AWARENESS TO ACTION: DISMANTLING BIAS IN MATERNAL AND INFANT HEALTHCARE™

Awareness to Action: Dismantling Bias in Maternal and Infant Healthcare™ professionals authentic, compelling content for health care professionals caring for women before, during and after pregnancy. We offer implicit bias training to increase awareness and stimulate action to address implicit bias in maternity care settings.

Training alone won't lead to immediate improvements in racial and ethnic disparities, but it can provide health care professionals with important insights to recognize and remedy implicit bias. These actions can result in improved communication, overall patient experience and quality of care and a culture shift across committed organizations towards the broader goal of achieving equity for all moms and babies.

LEARNING OBJECTIVES

(1) Understand and be able to identify implicit bias, the cognitive basis that informs bias, and its impact on maternity care settings.

(2) Explain how structural racism has played a key role in shaping care settings within the U.S. and contributes to implicit biases in patient/provider encounters.

(3) Recognize one's potential for implicit bias and apply strategies, such as the CARES Framework™ and practice cultural humility, to effectively mitigate their own implicit biases.

(4) Recognize and establish a culture of equity as an organizational commitment through action planning to elevate the quality of maternity care.
