## List of Tables

Table 1. County Health Rankings by Category for Marion County, 2010-2022.....	14
Table 2. County Health Rankings for Marion County Compared to Florida, 2022. ....	15
Table 3. Life Expectancy by Gender, By Race, By Ethnicity and Year, Marion County and Florida, 2014-2020. .....	17
Table 4. Total Population and Projected Populations by Gender, Marion County and Florida, 2010-2045.....	18
Table 5. Estimates of Population by City, Marion County and Florida, April 1, 2021.....	19
Table 6. Total Population by Race, Marion County and Florida, 2020. ....	21
Table 7. Total Estimated Population by Race, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....	23
Table 8. Total Estimated Population by Ethnicity, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....	27
Table 9. Total Estimated Population by Gender, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....	28
Table 10. Total Estimated Population by Age Group, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....	29
Table 11. Total Estimated Population by Selected Age Groups and Gender, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....	38
Table 12. Total Estimated White Population by Selected Age Groups and Gender, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....	41
Table 13. Total Estimated Black Population by Selected Age Groups and Gender, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....	44
Table 14. Total Estimated Hispanic Population by Selected Age Groups and Gender, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....	47
Table 15. Total Estimated Population in Group Quarters, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....	50
Table 16. Total Estimated Families and Average Family Size by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....	51
Table 17. Total Estimated Households and Average Household Size by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020.....	53
Table 18. Total Estimated Veterans Population by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020.....	55
Table 19. Percent of Households With Workers Age 16 and Over by Number of Available Vehicles and Method of Transportation to Work, Marion County and Florida, 2016-2020.....	56
Table 20. Percent of Households with Workers Ages 16 and Over by Travel Time to Work, Marion County and Florida, 2016-2020.....	57
Table 21. Number and Percent of Persons in Poverty, by Selected Ages, Marion County and Florida, 2016- 2020.....	59

Table 22. Estimated Number and Percent of Individuals and Children in Poverty in the Past 12 Months, By Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....60

Table 23. Estimated Number and Percent of Individuals by Detailed Levels of Poverty in the Past 12 Months, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....62

Table 24. Estimated Number and Percent of Persons by Age by Selected Levels of Poverty in the Past 12 Months, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....64

Table 25. Estimated Number and Percent of Persons by Gender by Selected Levels of Poverty in the Past 12 Months, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....68

Table 26. Estimated Number and Percent of Persons by Selected Races and Ethnicity For Those in Poverty in the Past 12 Months, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....69

Table 27. Estimated Number and Percent of Households and Various Types of Family Households With Income in Poverty in the Past 12 Months, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....72

Table 28. Estimated Number and Percent of Family Households by Level of Poverty in the Past 12 Months, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....75

Table 29. Median Household Income by Race and Ethnicity, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....78

Table 30. Mean (Average) Household Income by Household Type by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....79

Table 31. Per Capita Income by Race, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....81

Table 32. Federal Poverty Guidelines by Number of Persons in Family/Household, 2022. ....82

Table 33. Estimated Family Income in the Past 12 Months by Detailed Levels of Income, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....83

Table 34. Estimated Household Income in the Past 12 Months by Detailed Levels of Income, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....88

Table 35. Number of Households, Median Household Income, Percent of ALICE Households and Households in Poverty by Type of Household, Household Survival Budget by Type, 2016. ....93

Table 36. Number of Households and Percent ALICA & Poverty Households by Town, Marion County, 2016. ....94

Table 37. Number and Percent Uninsured for the Selected Age Groups for All Income Levels, Marion County and Florida, 2015-2019. ....95

Table 38. Estimated Number and Percent of the Total Civilian Noninstitutionalized Population That Are Insured and Uninsured, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....97

Table 39. Unemployment Rates by Year, Marion County and Florida, 2010-2020. ....99

Table 40. Total Population in Civilian Labor Force and Unemployment Rate by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. ....100

Table 41. Number of Non-Governmental Businesses by Size of Business, by County, Marion County and Florida, 2020 .....101

Table 42. Number of Retail and Service Non-Governmental Businesses by Type, by County, Marion County and Florida, 2020..... 101

Table 43. Estimated Number and Percent of the Population 25+ Years of Age by Level of School Completed, by Zip Code Tabulation Area (ZCTA), Marion County and Florida, 2016-2020. .... 102

Table 44. Percent of High School Graduation and Dropout Rates by School Year, Marion County and Florida, 2016-17 Through 2020-21..... 105

Table 45. Number and Percent of Kindergartners and 7<sup>th</sup> Graders Immunized, Marion County and Florida, 2014-2021. .... 106

Table 46. Estimated Number and Percent of Population 5 Years and Older and How Well They Speak English and What Other Languages They Speak, Marion County and Florida, 2016-2020. .... 107

Table 47. Number and Percent of The Students Eligible for Free/Reduced Lunch by Grade or School Level, Marion County and Florida, 2015-2021..... 108

Table 48. Number and Percent of WIC Eligibles and Those Served for Marion County and Florida, 2014-2021..... 109

Table 49. Percent of WIC Children 2 Years and Older Who Are Overweight or Obese, Marion County and Florida, 2012-2021..... 110

Table 50. Number of Food Stamp Clients and Food Stamp Households For December of Each Year, by Year and Percent Change from Previous Year, Marion County and Florida, 2005-2021..... 111

Table 51. Number of TANF Clients and TANF Families by Year and Percent Change From Previous Year, Marion County and Florida, 2005-2021..... 112

Table 52. Top 10 Causes of Death for Marion County by Race and Ethnicity and How Florida Ranks for 2018-2020..... 113

Table 53. Marion County Top 10 Rankings for Causes of Deaths by Gender and How Florida Compares, 2018-2020..... 114

Table 54. Marion County Top 10 Rankings for Causes of Deaths by Age Groups and How Florida Compares, 2018-2020..... 115

Table 55. Top 10 Causes of Death Rankings for Marion County and Florida and How They Rank Against Each Other, 2018-2020..... 116

Table 56. Total Number of Deaths and Percent of Total Deaths for Marion County and Florida, Based on the 2018-2020 Ranking for All Races, Marion County..... 117

Table 57. Crude and Age-Adjusted Death Rates Per 100,000 Population by Race and Ethnicity for All Causes of Deaths, Marion County and Florida, 2018-2020. .... 118

Table 58. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races and Hispanics by Selected Causes of Deaths, Marion County and Florida, 2018-2020..... 119

Table 59. Crude and Age-Adjusted Death Rates per 100,000 Population for White and Black Races by Selected Causes of Deaths, Marion County and Florida, 2018-2020..... 121

Table 60. Top 10 Causes for Death Rates for All Races, Marion County and Florida, 2016-2020. \* ..... 123

Table 61. Top 10 Causes for Death Rates for White Races, Marion County and Florida, 2016-2020. \* ..... 126

Table 62. Top 10 Causes for Death Rates for Black Races, Marion County and Florida, 2016-2020. \* ..... 129

Table 63. Top 10 Causes for Death Rates for Hispanics, Marion County and Florida, 2016-2020. \* ..... 132

Table 64. Top 10 Causes for Death Rates for Females, Marion County and Florida, 2016-2020. \* ..... 135

Table 65. Top 10 Causes Of Death Rates for Males, Marion County and Florida, 2016-2020. \* ..... 138

Table 66. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for All Causes of Deaths, by Zip Code, Marion County and Florida, 2018-2020..... 141

Table 67. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Heart Disease Deaths, by Zip Code, Marion County and Florida, 2018-2020..... 142

Table 68. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Cancer Deaths, by Zip Code, Marion County and Florida, 2018-2020. .... 143

Table 69. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Unintentional Injury Deaths, by Zip Code, Marion County and Florida, 2018-2020..... 144

Table 70. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Chronic Lower Respiratory Disease (CLRD) Deaths, by Zip Code, Marion County and Florida, 2018-2020..... 145

Table 71. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Alzheimer’s Disease Deaths, by Zip Code, Marion County and Florida, 2018-2020..... 145

Table 72. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Diabetes Deaths, by Zip Code, Marion County and Florida, 2018-2020. .... 146

Table 73. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Stroke Deaths, by Zip Code, Marion County and Florida, 2018-2020. .... 147

Table 74. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Liver Disease Deaths, by Zip Code, Marion County and Florida, 2018-2020..... 148

**TABLE 75. CRUDE RATES FOR SELECTED CAUSES OF DEATH PER 100,000 POPULATION FOR 0-17 YEARS OF AGE (YOA), MARION COUNTY AND FLORIDA, 2018-2020. .... 150**

**TABLE 76. CRUDE RATES FOR SELECTED CAUSES OF DEATH PER 100,000 POPULATION FOR 18-44 YEARS OF AGE (YOA), MARION COUNTY AND FLORIDA, 2018-2020. .... 151**

**TABLE 77. CRUDE RATES FOR SELECTED CAUSES OF DEATH PER 100,000 POPULATION FOR 45-64 YEARS OF AGE (YOA), MARION COUNTY AND FLORIDA, 2018-2020. .... 152**

**TABLE 78. CRUDE RATES FOR SELECTED CAUSES OF DEATH PER 100,000 POPULATION FOR 65-84 YEARS OF AGE (YOA), MARION COUNTY AND FLORIDA, 2018-2020. .... 153**

**TABLE 79. CRUDE RATES FOR SELECTED CAUSES OF DEATH PER 100,000 POPULATION FOR 85+ YEARS OF AGE (YOA), MARION COUNTY AND FLORIDA, 2018-2020. .... 154**

Table 80. Infant Death Rates for SIDS, SUIDS, From Perinatal Conditions, From Congenital & Chromosomal Anomalies per 1,000 Total Live Births by Year, Marion County and Florida, 2016-2020. .... 155

Table 81. Infant Death Rates from Unintentional Suffocation and Strangulation in Bed and Infant Death Rates from Unintentional Suffocation and Strangulation Per 1,000 Total Live Births by Year, Marion County and Florida, 2010-2020. .... 156

Table 82. Neonatal Death Rates and Postneonatal Death Rates per 1,000 Total Live Births by Year, Marion County and Florida, 2016-2020. .... 157

Table 83. All Causes Of Deaths Years of Potential Life Lost (YPLL) Under 75 For All Races and Hispanics Rates Per 100,000 Population, Marion County and Florida, 2016-2020..... 162

Table 84. All Causes Of Deaths Years of Potential Life Lost (YPLL) Under 75 By Gender, Marion County and Florida, 2016-2020..... 165

Table 85. Years of Potential Life Lost (YPLL) Under 75 For Selected Causes of Death, Marion County and Florida, 2016-2020..... 166

Table 86. Age Adjusted Deaths from COVID-19, Rates Per 100,000 Population by Race, Ethnicity and Gender, Marion County and Florida, 2020..... 167

Table 87. Age Adjusted Death Rates and Crude Rates for suicide Per 100,000 Population, MARion County and Florida, 2009-2020..... 168

Table 88. Number of Years of Potential Life Lost from Suicide and Rates Per 100,000 Population by Race, MARion County and Florida, 2009-2020..... 169

Table 89. Medicare Severity – Diagnosis Related Group(MS-DRGs) Used to Define the Hospitalizations for Mental Health Issues..... 170

Table 90. Number and Rate of Hospitalizations and ED Visits per 1,000 for Mental Health Reasons for Selected Age Groups, Marion County and Florida, 2014-2020..... 173

Table 91. Number and Rate of Hospitalizations and ED Visits per 1,000 for Mental Health Reasons for All Ages by Zip Code, Marion County and Florida,2018-2020..... 175

Table 92. Number of Involuntary Exam Initiations (Baker Acts) by Selected Age Groups and Rates Per 100,000 Population for Residents of Marion County and Florida, 2014-2019..... 177

Table 93. Percent of Involuntary Exam Initiations (Baker Acts) by Initiation Type for Residents of Marion County and Florida, Fiscal Year 2018-2019..... 178

Table 94. Percent of Adults Who Engage in Heavy or Binge Drinking, Marion County and Florida, Selected Years 2002 - 2019..... 179

Table 95. Number and Age-Adjusted Rate per 100,000 Population of Selected Liver Disease Deaths, Marion County and Florida, 2009-2020..... 180

Table 96. Number and Rate of All Motor Vehicle Traffic Crashes, Alcohol-Confirmed Various Motor Vehicle Traffic Crashes, Injuries and Deaths, Marion County and Florida, 2016-2020..... 181

Table 97. Number and Rate of All Motor Vehicle Traffic Crashes, Drug-Confirmed Various Motor Vehicle Traffic Crashes, Injuries and Deaths, Marion County and Florida, 2016-2020..... 182

Table 98. Total Number and Rate per 100,000 Population for Domestic Violence Offenses by Type, Marion County and Florida, 2019..... 183

Table 99. Total Number and Rate Per 100,000 Population for Domestic Violence Offenses, MARion County and Florida, 2007-2020..... 184

Table 100. Total Births and Birth Rates Per 1,000 Total Population by Race and Ethnicity, By Zip code, Marion County and Florida, 2016-2020..... 186

Table 101. Total Number of Infant Deaths and Rates Per 1,000 Live Births by Race and Ethnicity, by Zip Code, Marion County and Florida, 2016-2020..... 190

Table 102. Total Number and Percent of Low Birthweight Births by Race and Ethnicity, by Zip Code, Marion County and Florida, 2016-2020..... 194

Table 103. Total Number and Percent of Births That Received Care in the First Trimester by Race and Ethnicity, by Zip Code, Marion County and Florida, 2016-2020..... 198

Table 104. Total Number and Percent of Births That Were to Teens (15-17 Years Old) by Race and Ethnicity, by Zip Code, Marion County and Florida, 2016-2020. ....202

Table 105. Total Number and Percent of Births That Had Medicaid as the Payor Source By Race and Ethnicity, by Zip Code, Marion County and Florida, 2016-2020.....206

Table 106. Total Number and Percent of Births that Mother Participated in WIC by Race and Ethnicity, by Zip Code, Marion County and Florida, 2016-2020 .....210

Table 107. Comparison of Colorectal Cancer Screening Indicators, Marion County and Florida, 2016. ....214

Table 108. Comparison of Selected Prostate Cancer Screening Indicators, Marion County and Florida, 2016. ....214

Table 109. Comparison of Selected Women’s Health Cancer Screening Indicators, Marion County and Florida, 2013 and 2016.....215

Table 110. Number and Age-Adjusted Death Rates Per 100,000 Population for All Races by Type of Cancer, Marion County and Florida, 2018-2020.....216

Table 111. Number and Age-Adjusted Death Rates Per 100,000 Population for White Races by Type of Cancer, Marion County and Florida, 2018-2020.....217

Table 112. Number and Age-Adjusted Death Rates Per 100,000 Population for Black Races by Type of Cancer, Marion County and Florida, 2018-2020.....218

Table 113. Number and Age-Adjusted Death Rates Per 100,000 Population for Hispanics by Type of Cancer, Marion County and Florida, 2018-2020.....219

Table 114. Number and Age-Adjusted Death Rates Per 100,000 Population for Females by Type of Cancer, Marion County and Florida, 2018-2020.....220

Table 115. Number and Age-Adjusted Death Rates Per 100,000 Population for Males by Type of Cancer, Marion County and Florida, 2018-2020.....221

Table 116. Age-Adjusted Rates Per 100,000 Population for Selected Types of Cancer Incidences by Race and Ethnicity, Marion County and Florida, 2017-2019. ....222

Table 117. Comparison of Selected BRFSS Indicators for Marion County and Florida, 2017-2019.....225

Table 118. Total Number of STDs by Type and Rates per 100,000 Population, Marion County and Florida, 2016-2020. ....229

Table 119. Total Number of HIV/AIDS and Rates per 100,000 Population, Marion County and Florida, 2016-2020.....230

Table 120. Number of Cases for COVID-19 for Marion County and Florida, As of June 16, 2022.....231

Table 121. Number of People Vaccinated for COVID-19 for Marion County and Florida, As of June 16, 2022. ....231

Table 122. Number and Percent of Kindergartners and 7<sup>th</sup> Graders Immunized, Marion County and Florida, 2017-2021.....232

Table 123. Number and Percent of Total Population With Community Water Supplies and Total Population with Fluoridated Water Supplies, Marion County and Florida, 2015-2019.....233

Table 124. HPSA Shortage Area and MUA by Type and Score, Marion County, 2022.....234

Table 125. Number of Medicaid Eligibles and Percent of Total Population by Selected Age Groups, Marion County and Florida as of December of Each Year, 2017-2021.....236

Table 126. Median Monthly Medicaid Enrollment Numbers and Percent of Population for Marion County and Florida, 2011-2020.....237

Table 127. Licensed Health Care Service Facilities and Rates per 100,000 Population, Marion County and Florida, 2022.....238

Table 128. Total Nursing Home Beds, Total Hospital Beds, Total Acute Care Beds and Total Specialty Beds and Rates per 100,000 Population, Marion County and Florida, 2016-2020.....242

Table 129. The Rate of Physicians by Type per 100,000 Population, Marion County and Florida, Fiscal Years 2016-17 – 2020-21.....244

Table 130. The Number and Rate of Dentists per 100,000 Population, Marion County and Florida, 2016-2021.....244

Table 131. Total Number of Dental ED Visits, Total Preventable Dental ED Visits, Percent of Total and Rate per 1,000 Population by Zip Code for Marion County Residents and Florida, 2018 – 2020.....245

Table 132. Total Number of Dental Hospitalizations, Total Preventable Dental Hospitalizations, Percent of Total and Rate per 1,000 Population by Zip Code for Marion County Residents and Florida, 2018 – 2020..248

Table 133. Number of Discharges for COVID-19 and Rates Per 100,000 Population by Quarter for Marion County and Florida, April - December, 2020.....251

Table 134. Number of Emergency Department (ED) Visits for Covid-19 and Rates Per 100,000 Population by Quarter for Marion County and Florida, April – December, 2020.....251

Table 135. Total Number and Percent of Discharges and Patient Days and Rate Per 1,000 Total Population by Zip Code for Marion County Residents and Florida, 2018 – 2020.....252

Table 136. Total Number and Percent of Discharges and Patient Days by Payor Source, Marion County Residents and Florida, 2018 – 2020.....255

Table 137. Number of Discharges and Patient Days for the Top Leading MS-DRGs Per Year, by Service Area, For Marion County, 2018 – 2020.....257

Table 138. Total Number and Percent of Avoidable Discharges and Patient Days by Zip Code, Marion County and Florida, 2018 – 2020.....258

Table 139. Total Number and Percent of Avoidable Discharges and Patient Days by Payor Source for < 65 Years of Age, Marion County and Florida, 2018 – 2020.....261

Table 140. Top 5 Reasons for Avoidable Discharges for < 65 Years of Age, For Marion County and Florida, 2018 – 2020. \*.....262

Table 141. Total Number of Emergency Department (ED) Visits and Avoidable ED visits and Rate per 1,000 Population by Zip Code, Marion County and Florida, 2018 – 2020.....263

Table 142. Number and Percent of Emergency Department (ED) Visits by Payor Source, Marion County and Florida, 2018 – 2020.....266

Table 143. Number and Percent of the Main Reason for Emergency Department Visits by Year, Marion County, 2018 – 2020. \*.....267

Table 144. Rate Per 1,000 Population of Incarcerations, Marion County and Florida, 2017-2021.....268

## Demographics and Socioeconomics

### COUNTY HEALTH RANKINGS

**TABLE 1. COUNTY HEALTH RANKINGS BY CATEGORY FOR MARION COUNTY, 2010-2022.**

Area/Category	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022
HEALTH OUTCOMES	45	49	48	44	41	42	49	43	49	52	53	54	51
<i>Mortality/Length of Life</i>	43	43	46	44	44	48	47	48	50	59	64	59	60
<i>Morbidity/Quality of Life</i>	53	53	49	50	36	39	51	36	40	41	44	47	40
HEALTH FACTORS	36	44	44	39	40	38	34	36	38	40	38	38	38
<i>Health Behavior</i>	30	32	37	39	43	42	26	28	33	33	32	35	41
<i>Clinical Care</i>	23	21	17	20	21	30	23	23	18	18	23	29	23
<i>Social &amp; Economic Factors</i>	51	57	55	52	49	49	47	50	53	51	51	47	46
<i>Physical Environment</i>	23	22	49	37	20	19	39	50	45	43	48	53	23

PLEASE NOTE: DO NOT COMPARE 2016 RANKS FOR QUALITY OF LIFE AND HEALTH BEHAVIORS WITH PREVIOUS RANKS. In previous Robert Wood Johnson(RWJ) releases, the CDC provided BRFSS data with estimates based on seven years of combined data. 2016 Ranks, used only 2014 data to construct estimates. Historically, BRFSS was based on landline telephones. In 2011, cell-only users were included for the first time. RWJ said that the data from 2011 onward could not be easily combined with earlier years to create the RWJ county estimates. CDC doesn't release data when there are fewer than 50 responses, so in about 90 percent of the counties, in order to get more than 50, they would combine seven years of survey responses. CDC only provided 2014 county-by-county data to RWJ this year, using a different modeling technique so they could include cell phone data. The Health Rankings are a point in time ranking and really shouldn't be compared to other years due to changes in data sources, time frames and any other methodology changes.

The group quarters population includes all people not living in households. Two general categories of people in group quarters are recognized by the Census: (1) the institutionalized population and (2) the noninstitutionalized population. The institutionalized population includes people under formally authorized, supervised care or custody in institutions at the time of enumeration; such as correctional institutions, nursing homes and juvenile institutions. The noninstitutionalized population includes all people who live in group quarters other than institutions, such as college dormitories, military quarters, and group homes. Also included are staff residing at institutional group quarters.

Although the American Community Survey(ACS) produces population, demographic and housing unit estimates for 2016-2020, the 2020 Census provides the official counts of the population and housing units for the nation, counties, cities, and towns. The American Community Survey is a sample of data taken over a time period and should not be compared to other sources of data.

A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householders family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.

Although the American Community Survey(ACS) produces population, demographic and housing unit estimates for 2016-2020, the 2020 Census provides the official counts of the population and housing units for the nation, counties, cities, and towns. The American Community Survey is a sample of data taken over a time period and should not be compared to other sources of data.

A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. Separate living quarters are those in which the occupants live separately from any other people in the building and that have a direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

Although the American Community Survey(ACS) produces population, demographic and housing unit estimates for 2016-2020, the 2020 Census provides the official counts of the population and housing units for the nation, counties, cities, and towns. The American Community Survey is a sample of data taken over a time period and should not be compared to other sources of data.

\* A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householders family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.

## Mortality

Various mortality data is presented at the county level and in comparison to Florida. When zip code level data is available it is shown as well. Please note: the county level data should not be compared to the tables where zip codes are shown. The county numbers in the zip code tables might not match the county numbers in the previous tables due to the use of different sources. The rates might be different as well due to different population source data.

Essen Hypertension & Hypertensive Renal Disease (Hypertension)	11	12	10	18T	13	14	10	14

\* The ranking of the causes of death in the table are based on the total number of deaths for Marion County and for Florida for the time period of 2018-2020 for each type of race. Causes of deaths are shown for the top 10 by each race and for ethnicity as well as where they rank if they are in one of the top 10 by race or ethnicity.

If there is a "T" after the number then the total number of deaths is tied for those diseases.

The shorter names of the causes of deaths in ( )'s above will be used in the rest of the tables in the appendix for the name for that particular cause of death.

## Maternal and Infant Health

Various maternal and infant health data is presented at the zip code and county level over an extended time period. Ethnicity data is presented in the same tables as the data when broken out by race, Hispanics are not considered a race but a subset of the races. Therefore Hispanics should not be added in with the White and Black to get a total. Not all races are shown in the table, so the sum of these two may not equal what is shown in the total column.

## BEHAVIORAL RISK FACTORS SURVEILLANCE SURVEYS (BRFSS)

**TABLE 117. COMPARISON OF SELECTED BRFSS INDICATORS FOR MARION COUNTY AND FLORIDA, 2017-2019.**

Indicator	Marion County	Florida
<b>Alcohol Consumption</b>		
Percentage of adults who engage in heavy or binge drinking	13.9	18.0
<b>Arthritis</b>		
Percentage of adults who have been told they have some form of arthritis, rheumatoid arthritis, gout, lupus or fibromyalgia	35.5	25.1
<b>Asthma</b>		
Percentage of adults who currently have asthma	10.3	7.4
Percentage of adults who have ever been told they have had asthma	14.4	12.7
<b>Cancer Prevalence</b>		
Percentage of adults who have ever been told they had skin cancer	11.2	10.4
Percentage of adults who have ever been told they had any other type of cancer except skin cancer	9.7	8.0
<b>Cardiovascular Disease</b>		
Percentage of adults who have ever been told they had a heart attack	9.6	4.7
Percentage of adults who have ever been told they had angina or coronary heart disease	8.1	4.7
Percentage of adults who have ever had a stroke	6.3	3.6
Percentage of adults who have ever been told they had coronary heart disease, heart attack or stroke	16.3	9.5
<b>Cholesterol Awareness</b>		
Percentage of adults who had their cholesterol checked in the past five years	88.8	89.1
Percentage of adults who had their cholesterol checked in the past two years	85.1	83.1
Percentage of adults who have ever been told they had high blood cholesterol (among adults who had their cholesterol checked within the past 5 years)	39.4	34.2

Indicator	Marion County	Florida
COPD		
Percentage of adults who have ever been told they had chronic obstructive pulmonary disease, emphysema, or chronic bronchitis	11.7	7.7
Depression		
Percentage of adults who have ever been told they had a depressive disorder	18.7	17.7
Diabetes		
Percentage of adults that have had a test for high blood sugar or diabetes within the past 3 years	59.7	58.0
Percentage of adults who have ever been told they had pre-diabetes	9.7	9.1
Percentage of adults who have ever been told they had diabetes	16.8	11.7
Average age at which diabetes was diagnosed	50.3	49.9
Percentage of adults with diabetes who ever had diabetes self-management education	41.5	66.3
Disability		
Percentage of adults who are blind or have serious difficulty seeing, even when wearing glasses	7.8	5.3
Percentage of adults who are deaf or have serious difficulty hearing	9.5	6.6
Percentage of adults that have serious difficulty concentrating, remembering or making decisions due to a physical, mental or emotional condition	13.2	12.9
Percentage of adults that have serious difficulty walking or climbing stairs	20.8	16.2
Percentage of adults that have difficulty dressing or bathing	4.8	4.0
Percentage of adults that have difficulty doing errands alone such as visiting a doctor's office or shopping	9.3	7.6
Percentage of adults who have any disability	38.0	31.0

Indicator	Marion County	Florida
<b>Health Care Access &amp; Coverage</b>		
Percentage of adults who have a personal doctor	78.3	72.0
Percentage of adults with any type of health care insurance coverage	84.9	84.2
Percentage of adults who could not see a doctor at least once in the past year due to cost	19.1	16.0
Percentage of adults who had a medical checkup in the past year	83.4	78.8
<b>Health Status and Quality of Life</b>		
Percentage of adults with good to excellent overall health	73.6	80.3
Percentage of adults who said their overall health was "fair" or "poor"	26.4	19.7
Percentage of adults who had poor mental health on 14 or more of the past 30 days	14.3	13.8
Percentage of adults who had poor physical health on 14 or more of the past 30 days	14.8	13.8
Percentage of adults whose poor physical or mental health kept them from doing usual activities on 14 or more of the past 30 days	18.3	18.3
Percentage of adults with good mental health for the past 30 days	85.7	86.2
Percentage of adults with good physical health for the past 30 days	85.2	86.2
Average number of unhealthy physical days in the past 30 days	4.8	4.4
Average number of unhealthy mental days in the past 30 days	4.1	4.4
Average number of days where poor mental or physical health interfered with activities of daily living in the past 30 days (Among adults who have had at least one day of poor mental or physical health)	5.7	5.6
<b>HIV/AIDS Screening</b>		
Percentage of adults who had ever been tested for HIV	44.0	50.7
Percentage of adults less than 65 years of age who have ever been tested for HIV	55.9	60.7

Indicator	Marion County	Florida
<b>Hypertension Awareness and Control</b>		
Percentage of adults who have ever been told they had hypertension	46.1	33.5
Percentage of adults with hypertension who currently take high blood pressure medicine	81.2	77.8
<b>Immunization</b>		
Percentage of adults who received a flu shot in the past year	35.8	36.9
Percentage of adults age 65 and older who received a flu shot in the past year	56.6	58.3
Percentage of adults who have ever received a pneumococcal vaccination	37.6	35.4
Percentage of adults age 65 and older who have ever received a pneumonia vaccination	66.6	66.8
<b>Kidney Disease</b>		
Percentage of adults who have ever been told that they had kidney disease	4.9	4.0
<b>Overweight &amp; Obesity</b>		
Percentage of adults who are overweight	31.8	37.6
Percentage of adults who are obese	35.0	27.0
Percentage of adults who are overweight or obese	66.8	64.6
Percentage of adults who have a healthy weight (BMI from 18.5 to 24.9)	31.0	32.8
<b>Physical Activity &amp; Nutrition</b>		
Percentage of adults who are sedentary	32.3	26.5
Percentage of adults who meet muscle strengthening recommendations	30.2	38.1
<b>Tobacco Use &amp; Exposure</b>		
Percentage of adults who have never smoked	52.1	58.9
Percentage of adults who are current smokers	18.3	14.8
Percentage of adult current smokers who tried to quit smoking at least once in the past year	59.6	59.0
Percentage of adults who are former smokers	29.6	26.3
Percentage of adults who currently use chewing tobacco, snuff or snus some days or every day	2.9	2.2
Percentage of adults who have never used e-cigarettes	79.1	74.1
Percentage of adults who are current e-cigarette users	3.3	7.5
Percentage of adults who are former e-cigarette users	17.6	18.4

**HOUSING**

**TABLE 148. VARIOUS HOUSING DATA FOR MARION COUNTY AND FLORIDA, 2016-2020.**

Indicator	Marion County	Florida
Occupied Households With Monthly Housing Costs of 30% or More of Household Income (Percent of Occupied Households)	26.3	34.7
Occupied Housing Units Without a Vehicle (Percent of Occupied Households)	4.8	6.1
Median Owner-Occupied Housing Unit Value (Dollars)	\$ 151,700	\$ 232,000
Owner-Occupied Housing Units (Percent of Occupied Housing Units)	74.8	66.2
Owner-Occupied Households With Monthly Housing Costs of 30% or More of Household Income (Percent of Owner-Occupied Households)	20.5	25.4
Renter Occupied Housing Units of Occupied Housing Units (Percent of Occupied Housing Units)	25.2	33.8
Renter-Occupied Households With Gross Rent Costing 30% or More of Household Income (Percent of Renter-Occupied Households)	49.3	56.4
Rental Vacancy Rate (Percent of Rental Housing Units)	7.0	8.2
Population With Severe Housing Problems (Percent of Occupied Housing Units)	13.7	19.2
Individuals 1 Year and Over That Lived in a Different House 1 Year Earlier (Percent of Population 1 and Over)	10.6	13.6
Occupied Housing Units With More than 1 Occupant (Percent of Occupied Housing Units)	2.3	3.0

Source: Although the American Community Survey(ACS) produces population, demographic and housing unit estimates for 2016-2020, the 2020 Census provides the official counts of the population and housing units for the nation, counties, cities, and towns. The American Community Survey is a sample of data taken over a time period and should not be compared to other sources of data.

## Technical Notes

### 2020 U.S. CENSUS DATA

The 2020 U.S. Census data provides the official counts of the population and housing units for the nation, counties, cities and towns. Due to the COVID-19 Pandemic release of all of the 2020 data has been postponed therefore most of the data shown here in the technical appendix is from the American Community Survey's latest results.

### AMERICAN COMMUNITY SURVEY DATA

The American Community Survey (ACS) data is released in one-year or five-year estimates depending on what level of data is shown. Traditionally, short forms and long forms were sent out to addresses every 10 years. The American Community Survey was designed to replace the long form and it is now sent to only a sample of the population once each year instead of every ten years so that ongoing estimates may be available. The ACS reports contain estimates, not the official counts. The U.S. Census states that you should not compare 2010 or 2020 Census numbers to ACS data; it also suggests that you only compare ACS data when the data are different sets of years. Therefore, to compare 2005-2009 ACS data you would not compare it with any other set until the 2010-2014 data is released. Three-year estimates have been released in the past but are no longer being released. Individual sets of years of data for the ACS may be compared to each other. Please remember that the ACS data are not the actual count rather, it is a sample of the population over the selected time period. For more detailed information on the American Community Survey please refer to <https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data/2014.html>.

Since previous data that was collected on the former long forms was not collected during the 2010 official counts, there is no data from that point for education levels and income information. The income information and education data estimates are shown from the latest ACS. In addition, various other data from the latest ACS are included in this report to show the latest estimates. To be able to show Zip Code Tabulation Area level data, data from the five-year estimates must be utilized.

### AVAILABILITY OF SERVICES

To show various services that are available to persons in the county, rates are shown for the acute care hospital beds, nursing home beds, various types of doctors and dentists and dental services.

### AVOIDABLE DISCHARGES/INPATIENT HOSPITALIZATIONS

Avoidable discharges are based on the ACS Conditions study done by John Billings. Only discharges for the less than 65 population are looked at. The codes are listed at [http://wagner.nyu.edu/chpsr/acs\\_codes.pdf](http://wagner.nyu.edu/chpsr/acs_codes.pdf).

### AVOIDABLE EMERGENCY DEPARTMENT (ED) VISITS

Avoidable emergency department visits are based on the NYU Algorithm. ED visits are classified into four categories based on the NYU Algorithm: (1) Non Emergent, (2) Emergent/Primary Care Treatable, (3) Emergent/Emergency Department Care Required But Preventable/Avoidable and (4) Emergent/Emergency

Department Care Required Not Preventable/Avoidable. Therefore the first three categories were combined to create the total number of Avoidable ED Visits. This data is based on all ED visits no matter what the age of the patient.

### BEHAVIORAL RISK FACTOR SURVEILLANCE SYSTEM (BRFSS) DATA

The Florida Department of Health conducts the Behavioral Risk Factor Surveillance System (BRFSS) with financial and technical assistance from the Centers for Disease Control and Prevention (CDC). This state-based telephone surveillance system collects self-reported data on individual risk behaviors and preventative health practices related to the leading causes of morbidity and mortality in the United States. BRFSS indicators are summarized only at the state and county level.

### BIRTHS

Various birth statistics and infant deaths are shown for the maternal and child health data. Data by race is shown for comparison. Low birthweight births and very low birthweight births are shown as well as teen birth rates. Trimester of care services and when they were started are also shown for comparison. Additionally, payor sources for the deliveries are shown. Data is shown by zip code levels when available. Rates are mostly based on per 1,000 live births unless stated.

### BUSINESSES

Data for business sizes and selected types are shown from the latest County Business Patterns produced from the U.S. Census Bureau.

### COUNTY HEALTH RANKINGS

The County Health Rankings are a key component of the Mobilizing Action Toward Community Health (MATCH) collaboration project between the Robert Wood Johnson Foundation and the University of Wisconsin Population Health Institute. Counties receive a rank relative to the health of other counties in the state. Counties having high ranks, e.g. 1 or 2, are considered to be the “healthiest”. Health is viewed as a multi-factorial construct. Counties are ranked relative to the health of other counties in the same state on the following summary measures:

- I. Health Outcomes--rankings are based on an equal weighting of one length of life (mortality) measure and four quality of life (morbidity) measures.
- II. Health Factors--rankings are based on weighted scores of four types of factors:
  - a. Health Behaviors (9 measures)
  - b. Clinical Care (7 measures)
  - c. Social and Economic (8 measures)
  - d. Physical Environment (5 measures)

For more detailed information please check <http://www.countyhealthrankings.org/ranking-methods>.

## COVID-19

COVID-19 data has been added to the technical appendix. The ICD-10 Code U07.1 was added in March of 2020. Therefore, data is from that point onwards in this report. When pulling COVID-19 data from the inpatient and emergency department visit data, all possible fields where this code could be found were pulled.

## CRUDE VERSUS AGE-ADJUSTED MORTALITY RATES

Both the crude and the age-adjusted death rates (AADR) are displayed in this report. Crude rates are merely the actual number of deaths for a given cause for a desired population divided by total number in the desired population and then multiplied by 100,000 to get the rate per 100,000 population, while AADR represent crude rates adjusted to standardize the population distribution effects on the rate.

Although useful for certain purposes, the crude death rate as a comparative measure has a major shortcoming. It is a function of the age distribution of the population at risk. For example, the population at risk in one county may be primarily elderly persons ages 65 and older while the population at risk in another county may be primarily of persons ages 40 to 50. Crude rates are recommended when a summary measure is needed and it is not necessary or desirable to adjust for other factors.

The frequency with which health events occur is almost always related to age. In fact, the relationship of age to risk often dwarfs other important risk factors. For example, acute respiratory infections are more common in children of school age because of their immunologic susceptibility and exposure to other children in schools. Chronic conditions, such as arthritis and atherosclerosis, occur more frequently in older adults because of a variety of physiologic consequences of aging. Mortality rates tend to increase after the age of 40.

Because the occurrence of many health conditions is related to age, the most common adjustment for public health data is age adjustment. The age-adjustment process removes differences in the age composition of two or more populations to allow comparisons between these populations independent of their age structure.

The age-adjusted death rate is a summary measure that eliminates the effect of the underlying age distribution of the population. The result is a figure that represents the theoretical risk of mortality for a population, if the population had an age distribution identical to that of a standard population. For example, a county's age-adjusted death rate is the weighted average of the age-specific death rates observed in that county, with the weights derived from the age distribution in an external population standard, such as the U.S. Population.

Age-adjustment then allows for the comparison of two distinct populations (for example, Marion County versus Florida) which most likely have differing age distributions. The age effects are in essence removed from the rates and the age-adjusted death rate then no longer reflects the actual death rate but is an indicator rate that can be used for relative comparisons.

In the past, the National Center for Health Statistics (NCHS) age-adjusted rates using the US 1940 standard population. Other agencies used the U.S. 1970 Standard. Beginning with 1999 data, federal agencies began age-adjusting to the U.S. 2000 Standard Million Population.

Zip Code level crude and age-adjusted rates are shown in separate tables alongside county rates and Florida rates. These data should not be compared to tables that have only county and Florida rates in them. Population sources are different and these rates are therefore not comparable.

## DENTAL/ORAL HEALTH

Hospitalizations and Emergency Department (ED) Visits are shown for dental/oral health reasons. ICD 9 Codes 520-529 were used to pull the emergency department visits and the discharges due to dental/oral health issues for data up to September 30, 2015. All possible fields were used in categorizing these visits. The following ICD 9 Codes were used to categorize dental/oral health as preventable for data up to September 30, 2015: 520.5, 520.6, 520.7, 521.0, 521.1-521.8, 522.0, 522.1, 522.4-522.8, 523.0-523.9, 524.3-524.6, 525.1, 525.3, 525.9, 526.4, 526.5, 528.0-528.3, 528.5-528.7, 528.9 and 529.0. For data from October 1, 2015 and forward ICD 10 Codes K00-K14 were used to pull off data for dental/oral health reasons. From the same time frame, ICD 10 codes K02, K03, K04, K05, K060, K061, K062, K08, K12, K13, M276, A690, and K098 were the preventable dental/oral health issues.

## EDUCATION LEVELS AND LANGUAGE SPOKEN AT HOME

The number of persons by level of school completed is shown as well as the language spoken in the home and how well English is spoken.

## EMERGENCY DEPARTMENT (ED) DATA

For tables with emergency department data please note that this data only includes emergency department visits in which emergency department registration occurs and the patient is not admitted for inpatient care at the reporting entity.

## ENVIRONMENTAL HEALTH

Water supply and fluoridation data is shown for environmental issues. Various access to healthy food data is referenced in the report. Recreation and fitness facility data is also included.

## HEALTH PROFESSIONAL SHORTAGE AREAS (HPSA) DATA

HPSAs may be designated as having a shortage of primary medical care, dental or mental health providers. They may be urban or rural areas, population groups or medical or other public facilities. Possible types of HPSA Designations in the area include:

Geographic Single County - Where the whole county is designated as HPSA.

Geographic Service Area - Where portions of a county, or portions of multiple counties are designated as a geographic HPSA.

Population Group - Where a population within an area is designated as a HPSA.

Correctional Institutions - Federal and State prisons and youth detention facilities.

Comprehensive Health Centers - Entities receiving Section 330 funds to operate comprehensive health centers.

FQHC Look-a-Like - Federally Qualified Health centers certified as meeting 330 requirements but not receiving grant funds.

Rural Health Clinic - Certified as Rural Health Clinics by the Centers for Medicare and Medicaid Services.

HPSA Scores are developed for use by the National Health Service Corps in determining priorities for assignment of clinicians. Scores range from 1 to 25 for primary care And Mental Health, 1 to 26 for dental health. The higher the score, the greater the priority. All Federally Qualified Health Centers and those Rural Health Clinics that provide access to care regardless of one's ability to pay, receive automatic facility HPSA designation. These facilities may have a HPSA score of 0.

## HOUSEHOLD TYPES

There are various types of households. A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. Separate living quarters are those in which the occupants live separately from any other people in the building and that have a direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householders family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone. For a more detailed explanation please check the definitions at the census website.

## IMMUNIZATIONS

The number of kindergartners and seventh graders that have been immunized are reported.

## INCOMES

Various income data is shown by zip codes and levels from the latest 5-year ACS estimates.

## INFECTIOUS DISEASES

Rates for gonorrhea, chlamydia and infectious syphilis, vaccine preventable diseases, and HIV and AIDS cases are shown. Please note that the measurements for Bacterial STDs include counts for gonorrhea and chlamydia.

## INPATIENT HOSPITALIZATIONS

A general overview of discharges and patient days are shown by Zip Code level. Payor sources for these discharges are also shown for the county residents. The top leading MSDRGs are also shown for the county residents.

## INTERNATIONAL STATISTICAL CLASSIFICATION CODES (ICD)

This is the international “standard diagnostic tool for epidemiology, health management and clinical purposes”. ICD 9 and 10 codes were used in various tables in this report due to the change from ICD 9 to ICD 10 in October 2015.

## LICENSED HEALTH CARE FACILITIES AND PHYSICIANS

Various types of health care facilities that are available in the areas are listed. Dentists and selected types of physicians are also listed.

## MEDICALLY UNDERSERVED AREAS & POPULATIONS (MUAS & MUPS) DATA

MUAs may be a whole county or a group of contiguous counties, a group of county or civil divisions or a group of urban census tracts in which residents have a shortage of personal health services. MUPs may include groups of persons who face economic, cultural or linguistic barriers to health care.

Possible types of MUAs & MUPs Designations in the area include.

C = Whole County

T = Census Tract

MUAs and MUPs score are the Index of Medical Underservice (IMU) score. The lowest score (highest need) is 0; And the highest score (lowest need) is 100.

Source. <http://bhpr.hrsa.gov/shortage/muadatadict.htm>

## MENTAL HEALTH

Hospitalizations and Emergency Department (ED) Visits are shown for mental health reasons. MSDRGs 876, 880-883, 885-887, 894-897 are used for hospitalizations. For data up to September 30, 2015, ICD 9 Codes 290-316.99 were used in determining mental health reasons for visits to the emergency department. After September 30, 2015, ICD 10 codes F00-F69 and F80-F99 were used to pull the mental health visits. Involuntary Exam Initiations (Baker Act) data is shown as well for the mental health section, as well as Domestic Violence data.

## POVERTY

The U.S. Census Bureau provides poverty estimates through the Small Area Income and Poverty Estimates (SAIPE). Data shown is for all ages in poverty as well as children under age 18. To compare poverty at the Zip Code level, the ACS estimates are shown for various age groups and various levels of poverty.

## SMALL AREA HEALTH INSURANCE ESTIMATES

In previous Small Area Health Insurance Estimate (SAHIE) releases, uninsured was defined from the Annual Social and Economic Supplement to the Current Population Survey (CPS ASEC) and the question asked about being covered "Some Time During the Past Calendar Year". With the 2008 release from the Census, the CPS ASEC data were replaced with American Community Survey (ACS) data. The ACS health insurance question asks, "Is this person CURRENTLY covered by [specifically stated] health insurance or health coverage plans?" In 2010, the age group 50-64 was added to the various age group breakouts in the SAHIE. The Census does not recommend comparing the 2008 and newer data to previous-year SAHIE estimates.

## UNEMPLOYMENT

The latest unemployment monthly and yearly rates are shown for the county. This data is from the Florida Research and Economic Database.

## ZCTAS AND ZIP CODES

The United States Census Bureau collects data by United States Postal Service (USPS) zip codes. Based on zip code data the Census Bureau then aggregates Zip Code Tabulation Area (ZCTAs) from addresses contained within each block. This allows the aggregated data to be converted into areal feature datasets (ZCTAs). For complete information, please see <http://www.census.gov/geo/reference/zctas.html>.

Below is a table that shows all zip codes in Marion County and what percent are included in each county.

Area	PO Boxes That Are Included	Area	PO Boxes That Are Included
32113 Citra		34470 Ocala	
32133 East Lake Weir		34471 Ocala	34477 Ocala and 34478 Ocala
32134 Ft. McCoy	32182 Orange Springs	34472 Ocala	32111 Candler and 34483 Ocala
32179 Ocklawaha	32183 Ocklawaha	34473 Ocala	
32195 Weirsdale		34474 Ocala	
32617 Anthony	32192 Sparr	34475 Ocala	
32664 McIntosh		34476 Ocala	
32681 Orange Lake		34479 Ocala	
32686 Reddick	32634 Fairfield and 32663 Lowell	34480 Ocala	
34420 Belleview	34421 Belleview	34481 Ocala	
34431 Dunnellon		34482 Ocala	
34432 Dunnellon	34430 Dunnellon	34488 Silver Springs	34489 Silver Springs
		34491 Summerfield	34492 Summerfield
The Following Zip Codes Are Partially In Marion County But Not Included In The Technical Report			
Zip Code	Percent of Addresses in Marion County	Main County	
32162 The Villages	15.7	Sumter	
32667 Micanopy	38.9	Alachua	
32668 Morriston	18.6	Levy	
32696 Williston	38.9	Levy	
32702 Altoona	11.9	Lake	
32784 Umatilla	31.3	Lake	
34484 Oxford	1.5	Sumter
