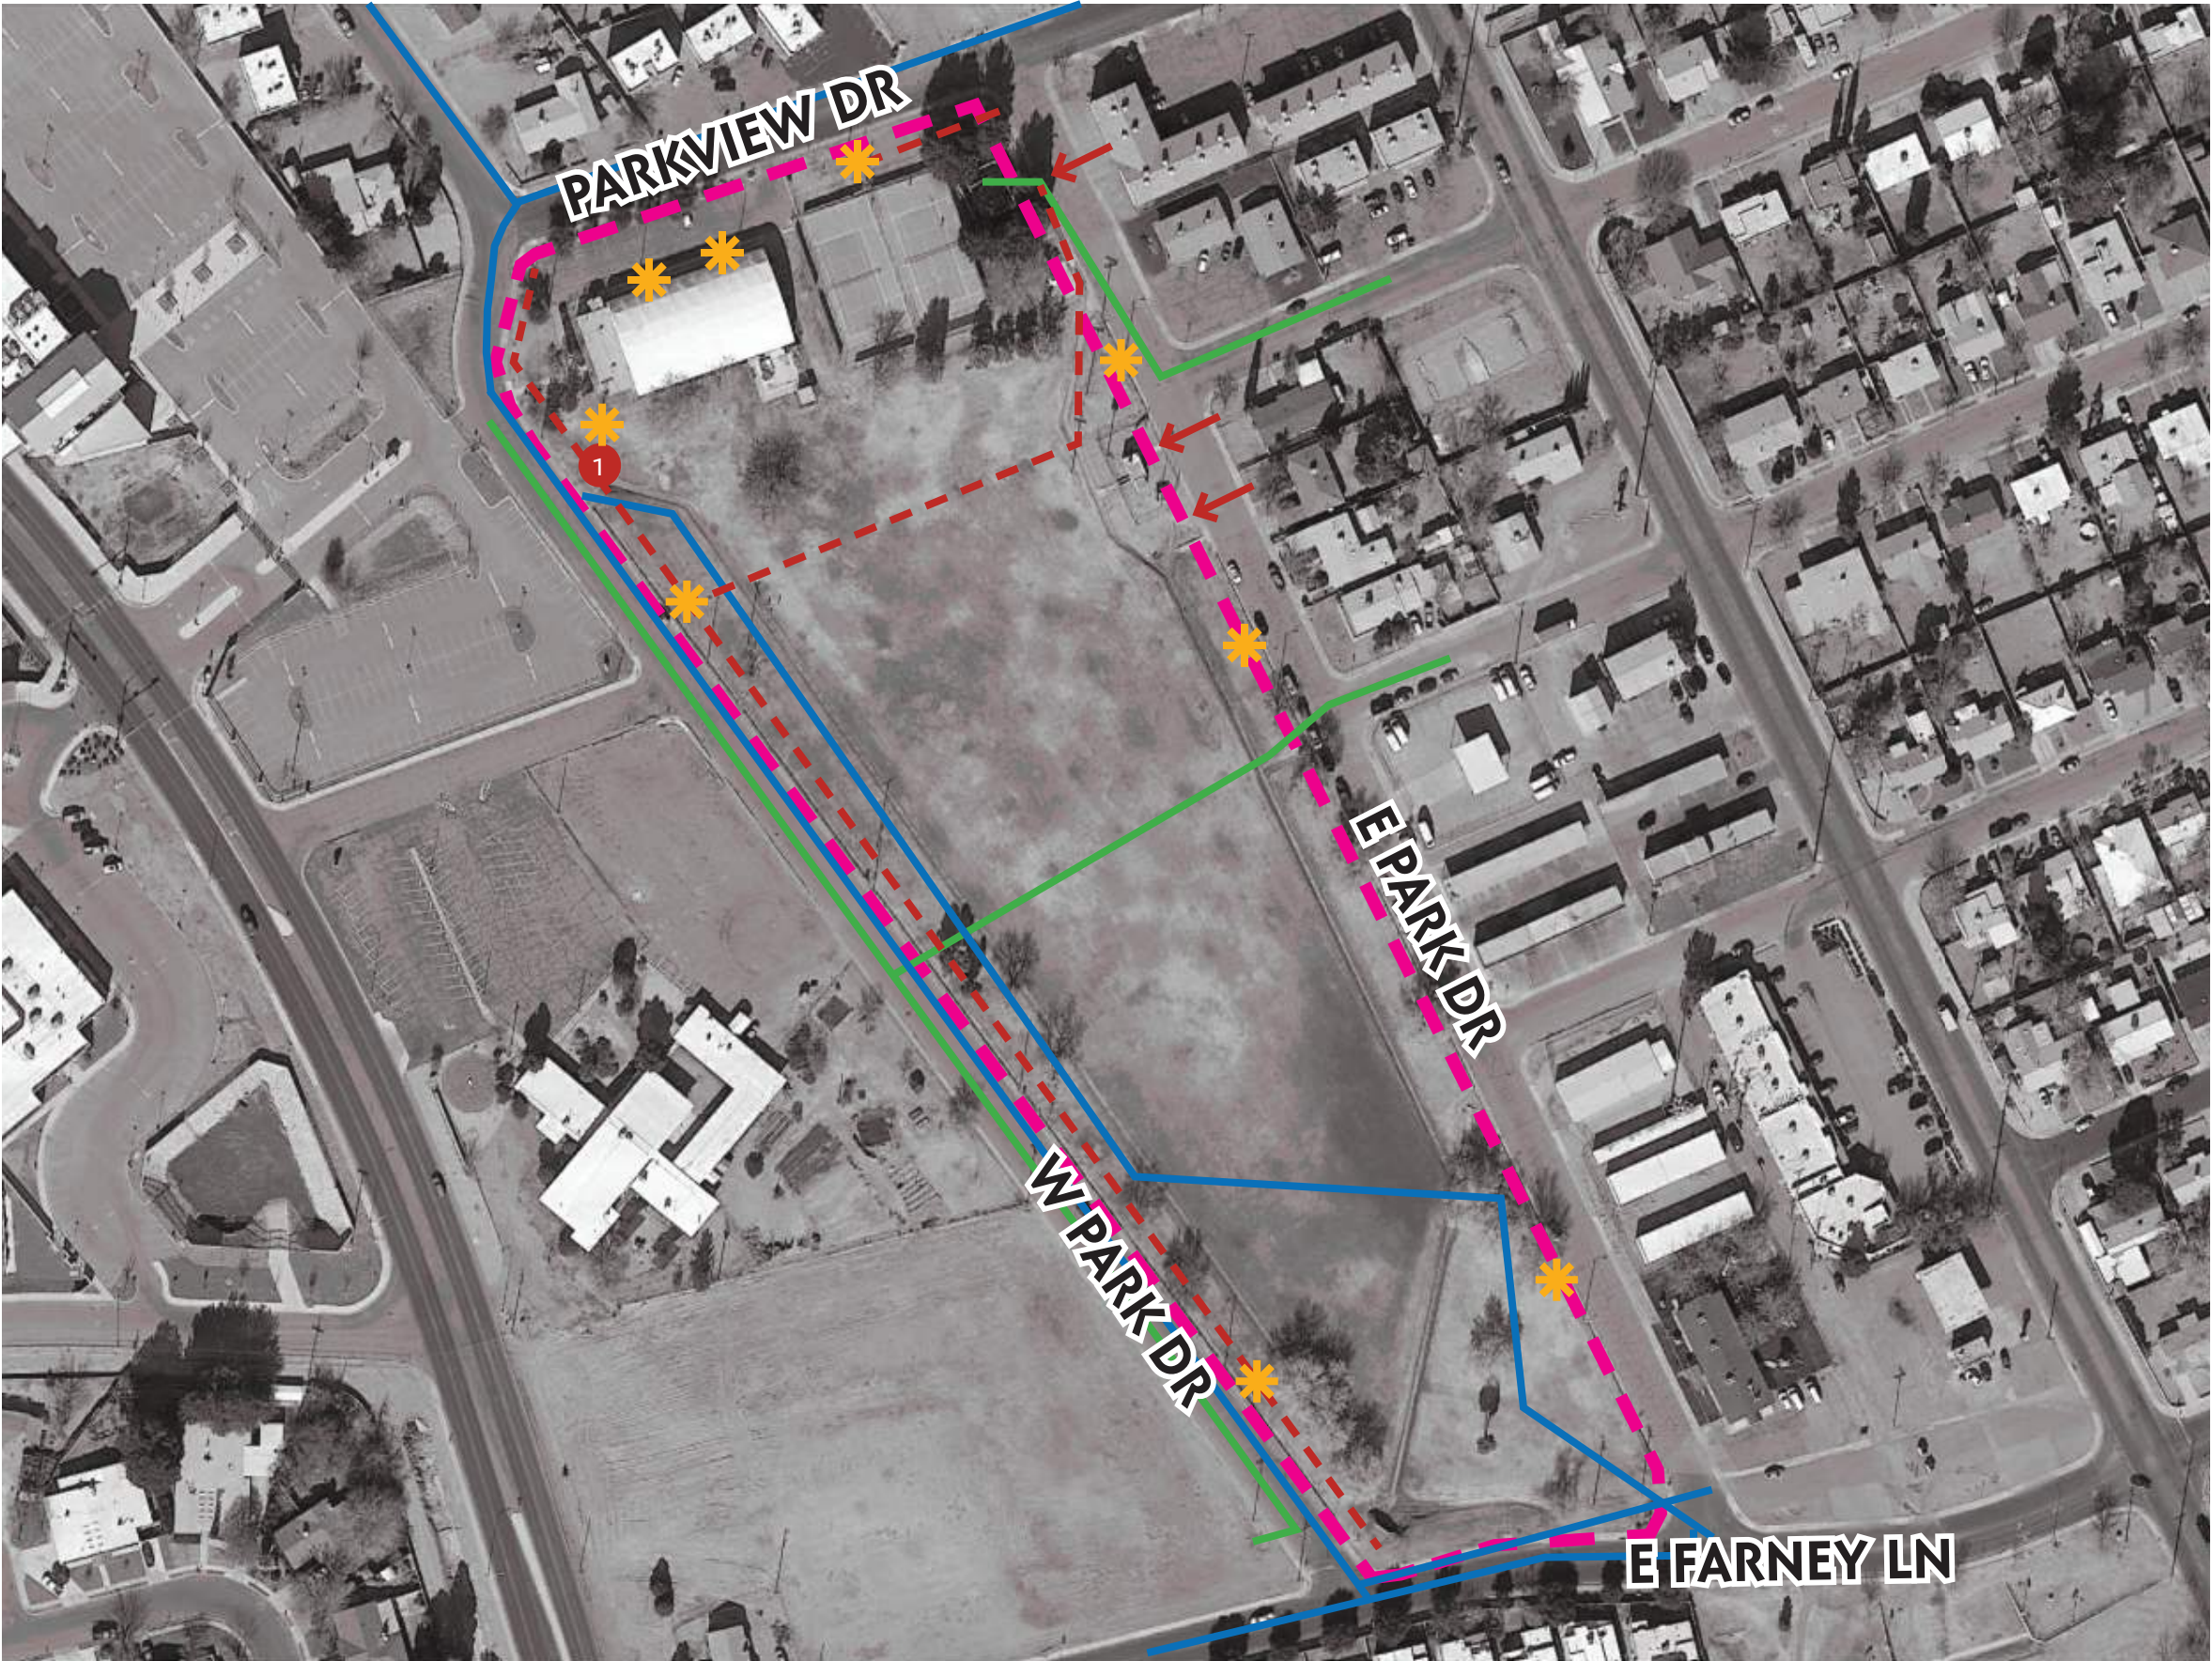

Sewer and water lines run the length of the park property. An overhead power line runs across the park, supplying power to the well on E Park Dr. There are currently two light poles in the parking area and one in the lawn area adjacent to the courts. Three lightpoles line each East and West Park Drives. There are lights along E Farney Lane, but not in the section that fronts Frenger Park.

Trees

A number of large cottonwoods dot the perimeter of the park giving it distinct character and many shady places to sit. A pair of mature of Arizona cypress sit in the middle of the western side of the park. A row of cypress line the northern portion of the field, separating it from the courts and play area. Benches are located in the shade of these trees. Many live oaks are planted around the pool and accompanying parking lot along with grasses and other ornamental plants. The City Forester has identified this park as an opportunity to plant many trees in support of the City’s PEAK performance goals.

03. PUBLIC ENGAGEMENT WORKSHOP

EXISTING CONDITIONS & OPPORTUNITIES

CONTENTS	SUMMARY
	WORKSHOP MATERIALS
	WORKSHOP RESULTS
	ONLINE SURVEY
	ONLINE SURVEY RESULTS

Workshop Summary

A Public Workshop was held at City Hall on December 4, 2021. The purpose of the workshop was to receive stakeholder input on existing site conditions and to engage them in envisioning possibilities for future improvements.

The meeting began with a review of existing conditions including both diagrammatic maps and site photographs. Next, participants were asked to review large scale aerial photographs of the park and were invited to provide comments and ideas using sticky notes placed on the aerials. Scaled plan cutouts of amenity items such as pickleball courts, a regulation-sized soccer field, and basketball courts were manipulated to envision possibilities for future site layout.

Finally, participants were asked to review precedent images of various materials and amenities. They were given colored dot stickers and asked to place them on the images they preferred. Throughout the workshop, verbal comments from participants were discussed and recorded.

Program options were discussed at the workshop

Preferences

Pickleball

Rainwater harvesting area

Soccer fields

Picnic area

Select Public Comments

TOPIC	COMMENT
Park Design	The park does not invite you in
ParK Design	Universal/ADA access
Amenities	Good pickleball courts with ADA access (22 write-in comments)
Amenities	Food truck area
Amenities	Provide clean and safe restrooms
Amenities	Water fountains, shade, seating
Security	Provide better lighting

Survey

All participants were encouraged to take an online survey to share their thoughts about the existing park amenities and preferences for future amenities. Paper copies of the survey were also available at the workshop, see Appendix.

Results

Fifty-seven individuals completed the survey. Respondents indicated preferences regarding the park’s existing conditions and for potential new amenities.

CURRENT USE:

- 36% of respondents live nearby or pass by the park frequently
- 22% use the park daily or weekly
- 47% of respondents don’t live near the park and 25% never visit the park. 47% visit the park a few times a year.
- **Playing pickleball, walking, walking a pet, and sitting on the benches are the most popular activities.**
- Using the **aquatic center and parking a vehicle** are the second most popular activities.

ENHANCE EXISTING AMENITIES:

- More & better **pickleball courts**
- More **benches**
- More **parking**

PREFERRED NEW AMENITIES:

- **Restrooms**
- **Shade** structures and more **seating** options
- **Lighting**

NEIGHBORHOOD CONNECTIONS:

- 40% of respondents want a safe pedestrian and bicycle connection to **Gomez Park**.

WORKSHOP RESULTS - AMENITY PREFERENCES

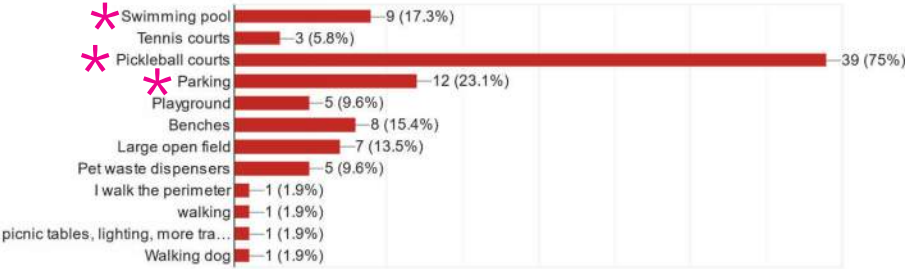

Public Comments					
format	name	contact	address	topic	comment
comment at event				Maintenance	Maintenance plan must be included, current issues with drainage and mosquitos, blow off well every other day
prepared comment at event				Parking	The parks have no parking except for the side of the road. Many students park on the west side of Frenger park. The fact that so many students park there should be a clear indication that whatever the schools and City did are inadecuate for the needs of those students and parents.
				Sidewalks	IF there are no sidewalks there, then sidewalks need to be added and a clearly marked crosswalk has to be added as well. It is a huge safety risk.
prepared comment at event				Swimming Pool	Pride needs to be restored to a once proud community. Many refer to our area as "The Ghetto." If you are going to keep adding people, then you must add areas where they can release social tensions by making the swimming pool available to all, and if possible increasing its size. A swimming area for toddlers is needed as well. It was an asset before. It is an asset now.
prepared comment at event				Shade/Shelter	Clearly the City recognizes the need for shade as evidenced by spending over a million dollars for that specific purpose in the downtown area. The shade structures in both parks are either non-existent or inadequate. Several students have waited to be picked up at the park by their parents, but have no protection from snow and rain.
prepared comment at event				Parking	In addition, the City recognizes its need to provide parking as evidenced by plans to build a parking garage in the downtown area. Both parks need paved parking.
prepared comment at event				Amenities	We need basketball goals.
prepared comment at event				Lighting	We need lighting.
prepared comment at event				Vagrancy	Our community has seen an increase in crime due to vagrants since the City closed its tent community. Shopping carts are everywhere and I foresee an increase now that the city has restricted its use of plastic bags. Do not add areas where vagrants can congregate and secure areas where they might.
prepared comment at event				Programming	Finally, we need free planned activities. Health fairs, basketball clinics, gardening presentations, etc. should be held. It is incomprehensible how we can spend so much money on correcting social issues and social programs, but none in prevention.
prepared comment at event				Circulation	Speed table needed to connect Frenger and Gomez Parks
prepared comment at event				Circulation	Speed table needed at blind curve near pool entrance
comment at event				Amenities	Pickleball facility could bring tournaments: 12 courts, bathrooms, shade, cabanas, water, ADA accessible, parking, lighting. Also useful for education, kids events
comment at event				Amenities	There are existing soccer goals- could be rehabbed
email	Laura Smart	lauralsmart@comcast.net	8043 Island Ct, Las Cruces	Amenities	I completed the survey and at the end since your name and contact information was there for further suggestions, I'm contacting you about the Frenger Park project in Las Cruces. Las Cruces needs more pickleball courts. At Frenger Park there can be 8 pickleball courts with permanent nets. Fences with gates enclosing each court allow for uninterrupted play. Highland Enterprise neglected to do this at the new courts at Apodaca Park, hence the players are calling "ball" constantly when their ball is hit onto one of the other 8 courts. There also needs to be handicap specs adhered to for the wheelchair pickleball players. The second most important facility which needs to be built at Frenger Park are RESTROOMS accessible to the courts and not an 1/8 of a mile away as at Apodaca Park. At least 4 stalls for women at a minimum should be constructed. Currently at Frenger Park there are NO restroom facilities available. The biggest mistake I've seen made as I've traveled to various tournaments in the U.S. are not enough women's restrooms. Next is LED lighting needed for night play. The LSI company based in Cincinnati, Ohio is the USA Pickleball suggested lighting company with which to contract. I have a relationship with Linda the representative at LSI & can put you in touch with her. I play pickleball every day except Sunday weather permitting. I'm also a USA Pickleball Ambassador for Las Cruces. As a pickleball referee in 2021, I've traveled to 8 different states for 23 tournaments refereeing over 700 sanctioned matches. I've seen the "cream of the crop" venues for pickleball. All courts being built now have fences dividing each court with separate gates with which to enter for uninterrupted play. Since the construction company is the same one that built Manzano Mesa, I think all of these suggestions I've made will be followed except for there are no permanent restrooms at Manzano Mesa. Robert Cohen Company in Albuquerque was the designer for Manzano Mesa. I'm sure you are aware of this. Please feel free to contact me when you are ready to submit your plans for Frenger Park BEFORE the construction begins so we may avoid the mistakes which we have at Apodaca Park.

05. PUBLIC ENGAGEMENT WORKSHOP

PRELIMINARY DESIGN CONCEPTS

CONTENTS	SUMMARY
	ANNOTATED DESIGN SCHEMES
	ANNOTATED PRECEDENT IMAGES
	PUBLIC AND STAFF COMMENTS
	ONLINE SURVEY RESULTS

Workshop Summary

A Public Workshop was held at City Hall on March 5, 2022. The purpose of the workshop was to receive stakeholder input on preliminary design concepts for Frenger Park. The design concepts were developed based on site analysis, discussion with Parks and Recreation Department staff, and feedback from the first public workshop held three months earlier.

The meeting began with a review of the three design concepts and a discussion of the proposed amenity options. Then participants were able to review large-scale print copies of the plans and use sticky notes to provide written comments. Participants were also given dot stickers so they could mark preferences on a poster of images that showed a range of amenity options.

Throughout the workshop, the consulting landscape architects and staff of the City’s Parks and Recreation Department were available to engage in discussion and answer stakeholder questions.

Community members listen to a presentation of the preliminary design concepts.

Amenity Preferences

Pickleball

Raised table crosswalk

Disc golf

Walking trail

Select Public Comments

TOPIC	COMMENT
Amenities	Pickleball Courts should include at least one court that accomodates wheelchair play
Amenities	Disc Golf tees and baskets could be mobile for dynamic play
Funding	The City should spend money in infrastructure before amenities

Online Survey

All participants were encouraged to take an online survey to share their thoughts about the existing park amenities and preferences for future amenities. A link to the survey was also shared by the Parks and Recreation Department through email and on social media.

Results

Two hundred fifty-four individuals completed the English language survey and no respondents completed the Spanish language survey. Respondents indicated preferences regarding the preliminary design schemes.

DEMOGRAPHICS:

- 48% of respondents live nearby or pass by the park frequently
- 53% of respondents use the park daily, weekly, or monthly
- Overall Scheme B was preferred, but frequent park users selected B & C equally while those living near by selected A & C.

GENERAL IMPROVEMENTS:

- **Site lighting** received the strongest support for general site improvements
- A **safe connection to Gomez Park** also received strong support

AMENITY PREFERENCES:

- **Restrooms** are consistently the most preferred amenity
- Over one hundred respondents selected **Pickleball Courts** and/or a **Disc Golf Course** as a preferred amenity
- **Walking paths** received strong support followed by a splash pad and picnic grove

City of Las Cruces™

Frenger Park-Preliminary Design Schemes

The City of Las Cruces is seeking public input on the future of Frenger Park, located north of Farney Lane between East and West Park Drives. Please use the following form to share your thoughts.

What follows are 3 preliminary design schemes for you to consider. All of the ideas shown are still conceptual in nature and no one option would likely get built exactly as it is shown here. We welcome your input into the overall design as well as the specific features so that we can best incorporate the community's wishes into the final design proposal.

After viewing all three schemes, you will be asked about your preferences.

ONLINE SURVEY - ENGLISH

FRENGER PARK

City of Las Cruces

Esquemas de diseño preliminar del Parque Frenger

La Ciudad de Las Cruces busca la opinión del público sobre el futuro Parque Frenger, ubicado al norte de Farney Lane entre East y West Park Drives. Utilice el siguiente formulario para compartir sus pensamientos.

A continuación, presentaremos 3 esquemas de diseño preliminares para su consideración. Todas las ideas que se muestran son conceptuales y es probable que ninguna opción se construya exactamente como se muestra aquí. Damos la bienvenida a su opinión sobre el diseño general, y comentarios específicos para que podamos incorporar los deseos de la comunidad en la propuesta de diseño final.

Después de ver los tres esquemas, se le preguntará sobre sus preferencias.

¡Gracias!

Si desea enviar más comentarios, puede usar el siguiente cuestionario o enviar un correo electrónico a la arquitecta paisajista, Emily Rogers, erogers@emr-emile.com, o llamar al (505) 268-2266.

Describa su relación con el Parque Frenger:

☐ Yo puedo caminar al parque desde donde vivo

☐ Yo camino o manejo al parque frecuentemente

☐ Yo no vivo cerca pero voy al parque frecuentemente

☐ Ninguna de las opciones mencionadas

¿Qué tan seguido va al Parque Frenger?

☐ Diariamente

☐ Una vez a la semana

☐ Una vez al mes

☐ Pocas veces durante el año

☐ Nunca

¿Cuál es su código postal?

ONLINE SURVEY RESULTS

RANKING

Which design is your first choice?

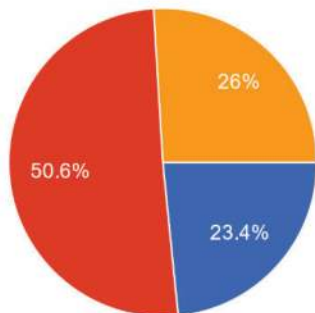

249 responses

- Scheme A: Sport & Recreation Park
- Scheme B: Pickleball Complex & Event Park
- Scheme C: Nine-Hole Disc Golf Course

Which design is your second choice?

235 responses

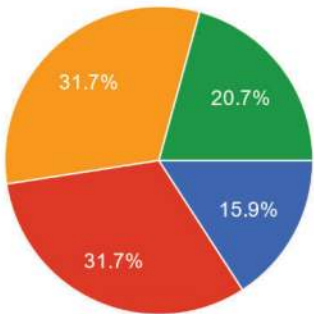

- Scheme A: Sport & Recreation Park
- Scheme B: Pickleball Complex & Event Park
- Scheme C: Nine-Hole Disc Golf Course

DEMOGRAPHICS

Describe your relationship to Frenger Park:

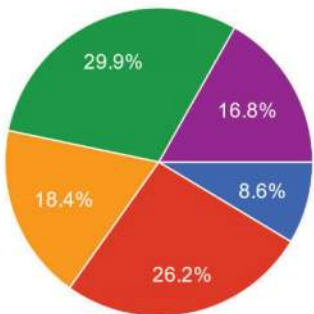

246 responses

- I live within walking distance
- I frequently walk or drive by
- I don't live nearby but I come to the park frequently
- None of the above

How often do you go to Frenger Park?

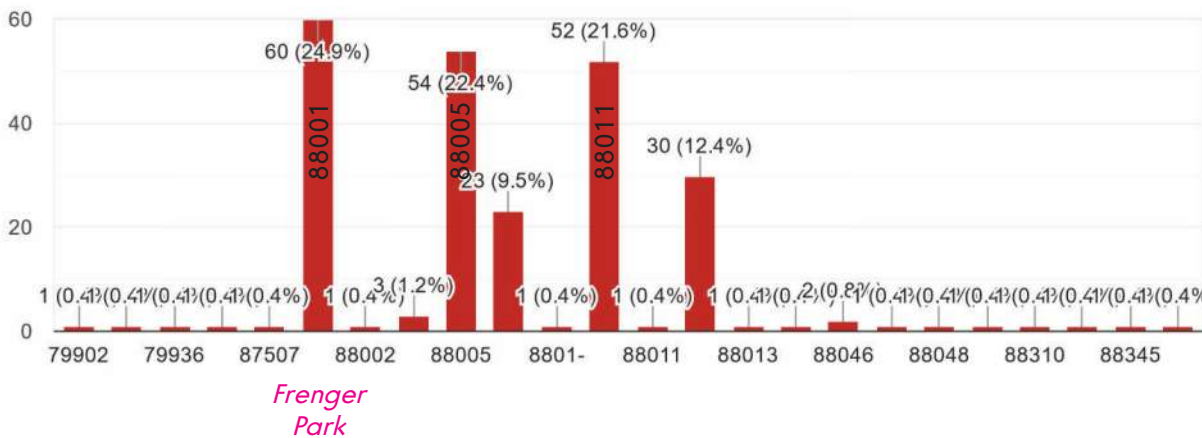

244 responses

- Daily
- Weekly
- Monthly
- A few times a year
- Never

What is your Zipcode?

241 responses

1									
27									Better court surfaces for pickleball
28	Yes						Yes		ADA accessibility is a must!
29									
30	Yes								Renew tennis/ Pickleball court surfaces
31									
32									ADA for Handicap its the Law !
33	Yes	No	No	No	No	Yes	Yes	No	pickleball
34	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	pickleball
35									wheel chair demensin need for pickleball
36	Yes								Restrooms, handicap access, improved pickleball courts, water fountains
37									Pickleball courts wheelchair dimensions need npa. Bathrooms are needed and per national pickleball association approved wheelchair dimensions
38	No	No	Yes	No	No	Yes	No	No	More shade structures or trees
39	No	No	Yes	No	No	Yes	No	No	This park could easily accommodate a large pickleball venue (16-18 courts). This sport is a multi-generational sport. Everyone can benefit from a venue like this. By expanding pickleball courts is goes without saying that restrooms, parking, water fountains, shade structures, and lighting must all be included.
40									Lighting, security cameras, bathrooms (clean and open)
41									
42		Yes							Avid P.B. player. Anything you can do to further P.B. appreciated.
43	No	No	Yes	No	No	Yes	No	No	The park is fairly dark, for the purpose of safety, definitely add plenty of lighting.
44	Yes	No	No	Yes	No	Yes	Yes	No	restroom
45		Yes		Yes					new pickleball courts
46									We would LOVE to see more pickleball courts so we can have tournaments + bring in more people to the city.
47				No			No		clean and safe restrooms, pickleball courts, lighted parking lot. We need clean and safe pickleball.
48	No	No	No	No	No	No	No	No	Interested pickleball courts, parking + lighting.
49									Pickleball please we need parking also
50		Yes	Yes			Yes			Higher police presence to discourage drug usage in the area!

FRENGER PARK MASTER PLAN

CITY OF LAS CRUCES DEPARTMENT OF PARKS & RECREATION
JUNE 2022

Parks and Recreation Advisory Board Meeting

April 21, 2022

The Parks and Recreation Advisory Board held a meeting on January 20, 2022, at 6:00 p.m. at City Hall Council Chambers, 700 N. Main, Las Cruces, NM.

Parks and Recreation Advisory Board Members Present:

Cassie McClure – District 1
Stan Engle – District 4
Megan Schuller – District 6

Parks and Recreation Advisory Board Members Absent:

Eric Montgomery – District 5
Vacant - District 2
Vacant – District 3
Vacant – At Large

Others Present:

Rhonda Diaz, H2O Conservation Program Coordinator, Las Cruces Utilities
Ronald Borunda, Deputy Director Water, Las Cruces Utilities
Phillip Pruett, President, Mesilla Valley Shotgun Sports
Greg Shervanick, Public
J. Woods, Keep Las Cruces Beautiful, Parks & Recreation
Robert Nunez, Youth Services Administrator, Parks & Recreation
Donna Harvath, Public, Vice-President, Las Cruces Dog Park Coalition
Kevin Armstrong, Public, Las Cruces Dog Park Coalition
Robert Wojcikiewicz Public, Las Cruces Cricket
Javed Akhtar, Public, Las Cruces Cricket
Ahsan Jamil, Public, Las Cruces Cricket
Jake Gutierrez, Manager, Parks & Recreation
Wilfred Martinez, Parks & Recreation
Franco Granillo, Parks Administrator, Parks & Recreation
Phil Catanach, Recreation Services Administrator, Parks & Recreation
Cathy Mathews, Landscape Architect, Parks & Recreation
Hazel Nevarez, Recording Secretary, Parks & Recreation
Sonya Delgado, Director, Parks & Recreation

The Parks and Recreation Advisory Board Meeting of April 21, 2022, at City Hall Council Chambers, 700 N. Main, Las Cruces, NM and was brought to order at 6:00 p.m. by Chair McClure and recognized the meeting as having a legal quorum.

1. Introductions

Board members introduced themselves and stated the district they represent.

42
43 **2. Conflict of Interest**
44

45 No Conflict of Interest.
46

47 **3. Approval of Agenda**
48

49 Board Member Shuller moved to approve Parks and Recreation Advisory Board Meeting Agenda
50 for April 21, 2022, seconded by Vice-Chair Engle.
51

52 Roll Call Vote:

53 Vice-Chair Engle - Aye

54 Board Member Schuller - Aye

55 Chair McClure - Aye

56 Motion carried unanimously.
57

58 **4. Approval of Minutes**
59

60 Board Member Schuller moved to approve Parks and Recreation Advisory Board
61 meeting minutes of January 20, 2022, seconded by Vice-Chair Engle.
62

63 Roll Call Vote:

64 Vice-Chair Engle – Aye

65 Board Member Schuller - Aye

66 Chair McClure - Aye

67 Motion carried unanimously.
68

69 **5. Public Participation**
70

71 Prior to public participation, Chair McClure advised public they are allotted seven (7) minutes to
72 speak split between public participation and agenda items.

73 Phillip Pruett, President, Mesilla Valley Shotgun Sports Inc., began by informing the Board his
74 item is also coming up under Agenda 7.4 and may possibly also speak at that time. Mr. Pruett
75 said he is present to ask for help to fix the entrance road to Butterfield Shooting Range. He said
76 Mesilla Valley Shotgun Sports is a group of shotgun enthusiasts engaged in building, operating,
77 and maintaining the trap, skeet, and sporting clay ranges within the Butterfield Park. They host
78 numerous shotgun shoots every year that attract hundreds of people from within New Mexico
79 and neighboring states. Several other clubs including the Las Cruces Police Department and the
80 general public utilize the park daily. He said other than shooting, the most common topic
81 discussed is the road. The 231-yard road on Bureau of Land Management (BLM) land which
82 connects from the I-10 overpass to the Butterfield Range is in extremely horrible condition. He
83 said they are hoping that Parks & Recreation can temporarily repair the road for now and
84 eventually come up with a long-term solution to pave and maintain the road.
85

86 Mr. Gregory Shervanick expressed to the Board that he would like to give accolades to Sonya
87 Delgado and her staff for Easter Saturday where the Parks Department co-sponsored the Easter
88 Egg Hunt and the Parks Department cleaned the parks from top to bottom before, during and
89 after. He added the Recreation Department had a truck there, and he believed the ladies name
90 was Frances, who takes care of the children's toys, and she should definitely get a reward. Mr.
91 Shervanick said she spent all day and took care of thousands of children almost by herself. Mr.
92 Shervanick mentioned that the pictures of the event showed thousands of people smiling in the
93 Sun News. Mr. Shervanick added that on Sunday, the Parks Department also did a great job of
94 cleaning up after the public, but the biggest problem on Sunday and with Mother's Day coming
95 up, a lot of vehicles drive into the park and City staff needs to find a way for people to bring
96 their property in and take it out and not stay with their vehicles in the park. It is understood
97 Easter and Mother's Day is a celebratory day, and it is dangerous to be driving in the park with
98 children after celebratory conditions. Mr. Shervanick said the last thing he would like to say is in
99 talking about critical thinking, cost of park projects, and as cost of park projects goes up, he feels
100 the Board must be more vocal about projects. He said the Go Bond provided a brand-new picnic
101 station at Young Park and at that time he mentioned to Public Works as well as others that there
102 is erosion problem caused by metal roof which leaches everything down to the pond so the
103 pond isn't as clear as it should be, and on Monday he read that the building area was going to be
104 closed off to fix erosion. He added he thinks the erosion should have been fixed when the
105 property was changed and being built, and this is a secondary situation where critical thinking
106 and sustainability didn't work out. Mr. Shervanick also offered advice that the recreation
107 department should have a secondary truck for games because as the park system grows, a
108 secondary truck would be valuable to going to other locations, with the number of
109 neighborhood parks that there are.

110
111 Ms. Delgado commented that the pavilion at Young Park is not closed, it will be available during
112 the time of fixing the erosion, it just won't be permitted out.

113
114 Chair McClure asked if there are areas for loading and unloading at any of the parks. Ms.
115 Delgado said no, and she had made notation of that.

116
117 Mr. Robert Wojcikiewicz, was present representing group he calls the Las Cruces Cricket Club, an
118 informal group of people that get together every weekend to play cricket. He said the group is
119 made up of entirely of graduate students, most of which are from India, Bangladesh and
120 Pakistan. He said they wanted presence at this Board meeting because they play at Gomez Park
121 and would like to ask that in the final plan for Gomez Park, there are provisional plans for a 20
122 meter by 5-meter area for playing cricket. Mr. Wojcikiewicz said there are about 25 of them that
123 play cricket, and it would be nice to have an area for students that are in a foreign place to have
124 an area to play cricket.

125
126 Mr. Kevin Armstrong, President of the Las Cruces Dog Park Coalition, said he was present
127 because there are people at the Dog Park and on Facebook called Dog Parkers saying should go
128 to Council and this Board meeting, and none of the people saying that came. He said he and one
129 other person present who pick up poop and maintaining the park came. He said first off, he
130 would like to say they really appreciate the city, every other week have been doing what they
131 call a wash down because it helps keep the dust and odors down. He said they themselves have
132 been cleaning the park once a month, wash everything by hand, and do a lot of maintenance
133 work in the park. Mr. Armstrong said they do have some problems which lead to some of the

134 comments being made. He said he hesitates, because he has respect for the chain of command,
135 for Sonya, and not all things have been through the chain of command or put into the chain and
136 not responded to. Mr. Armstrong said there use to be quarterly meetings and would like to see
137 them resumed as haven't had any in a long time. He said there were some trees, and two years
138 ago he warned that the pine trees were dying from the top down and should be checked out
139 with no response from the person he thought was responsible. Now the trees are like halfway
140 down. Mr. Armstrong said there are pine trees inside the park that are not yet infected and as
141 far as he knows, the bad trees that are infected need to be cut down. Another thing that upsets
142 him which leads him to question Board's job even though it's volunteer, Board's job should be
143 to make sure Parks and Recreation staff are doing their jobs and should be aware, which would
144 require Board to go to the different parks and the recreation programs and talk to the people
145 there to see what is going on. Mr. Armstrong ended by thanking the Board for their work and
146 their time.

147
148 Chair McClure asked if the Board could put things on the agenda for next time. Ms. Delgado
149 responded yes.

150
151 Ms. Donna Harvath, Vice-President of the Dog Park Coalition, informed the Board the lighting at
152 the Dog Park needs to be fixed, and has been brought up a couple of times. She also said the
153 rule boards need to be more specific, with ordinance numbers would help, at each gate so
154 people understand what they are responsible for.

155
156 Mr. Javed Akhtar informed the Board that they play cricket after class, and it would be nice to
157 have a designated area to play cricket.

158
159 Chair McClure asked to add this to list for next month's agenda.

160 161 **6. Action Items**

162 163 **6.1 Parks and Recreation Department 2021/2022 Fees & Charges/Facility Use Policy – Sonya** 164 **Delgado, Parks & Recreation Director**

165
166 Ms. Sonya Delgado, Parks & Recreation Director, provided a Power Point presentation on the
167 Parks and Recreation Fees & Charges/Facility Use Policy explaining process for updating annually
168 and summarizing policy and fee changes for the 2021/2022 Policy. She informed the Board this
169 will be updated again with the new swimming pool coming on-line at the beginning of 2023.

170
171 Board Member Schuller asked for clarification of Resident and Non-Resident Fees. Ms. Delgado
172 said Resident are for residents inside city limits and Non-Resident are residents outside city
173 limits.

174
175 Chair McClure asked, regarding Parks and Recreation Advisory Board authority over
176 Leagues/Organizations that utilize City fields and/or facilities being added back into the Fees and
177 Charges, why the language was removed before. Ms. Delgado said it was because league
178 agreements had been done away with and with no league agreement, leagues couldn't come to

the Board, which caused some issues, so now reinstated league agreements the language back into the policy.

Vice-Chair Engle asked if the policy also covers the rental of trails. Ms. Delgado responded yes.

Board Member Shuller moved to approve the Parks and Rec's Department 2021/2022 Fees and Charges/Facility Use Policy, seconded by Vice-Chair Engle. There was no further discussion by Board or the Public.

Roll Call Vote:

Vice-Chair Engle – Aye

Board Member Schuller - Aye

Chair McClure - Aye

Motion carried unanimously.

6.2 Park Master Plan Presentations for Branigan Park, Gomez Park, and Frenger Park (Virtual) – Catherine Mathews, Landscape Architect, Emily Rogers & Aaron Zahm, Morrow Reardon Wilkinson Miller (MRWM) Landscape Architects

Ms. Catherine Mathews, Landscape Architect with Parks & Recreation, informed the Board with this agenda item, the Board will hear from Emily Rogers and Aaron Zahm of Morrow Reardon Wilkinson Miller via telephone along with a Power Point presentation. Ms. Mathews said these projects have been ongoing for many months with a lot of public input on what residents are interested in seeing in Branigan Park, Gomez Park, and Frenger Park.

Ms. Emily Rogers came online telephonically and presented Power Point presentation giving overview of the Master Planning Process, Public Engagement, and Design Concept resulting from community members input for Branigan Park, Gomez Park, and Frenger Park.

Chair McClure asked how bike access is integrated with Branigan Park. Ms. Rogers responded saying utilizing Hayner Avenue and looking at designated bike lanes or share road from bike connection from Valley over to the lateral trail. She added as far as within the park, the path currently shown is specifically for pedestrians, and the path could be widened. Ms. Catherine Mathews added that the Amador Proximo plan called for the extension of Organ Ave., and that constructed road would connect Valley Drive bike lanes with the Armijo Lateral Multiuse Trail so that road would make sense to provide a possible connection. Chair McClure asked if there is bike parking in this plan and if there is embedded language for this in the master plan. Ms. Mathews responded yes to bike parking and she wasn't sure about the language, but bike parking is always included.

Board Member Shuller asked on Gomez Park as well as Branigan Park, if there is any consideration, due to lack of gyms, for a full court basketball to give youth the opportunity to practice on a full court. Ms. Mathews said the usable space is limited because Gomez Park is a storm management facility. She added with Frenger, more space is dedicated to court space.

Board Member Shuller asked what would be an immediate action, based on public comment, to level some ground for cricket pitch at Gomez Park. Ms. Delgado responded this space is primarily a storm water management system, so will need to work closely with Public Works to see what can be done moving forward.

Chair McClure asked from survey responses, was a full court something that was wanted and did anybody want a plaza. Ms. Rogers responded on the plaza, she was really surprised how many people didn't want that. She said the basketball court, particularly at Gomez, did not get very strong support.

Chair McClure said she would be interested in seeing a more dedicated crosswalk at the crossing marked #12 for Gomez Park, being that it is a high-density area and with Espina traffic, and getting the people from the residential area tied into this park.

Chair McClure asked if this falls into Elevate Las Cruces, in terms of high density. Ms. Mathews responded saying the Active Transportation Plan does call for Espina to be a pedestrian enhanced road because it does connect the University to neighborhoods. Ms. Mathews added that at the design stage, an ADA traffic study for this location would be called for to better address how to bring people from the residential area to cross safely.

Board Member Engle asked if it would be possible to link El Paseo to Gomez Park. Ms. Mathews said the property at the southwest corner of Gomez is private property and her understanding is that the owner is interested in developing that and when developed, there would need to be access to that property.

Chair McClure asked if it is being proposed to do away with Frenger Pool. Ms. Delgado responded yes because it has exceeded its life span, and this will come back to the Board with more detail.

Chair McClure expressed, regarding the Frenger master plan, she would like to see one of the sidewalks converted to a bike lane.

Board Member Shuller advised against a splash pad at Frenger Park or any master plans due to maintenance, upkeep, water, and staffing. Chair McClure added she was curious to know how many people knew of Frenger pool being removed. Ms. Delgado responded saying it was discussed of the pool coming offline because of its age, and the only real reason it is still running is because NMED is aware of the new pool being built. If the 50- meter pool was already online, Frenger pool would not pass inspection.

Board Member Engle said that in the past, Frenger was used for cycle la crosse bicycle races and asked if that would still be able to be accommodated in this master plan. Ms. Rogers said this could happen again, the question would be how it would mesh with disc golf.

Ms. Mathews said she has noted Board member comments about not wanting to go with splash pads and also about la crosse bicycle races, and minor edits can be made to address Boards requests.

Board Member Schuller moved to accept the Park Master Plan Presentations for Branigan Park, Gomez Park, and Frenger Park, seconded by Vice Chair Engle.

Ms. Mathews commented that as noted in both Gomez Park and Frenger Park, they are primarily storm water management facilities and Public Works has plans to make some improvements to the storm water management capacity at Frenger so the south end of this park will likely have a change so this plan will not be fully implemented on the south end and will have to be adjusted.

There was no further discussion.

Roll Call Vote:

Vice-Chair Engle – Aye

Board Member Schuller - Aye

Chair McClure - Aye

Motion carried unanimously.

6.3 Pioneer Women's Park Gazebo Final Design Plan Presentation – Catherine Mathews, Landscape Architect

Ms. Catherine Mathews presented to the Board a Power Point presentation on the Pioneer Women's Park Gazebo Design work, giving information on history of the Gazebo, design considerations, Project Team involved with this project, public input meetings held, and finally the metal-work design and color palette selections. A picture board was also displayed to show what the gazebo will look like.

Board Member Shuller asked what the column for the gazebo is made out of. Ms. Mathews said column is made of durable steel and white was the color selected.

Board Member Shuller moved to accept the design on Pioneer Women's Park Gazebo, final design plan to move forward, seconded by Vice-Chair Engle. There was no further discussion.

Roll Call Vote:

Vice-Chair Engle – Aye

Board Member Schuller - Aye

Chair McClure - Aye

Motion carried unanimously.

7. Discussion Items

308
309 **7.1 Keep Las Cruces Beautiful (KLCB) Update – James Woods, KLCB Program Coordinator**

310 Mr. James Wood informed the Board:

- 311
- 312 • Recent Great American Clean Up was a success, with 558 volunteers registered for the
 - 313 clean-up, over 34 groups, collecting 2.5 tons of trash, and four roll-offs that collected
 - 314 another 400 tons of trash. He added focus was on the East and West side of the Bataan
 - 315 area.
 - 316 • Team Up to Clean Up will start up May 21, 2022 in District 6, 8 a.m. – 12:00 p.m., and
 - 317 will have three roll-offs.
 - 318 • Youth Conservation Corp grant was awarded and so will be hiring youth to do some
 - 319 community mural projects, restore, repair, replace if needed.
 - 320 • Recently submitted application for New Mexico Clean and Beautiful grant.
 - 321 • Numerous groups stop by the office to pick up supplies to do clean-ups on their own.
 - 322 • National Night out is coming up in August.

322 Chair McClure asked where people would go to pick up supplies. Mr. Woods responded

323 supplies can be picked up at the Frank O'Brien Papen Community Center Monday, Wednesday,

324 and Friday from 8 a.m. to 10 a.m. or make arrangements for a different time.

325 Board Member Shuller said she is looking to have her local youth organization do some outreach

326 and appreciates the information received.

327 Vice-Chair Engle asked on the murals, if this would include new murals. Mr. Woods said that is

328 possible.

329 **7.2 Water Safety Update – Phil Catanach, Recreation Administrator**

330

331 Mr. Phil Catanach, Recreation Administrator, informed the Board he has asked Mr. Ron

332 Borunda, Deputy Director of Las Cruces Utilities/Water and Ms. Rhonda Diaz, H2O Water

333 Conservation Program Coordinator, to present on the safety of the City of Las Cruces drinking

334 water, and after will present on the safety of our pools.

335

336 Chair McClure added the reason for this agenda item is because a Board member, not present at

337 this meeting, requested information on the safety of our water because he had read a story

338 about brain eating amoebas. She said information received at this meeting will be shared with

339 him.

340

341 Mr. Ron Borunda introduced himself to the Board and presented a Power Point presentation

342 titled Is My Drinking Water Safe? Mr. Borunda reported information about the Safe Drinking

343 Water Act, reporting agencies – the New Mexico Environment Department (NMED) and the

344 Environmental Protection Agency (EPA), where water comes from addressing surface water and

345 ground water, chlorination in the water, and discoloration of the water. Mr. Borunda said the

346 city has some of the best water quality around because the city's system is solely ground water.

Chair McClure asked if the water is generally surface water in New Mexico. Mr. Borunda said there are a lot of different municipalities that use surface water.

Board Member Schuller asked how underground areas are monitored and where are wells and meters monitored to know where the city stands, and whether the wells need to go deeper or drilled in different locations, in balancing daily use with what's available. Mr. Borunda responded saying the City has to have monitoring wells for the entire city and that's where they get depth level readings of aquifers and what's put back into the ground, and this is monitored monthly. Mr. Borunda said metering is a whole other subject because the City meters everything used and said Ms. Rhonda Diaz, Water Conservation Coordinator, and she makes sure that everything is metered and that everything used is accounted for.

Vice-Chair Engle mentioned that the Board Member not present, his specific question was if there is flesh eating stuff that gets into the circulation of splash pads. Mr. Borunda said he can't speak a whole lot on that, but he does know a little about amoebas, because he has worked with waste water. He said amoebas are formed from waste water, not fresh water. Mr. Borunda said that any sort of bacteria that you would see from fresh water would be more in the line of blood bourn pathogens like cholera but those kind of viruses come from human beings or animals or birds. He said you wouldn't see flesh eating amoebas coming from the fresh water supply.

Chair McClure directed question to Mr. Catanach, saying splash pads have their own circular system, and hope filters of some sort. Mr. Catanach responded yes, and will have the Aquatic staff up next to talk about the City's pools and splash pads.

Mr. Catanach thanked Mr. Borunda and Ms. Diaz for their presentation to the Board. He went on to inform the Board Mr. Abraham Celaya, Recreation Facility Manager, and Mr. Jake Gutierrez, Aquatics Program Manager will present on the City's pools and splash pads.

Mr. Abraham Celaya, Aquatics Facility Manager, presented a Power Point presentation on Why Our Pool Water is Safe explaining the Las Cruces Regional Aquatic Center's disinfection and filtration process. The presentation covered the pools water filtration system, methods of disinfection, chlorination, and UV pool sanitizers.

Vice-Chair asked if this is the same system used on the splash pads. Mr. Celaya said yes, and as far as the amoebas the Board member read about, those conditions exist if the splash pad isn't looked after correctly, and here the splash pads are continuously being looked after. Mr. Jake Gutierrez, Aquatics Program Manager, added with the World Aquatic Health Code, which has been enforced and implemented here in the last three years, the systems now are required to have the secondary UV system. Speaking on Frenger Pool, Mr. Gutierrez said with the infrastructure of Frenger Pool deteriorating, they are at the minimum requirements. Mr. Gutierrez said with the World Aquatic Health Code, they are required to check the pools every two to four hours, and documented.

391
392 Chair McClure said she toured Frenger Pool and concurs on all points.
393

394 Mr. Catanach thanked Mr. Borunda, Ms. Diaz, Mr. Gutierrez, and Mr. Abraham and said we are
395 in very good hands with our Utility Water Department and Aquatics staff.
396

397 **7.3 League/Association Agreements – Franco Granillo, Parks Administrator** 398

399 Mr. Franco Granillo, Park Administrator, gave the Board an overview of the League Association
400 agreements. Mr. Granillo informed the Board who the multiple organizations are that Parks and
401 Recreation has agreements with. He said the agreement have what the organization desires
402 from the City, conditions – what the City provides vs what the organization provides, fees,
403 activities the group can provide to youth, and concession use. Mr. Granillo added there are
404 benefits to both the City and the leagues.
405

406 There were no questions from the Board.
407

408 **7.4 Butterfield Shooting Range Update – Franco Granillo, Parks Administrator** 409

410 Mr. Franco, Park Administrator, informed the Board there are six ranges at Butterfield Shooting
411 Range – the skeet range, cover range, silhouette range, pistol range, known distance range and
412 the long-distance range. The known distance and long distance ranges are going to be improved
413 for ADA accessibility. Mr. Granillo said he would like the work done before end of fiscal year but
414 isn't sure that will happen. He added when this type of work is done, need cooperation from the
415 Bureau of Land Management (BLM).
416

417 Mr. Granillo said a question that has come to the Board is the entrance road to the range. He
418 said Parks and Rec staff doesn't maintain roads, or create them or build them. The issue he has
419 seen with the entry road is it is on a slope and with a heavy rain or bad windstorms, there is a lot
420 of erosion, potholes. He said these issues have been discussed with Public Works and have come
421 up with short term and long-term solutions. Long term would be to provide a plan for actual
422 road upgrade or permanent road repairs, and would have to get BLM approval, and are looking
423 to get a patent for the road because the entry road and the road that goes along the entire
424 range is in a no man's land. It is not considered a right of way or city road. Mr. Granillo said the
425 short-term solution is either pothole repair or actual chip seal. Mr. Granillo said if this isn't cost
426 effective or can't be done immediately, Public Works mentioned could remove the surface do it
427 is more of a dirt surfacing and then can be back dragged or graded anytime there is a heavy rain
428 or wind event.
429

430 Chair McClure asked what the timeline is for something like this. Mr. Granillo said it would
431 depend on funding, and possibly have to go to Council. Short term fixed could happen as long as
432 Public Works is able to help.
433

Ms. Delgado added that this has been discussed with Mr. David Sedillo, Public Works Director, and he is aware and working hard to find funding on his end for short-term and then long-term, will have to go to Council. She said also during this process, upon going to BLM to ask permission to work on road, it was discovered road patent was not included with the Butterfield Shooting Range. BLM has given temporary permission to work on the road.

Chair McClure asked if this was similar to needing some sort of agreement in place for people to do anything on that area. Ms. Delgado said yes, anytime on BLM land, permission is needed, and if allowed, would need to stay within scope. If scope changes, would have to go through process again.

Vice-Chair Engle said Mr. Pruett reached out to him on this and is glad we have some answers. Mr. Granillo said he will reach out to Mr. Pruett. Ms. Delgado said she did give Mr. Pruett her business card and did explain to him information just shared with the Board so he is aware and she did ask him to reach out to staff.

Board Member Schuller asked if fees being charged to trap clubs or organizations be put aside solely for this road. Ms. Delgado said Parks and Recreation lives in the general fund and any revenue collected goes back into the general fund but said staff is trying to get some of those funds put back for specific things.

Board Member Shuller asked if it would be possible if those organizations could set up their own donation pot and donate it to that project. Ms. Delgado said that is a possibility. Mr. Granillo said maybe when he meets with Mr. Pruett, they could get on that path and get some sort of partnership going.

Board Member Schuller asked what the timeline is on the ADA modifications. Mr. Granillo said he would like to get it done toward mid-June, but if not, by Fall of this year.

7.5 2022 Go Bond Survey – Sonya Delgado, Parks & Recreation Director

Ms. Delgado informed the Board she wanted to remind them that there is a Go Bond Survey for the Public that is open for a few more weeks and encourage them to take the survey and to share with friends and family. She said that there have been over 500 responses so far. Ms. Delgado also said the survey has been sent out to all Parks and Recreation program attendees who have email addresses, all leagues and organizations.

Chair McClure asked if Parks and Recreation is able to collaborate with other departments to send out information like this. Ms. Delgado said yes. Ms. Delgado added that mass messages are sent out through our registration software to anybody we have email addresses for.

7.6 Letter of Support for Veteran's Park Parking Lot – Sonya Delgado, Parks & Recreation Director

Ms. Delgado informed the Board that staff was recently asked by Senator Lujan to provide letters of support in favor of Veteran's Park parking lot. The letters were done by Parks and Recreation and by the the Veteran's Advisory Board and sent out. She said hopefully this will bring in some funding to complete the parking lot.

Chair McClure asked if copy of the letter could be shared with the other Board Members. Ms. Delgado said yes.

7.7 Unidad Park Mementos – Sonya Delgado, Parks & Recreation Director

Ms. Delgado informed the Board Unidad Park was built in 2001. She said staff wanted to give a piece of the park to the group that started this park. Ms. Delgado showed board pieces salvaged from the park, with date and name of park, and are working on a list of the committee members to contact, so can do a photo op and present them with the Unidad Park memento.

8. Staff Member Comments

Ms. Cathy Mathews informed the Board:

- Projects discussed today will be moving forward to Council and anticipate they will come to some conclusion in June or July.
- Chandler Tank design project is ongoing and contract for traffic study was just initiated, and design work will conclude in July or August, and will then move forward on construction.
- Getting ready to issue letters of acceptance on two median projects – one was funded through a City Bond and included medians throughout the City, a few medians in each Council District and medians along Sonoma Ranch Blvd. called Sonoma Ranch Blvd. Mile 2 between Arroyo Road and Peachtree Hills.

Mr. Catanach informed the Board the Recreation Section has a lot of their summer stuff rolling out and encourages them to check out Parks and Recreation's Facebook page – Movies in the Park, Music in the Park, Splash Pads, Mother's Day Concert, and 4th of July information will be coming up.

Mr. Robert Nunez, Youth Services Administrator, informed the Board his section is wrapping up the school year program and news release for their summer programs has gone out. They are working on getting staff on board, CPR/First Aid trainings done. His section is doing a lot of things with different groups, partnerships to get their expertise involved in our programs and to allow our youth to participate in other programs. There is a lot a positive program happening, and preparing now for opportunities with the balanced school calendar.

Chair McClure asked about the Youth Advisory Board. Mr. Nunez reported there is a new Teen Connection Supervisor on board, and he is allowing him to roll into the summer and then will get advertisement out for the Youth Board at the beginning of the school year.

Board Member Schuller asked if Youth Programs are back 100%. Mr. Nunez reported principals kept things status quo so Youth Programs are down 50% with the After School Programs. For the Summer, they should have full capacity in all programs.

Mr. Granillo informed the Board he and Jimmy Zabriskie, Community Forester will be going to a work session for a proposal of a Tree Ordinance.

Mr. Granillo acknowledged the issue of vehicles in Youngs Park during big events which has been an issue for years, and said the problem with Young Park is that there is only one gate there. He said he has looked into the cost of bollards for Young Park, Apodaca Park, and Veterans Park, and cost for these three areas is \$85,000, not installed. Mr. Granillo said he is also looking for alternate solutions like boulders or landscaping.

Mr. Granillo informed the Board if they would like to see an agreement for their review, to let him know and he will send it forward.

Chair McClure asked if he can let the Board know how the Tree Ordinance work session goes. Mr. Granillo said he will let the Board know.

9. Board Member Comments

Board Member Schuller asked how staff is handling cost increases of landscaping, fertilizer. Mr. Granillo said staff has done well to plan ahead and material was purchased before inflation took place but are starting to run out of materials so staff is prioritizing areas that need upgrades or repairs and using materials towards those areas. As new amenities, new requests from the public come up, Ms. Delgado brings those costs to Council's attention for help with funding.

Vice-Chair Engle expressed his thanks to staff for today's information and for their good job.

Chair McClure said she was hoping something could be done to work better with the bicycle community, and specifically to include in master plans and what they would like to see in terms of access via biking, to have a sort of collaborative environment where bicyclers know who they might want to talk to and what they might want to see. She said she is interested in putting this on agenda for next Board meeting. Ms. Delgado responded saying there is VELO Las Cruces, and they work closely with the transportation plan and staff could have them talk to the Board on things they are involved in, projects.

Chair McClure asked about ADA compliance with Pickleball. Ms. Delgado said Apodaca Park pickleball area is ADA accessible. She added there is a range, and the minimum is met.

Chair McClure asked if there is an update on the Las Cruces Public Schools (LCPS) agreement. Ms. Delgado said she verified today that the City's Legal department did send the agreement to LCPS today, and has received confirmation from LCPS Legal team that they received it.

559 Chair McClure asked if the Board meetings are filmed. Ms. Delgado said no.

560 Chair McClure said with the dog park people, there seems to be an idea that there is citizen
561 activists, not in a bad way, but that they are going above and beyond, and would like staff to
562 reach out and talk to them a little bit more. Chair McClure said she would like to see more
563 engagement - who are these people, why are they doing this, why are they going above and
564 beyond, and are they going above and beyond, and to hear both sides of the story. Ms. Delgado
565 responded saying the last time staff met with the Dog Park Coalition was before Parks and
566 Recreation shut down due to Covid and now that staff is back, staff will start the meetings back.

567 Chair McClure said she is enjoying the Hidden Gems that is on Parks and Recreation's Facebook
568 because it gives an idea of parks people don't know about. She said to keep doing that and try
569 to promote in different ways on social media. She added she agrees from public comment that
570 Board members should go out to the Parks, and to Parks and Recreation programs.

571 Chair McClure also said the Board's condolences go out to Maryln Zahler's family, and expressed
572 thanks for her time on the Board.

573 Board Member Schuller said staff and Board should try to push the War Dog Memorial forward
574 to memorialize Ms. Zahler, since she was an advocate for this. Ms. Delgado said she has
575 discussed this with the Veteran's Advisory Board President, and she will continue to pursue this.

576 **10. Adjournment**

577
578 Board Member Schuller moved to adjourn the Parks and Recreation Advisory Board meeting,
579 seconded by Vice-Chair Engle.

580
581 Roll Call:
