

# Medi-Cal Rx Contract Drugs List

April 1, 2024

## Revision History

Drug Name	Description	Effective Date
Budesonide	Additional labeler restriction for oral powder for inhalation added to CDL.	February 1, 2024
Capivasertib	Added to CDL with labeler restriction.	February 1, 2024
Hydroxychloroquine	Quantity limit removed from tablets.	February 1, 2024
Insulin Glargine-YFGN	Additional labeler restriction added to CDL.	February 1, 2024
Repotrectinib	Added to CDL with labeler restriction.	February 1, 2024
Toripalimab-tpzi	Added to CDL with labeler restriction.	February 1, 2024
Adalimumab-bwwd	Added to CDL with diagnosis, quantity, and labeler restrictions.	March 1, 2024
Alogliptin/Metformin HCL	Labeler restriction removed.	March 1, 2024
Buprenorphine/Naloxone film.	Labeler restriction removed from sublingual film.	March 1, 2024
Carglumic Acid	Diagnosis restriction removed.	March 1, 2024
Doxylamine/Pyridoxine HCL	Diagnosis and quantity restrictions removed.	March 1, 2024
Eflornithine	Added to CDL with prior authorization required.	March 1, 2024
Elbasvir/Grazoprevir	Diagnosis restriction removed.	March 1, 2024
Epoetin Alfa	Diagnosis restriction removed.	March 1, 2024
Fruquintinib	Restriction updated to prior authorization required.	March 1, 2024
Glecaprevir/Pibrentasvir	Diagnosis restriction removed.	March 1, 2024
Lamivudine	Diagnosis restriction removed from 100 mg tablets.	March 1, 2024
Ledipasvir/Sofosbuvir	Diagnosis restriction removed.	March 1, 2024
Methotrexate	<b>Effective February 1, 2024:</b> Additional strength (2 mg/ml oral solution) added to CDL with labeler restriction.	March 1, 2024
Perampanel	Diagnosis restriction removed.	March 1, 2024
Secukinumab	Additional strength (300 mg/2 ml) added to CDL with diagnosis, quantity, and labeler restrictions.	March 1, 2024

Drug Name	Description	Effective Date
Sodium Phenylbutyrate	Diagnosis restriction removed.	March 1, 2024
Sofosbuvir	Diagnosis restriction removed.	March 1, 2024
Sofosbuvir/Velpatasvir	Diagnosis restriction removed.	March 1, 2024
Tenofovir Alafenamide	Diagnosis restriction removed.	March 1, 2024
Tobramycin	Diagnosis restriction removed from inhalation powder.	March 1, 2024
Zenpep (Amylase/Lipase/Protease)	Additional strength (60,000 USP units of lipase; 189,600 USP units of protease; 252,600 USP units of amylase) added to CDL with labeler restriction.	March 1, 2024
Bosutinib	Additional formulation (capsules) added to CDL with labeler restriction.	April 1, 2024
Brinzolamide	Labeler code 00065 removed.	April 1, 2024
Brinzolamide/Brimonidine Tartrate	Labeler code 00078 removed.	April 1, 2024
Ciprofloxacin Hydrochloride/Hydrocortisone	Labeler code 00065 removed.	April 1, 2024
Copanlisib	End-dated.	April 1, 2024
Dapagliflozin Propanediol/Metformin HCL Extended Release	Additional strength (2.5 mg/1000 mg) added to CDL. Labeler restriction added to drug.	April 1, 2024
Edaravone	Added to CDL with labeler restriction.	April 1, 2024
Empagliflozin	Labeler restriction added.	April 1, 2024
Fosfomycin	Added to CDL.	April 1, 2024
Glucagon (R-DNA Origin)	Labeler code 00002 removed.	April 1, 2024
Glycopyrrolate and Formoterol Fumarate	Labeler restriction added.	April 1, 2024
Ipratropium Bromide and Albuterol Sulfate	Labeler restriction added to inhaler.	April 1, 2024
Lenvatinib	Additional strength (12 mg/day) added to CDL with labeler restriction.	April 1, 2024
Mobocertinib	End-dated.	April 1, 2024
Perampanel	Labeler restriction added to tablets and suspension.	April 1, 2024

Drug Name	Description	Effective Date
Tetracycline	Tablets end-dated.	April 1, 2024
Tobramycin with Dexamethasone	Labeler code 00065 removed from ophthalmic ointment.	April 1, 2024
Travoprost	Labeler code 00065 removed.	April 1, 2024

## General Provisions

1. Provisions of coverage are contained in the *California Code of Regulations (CCR)*, Title 22, Sections 51313, 51313.3, and 51313.6.
2. Code I drugs marked with a symbol (\*) require authorization in accordance with Section 51003 unless used under the conditions specified in the Contract Drugs List and are subject to the prescription documentation requirements in CCR, Title 22, Section 51476I. See CCR, Title 22, Section 51313.3(b).
3. Drugs marked with a symbol (+) have a frequency of billing requirement. See CCR, Title 22, Section 51513(b)(3). Full payment (drug ingredient cost plus a professional fee component) to a pharmacy is limited to a maximum of three claims for the same drug and strength dispensed to the same member within any 75-day period. The fourth claim from any provider, and subsequent claims for the same drug and strength dispensed to the same member within any 75-day period will be paid at the drug ingredient cost only. Exceptions are with the initial prescription, when authorization obtained for more frequent billing, or when drugs are dispensed in a quantity of 180 or more tablets or capsules.
4. Drugs marked with a symbol (++) have a unit price based on the package size determined by the Director to be the size most frequently purchased by providers. See CCR, Title 22, Section 51513(a)(2). A complete listing of these drugs is found in the Reimbursement section of this manual.
5. Drugs that have been end dated are subject to Prior Authorization unless the criteria for continuing care has been met. For information about continuing care, refer to the *Medi-Cal Rx Provider Manual*.

## Legend Drugs

Legend drugs that are listed in the Contract Drugs List of this manual are covered by the Medi-Cal program. Legend drugs not listed may be covered subject to authorization from a Medi-Cal consultant.

## Non-Legend Over-the-Counter Drugs

Non-legend Over-the-Counter (OTC) drugs that are listed in the Contract Drugs List are covered by the Medi-Cal program. OTC drugs not listed, and not otherwise excluded, may be covered subject to authorization from a Medi-Cal consultant.

## OTC Antihistamine, Nasal Decongestant, and Combinations

All OTC cough and cold products are restricted to individuals 2 years of age and older.

## Compounded Prescriptions

Prescribed drugs listed in the Contract Drugs List and unlisted drugs approved by authorization that require special compounding by the pharmacist are covered by the Medi-Cal program, provided that the name, quantity, and principal labeler of each ingredient are listed on the claim.

## Cost Ceiling Tiers

Effective September 22, 2023, Medi-Cal Rx has reinstated cost ceiling claim edits for members 22 years of age and older. Reject Code 78 – Cost Exceeds Maximum has been reinstated for all STCs with some exclusions (see list below). To improve pharmacy claim submission and processing quality and to mitigate potential fraud, waste, and abuse (FWA) in Medi-Cal Rx, the previous \$10,000 cost ceiling policy has been revised to cost ceiling categories as outlined in following table:

Cost Ceiling Limits	
Drug/Product	Cost Ceiling
Over-the-counter (OTC)	\$50/claim
Generic	\$1,000/claim
Single and Multi-Source Brand	\$4,000/claim
High-Cost Generics and Brands *	\$14,000/claim

Claims over the Cost Ceiling Maximum for each category will trigger Reject Code 78 and will require a prior authorization (PA) or an administrative override by the Medi-Cal Rx Customer Service Center (CSC).

\* Drugs/products in this category include generic and brand drugs not in the *Generic* or *Single and Multi-Source Brand* categories, where the claim threshold amount is equal to or greater than \$14,000. Drug classes that are exempt from the cost ceiling requirements include (but are not limited to) the following:

- Blood Clotting Factors, Immune Globulin, Antineoplastic Agents, Immunosuppressive Agents.
- Blood clotting factors and related treatments for hemophilia, treatments for cancer (including antineoplastic and immunologic agents as well as myelo-supportive therapies), immunosuppressive and immunologic agents (including immune globulins), HIV and hepatitis C virus (HCV) medications, gene therapies and other select targeted biologic therapies, specific disposable medical supplies, diabetic testing supplies, insulins, and compounds.

Additional drugs exempt from cost ceiling requirements can be found in the [Medi-Cal Rx Provider Manual](#).

**Note:** Brand, multisource drugs will be identified on the [Medi-Cal Rx Approved NDC List](#) as "Brand." However, claims submitted without a dispense as written (DAW) code of DAW 1 will be evaluated based on the Generic Cost Ceiling Limit. If the claim is submitted with a DAW 1 the claim will be evaluated based on the Brand Cost Ceiling Limit. Note, these claims will be subject to Brand Medically Necessary Prior Authorization requirements.

## Antipsychotic Use in Skilled Nursing Facilities

The use of antipsychotics for Medi-Cal members residing in skilled nursing facilities is restricted to FDA approved indications.

## Drugs Used in the Treatment of HIV

Drugs indicated for the treatment of HIV may be used for PEP without obtaining a Prior Authorization.

## Erectile Dysfunction Drugs: Non-Benefit

Erectile Dysfunction (ED) drugs have not been a Medi-Cal benefit since the enactment of Assembly Bill 2885 (Chapter 95, Statutes of 2006) on July 20, 2006. AB 2885 amended *Welfare and Institutions Code* (W&I Code), Section 14132, that specified drugs used to treat ED, or any off-label use of those drugs, would only be reimbursable by Medi-Cal if Federal Financial Participation (FFP) was available. FFP has not been available for ED drugs since January 1, 2006.

## Controlled Substance Policy

All controlled drug products, including opioids (DEA Schedule 2-5) will have a **maximum day supply** of 35 days. Any claims submitted for greater than 35 days will require a prior authorization.

**Note:** The above days' supply limitation does **not** apply to new-start opioid prescriptions or new-start benzodiazepine prescriptions.

Prior authorizations will be required for all intramuscular, intravenous, and subcutaneous injectable forms of opioids.

**Note:** This limit does **not** apply to buprenorphine products indicated for pain or addiction.

New-start opioid claims will be restricted to a 7 days' supply or a maximum quantity *per fill* of 30 solid dosage units (each) or 240mL for liquids.

**Note:** *New start* is defined as *absence* of paid claims for opioids in the member's history within the prior 90 days (cough preparations containing opioids are excluded from this look back.) Subsequent fills will be restricted to a 35 days' supply.

**Note:** *Subsequent fills/Chronic Use* is defined as the *presence* of paid claims for opioids in the member's history within the prior 90 days (cough preparations containing opioids are excluded from this lookback.)

Claims submitted for *new-start* and *subsequent fill* for opioids will be restricted to the following **maximum daily quantity limits**:

Maximum Quantity Per Day Limit(s) New-Start <i>and</i> Subsequent Fill(s)	
Dosage Form	Allowable Daily Limit
<b>Solid Dosage Forms</b>	8 each
<b>Liquid Dosage Forms</b>	60mL
<b>Transdermal Dosage Forms</b>	1 each
<b>Note:</b> These limits do <b>not</b> apply to buprenorphine products.	

Claims submitted for *subsequent fills* for opioids will be restricted to the following maximum quantities **per fill**:

Maximum Quantity Per Fill Subsequent Fill(s)	
Dosage Form	Allowable Per Fill Limit
<b>Solid</b> Oral – <b>Immediate</b> Release	120 each
Solid Oral – Extended-Release	90 each
Oral Liquids	180mL
Parenterals	100mL
Transdermal Dosage Forms	10 each
<b>Note:</b> These limits do not apply to buprenorphine products.	

## Utilization Management Types

Code	Description
AL	Age limit: age parameters must be met.
LR	Labeler restriction: claim must reflect indicated labeler code for claim to pay.
QL *	Quantity limit: claim will reject if defined quantity limits are exceeded.

\* Quantity limits allow a sufficient supply of medication based upon FDA-approved or medically accepted maximum daily doses and length of therapy of a particular drug to ensure safe and effective medication use while reducing inappropriate/overuse. Quantity limits may be administered as quantity over time or a maximum daily dose. Quantity over time is based on dosing guidelines over a rolling time period. Maximum daily dose (maximum quantity per day) is based on maximum number of units of the drug allowed per day. Refer to the specific manufacturer’s prescribing information for additional details.

To ensure safe and effective medication use, covered products may have quantity limits not listed on the CDL that are reflective of sound clinical practices and FDA-approved dosing. Prescribing above a quantity limit will require prior authorization approval.

In addition, some covered products listed on the CDL have a ‘QL’ code listed in the UM Type column of the CDL table. A “QL” indicates that the medication has a Medi-Cal Rx specific quantity limit as a Code I restriction. Prescribing above a Code I “QL” quantity limit will require a prior authorization approval.

## Amyotrophic Lateral Sclerosis Agent

Drug Name	Dosage	Strength/ Package Size	Billing Unit	UM Type	Code I
<b>Amyotrophic Lateral Sclerosis Agent</b>					
Edaravone *	Oral Suspension (including starter kits)	105 mg/5 ml	ml	LR	* Restricted to NDC labeler code 70510 only.
Riluzole	Tablets	50 mg	ea		

## Anti-Alcoholism

Drug Name	Dosage	Strength/ Package Size	Billing Unit	UM Type	Code I
<b>Anti-Alcoholism</b>					
Acamprosate Calcium	Delayed-release Tablets	333 mg	ea		
Disulfiram	Tablets	0.25 gm 0.5 gm	ea ea		

## Anti-Gout

Drug Name	Dosage	Strength/ Package Size	Billing Unit	UM Type	Code I
<b>Anti-Gout</b>					
Allopurinol	Tablets	100 mg 300 mg	ea ea		
Colchicine	Tablets	0.6 mg	ea		
Probenecid	Tablets	500 mg	ea		

Drug Name	Dosage	Strength/ Package Size	Billing Unit	UM Type	Code I
<b>Anti-Gout</b>					
Probenecid with Colchicine	Tablets		ea		

### Anti-Infectives: Amebicide

Drug Name	Dosage	Strength/ Package Size	Billing Unit	UM Type	Code I
<b>Anti-Infectives: Amebicide</b>					
Albendazole	Tablets	200 mg	ea		
Ivermectin	Tablets	3 mg	ea		
Mebendazole	Tablets, chewable	100 mg	ea		
Pyrantel Pamoate	Liquid		ea		

### Anti-Infectives: Antibiotics

Drug Name	Dosage	Strength/ Package Size	Billing Unit	UM Type	Code I
<b>Anti-Infectives: Antibiotics</b>					
Amikacin Sulfate	Injection, vial	500 mg/2 ml	ml		
		1,000 mg/4 ml	ml		
Amoxicillin/Clavulanate Potassium	Tablets, chewable	125 mg	ea		
		200 mg	ea		
		250 mg	ea		
		400 mg	ea

Potassium Chloride	Injection		ml		

Drug Name	Dosage	Strength/ Package Size	Billing Unit	UM Type	Code I
<b>Metabolic Supplements: Potassium Supplement</b>					
(continued)	Liquid	10 % 20 %	ml ml	QL	<b>Note:</b> Payment for oral liquid limited to a minimum dispensing quantity of 480 ml. See California Code of Regulations (CCR), Title 22, Section 51513(b)(5) regarding exceptions.
	Capsules, long acting	8 meq 10 meq	ea ea		
	Packet	20 meq	ea		
Potassium Citrate	Tablets, extended release	5 meq 10 meq 15 meq	ea ea ea		
Potassium Citrate Monohydrate/Sodium Citrate Dihydrate/Citric Acid Monohydrate	Solution, oral	550 mg/500 mg / 334 mg	ml		
Potassium Phosphate, Monobasic	Tablets	500 mg	ea		
Sodium Phosphate, Dibasic, Monobasic/ Potassium Phosphate Monobasic	Tablets	250 mg	ea		
Sodium Phosphate, Monobasic/Potassium Phosphate Monobasic	Tablets	700-305 mg	ea		

## Metabolic Supplements: Vitamins

Drug Name	Dosage	Strength/ Package Size	Billing Unit	UM Type	Code I
Metabolic Supplements: Vitamins					
Cyanocobalamin (Injectable Only)	Injection	100 mcg/ml 1000 mcg/ml	ml ml		
Folic Acid	Tablets	1mg	ea		
Leucovorin Calcium	Injection	3 mg/ml, 1 ml	ml		
	Powder for injection	50 mg/vial 100 mg/vial	ea ea		
	Tablets	5 mg 10 mg 25 mg	ea ea ea		
Levocarnitine	Tablets	330 mg	ea		
	Liquid, oral	100 mg/ml	ml		
Levocarnitine SF	Liquid, oral	100 mg/ ml	ml		
Pyridoxine	Injection	100 mg/ml, 10 ml 100 mg/ml, 30 ml	ml ml		
Thiamine Hydrochloride	Injection	100 mg/ml	ml		
Vitamins A, D, C, with Sodium Fluoride	Drops	50 ml	ml		Reimbursable for children up to the 5th birthday only. <b>Note:</b> Refer to the Drugs: Contract Drugs List Over-the-Counter Drugs section for more information.
Vitamin D3 (cholecalciferol)	Tablets or Capsules	1,250 mcg (50,000u)	ea		

## Miscellaneous

Drug Name	Dosage	Strength/ Package Size	Billing Unit	UM Type	Code I
<b>Miscellaneous</b>					
Water for Injection, Sterile Water for Injection, Bacteriostatic	Injection	5 ml	ml		
		10 ml	ml		
		20 ml	ml		
		30 ml	ml		
		50 ml	ml		

## Movement Disorder Agents

Drug Name	Dosage	Strength/ Package Size	Billing Unit	UM Type	Code I
<b>Movement Disorder Agents</b>					
Deutetrabenazine *	Tablets	6 mg 9 mg 12 mg	ea ea ea	AL, LR	* Restricted to use in the treatment of chorea associated with Huntington's disease in adults 18 years of age or older. Use in the treatment of tardive dyskinesia requires prior authorization. Also restricted to NDC labeler code 68546.
Tetrabenazine *	Tablets	12.5 mg 25 mg	ea ea		* Restricted to use in the treatment of chorea associated with Huntington's disease.

## Nasal Corticosteroids

Drug Name	Dosage	Strength/ Package Size	Billing Unit	UM Type	Code I
<b>Nasal Corticosteroids</b>					
Beclomethasone Dipropionate	Nasal Spray	42 mcg	gm		
Budesonide	Nasal Spray	32 mcg	ml		
Fluticasone Propionate	Nasal Spray	50 mcg/actuation, 9.9 ml 50 mcg/actuation, 15.8 ml 50 mcg/actuation, 16.0 gm 93 mcg/actuation, 16.0 ml *	ml ml gm ml	AL, LR	* Restricted to the treatment of nasal polyps in patients 18 years of age or older. Also restricted to NDC labeler code 71143 for the 93 mcg/actuation nasal spray only.

## Ophthalmic Preparations: Anti-Glaucoma Agents

Drug Name	Dosage	Strength/ Package Size	Billing Unit	UM Type	Code I
<b>Ophthalmic Preparations: Anti-Glaucoma Agents</b>					
Acetazolamide	Tablets	125 mg 250 mg	ea ea		
	Capsules, sustained release	500 mg	ea		
Apraclonidine *	Ophthalmic solution	0.5 %	ml		
Betaxolol HCL	Ophthalmic Drops	0.25 % 0.5 %	ml		

Drug Name	Dosage	Strength/ Package Size	Billing Unit	UM Type	Code I
<b>Ophthalmic Preparations: Anti-Glaucoma Agents</b>					
Bimatoprost *	Ophthalmic Solution	0.01 %	ml	LR	* Restricted to NDC labeler code 00023 only.
Brimonidine Tartrate	Ophthalmic Solution	0.15 % * 0.1 % * 0.2 %	ml ml ml	LR	* Restricted to NDC labeler code 00023 for the 0.15% and 0.1% ophthalmic solutions only.
Brimonidine Tartrate/ Timolol Maleate *	Ophthalmic Solution	0.2 %/0.5 %	ml	LR	* Restricted to NDC labeler code 00023 only.
Brinzolamide *	Ophthalmic Suspension	1.0 %	ml	LR	* Restricted to NDC labeler code 00078 only.
Brinzolamide/Brimonidine Tartrate *	Ophthalmic Suspension	1 % - 0.2 %	ml	LR	* Restricted to NDC labeler code 00065 only.
Carteolol HCL	Ophthalmic Solution	1 %	ml		
Dorzolamide HCL	Ophthalmic Solution	2 %	ml		
Dorzolamide HCL and Timolol Maleate	Ophthalmic Solution	2 %/0.5 %	ml

## Urine Acid Modifiers

Drug Name	Dosage	Strength/ Package Size	Billing Unit	UM Type	Code I
<b>Urine Acid Modifiers</b>					
Citric Acid/Sodium Citrate	Solution, oral	334 mg-500 mg	ml		

# Intravenous Solutions

## Simple Intravenous Solutions (milliliter)

Simple intravenous (I.V.) solutions are typically used for hydration therapy. Included are commercially available (non-compounded) solutions such as Normal Saline, Dextrose (up to 10% in Water), and Lactated Ringer's Solution; commercially prepared solutions of potassium chloride in such solutions are also included in this definition. Simple intravenous solutions should be billed using the product's National Drug Code (NDC) number.

## Parenteral Nutrition Solutions (TPN or Hyperalimentation) (milliliter) \*

\* Restricted to dispensing within 10 days following inpatient discharge from an acute care hospital, when I.V. therapy with the same product was started before discharge. There is a maximum of 10 days' supply per dispensing within this 10-day period.

(Parenteral nutrition solutions are intravenously or intra-arterially administered nutritional products that are typically suspensions or solutions of amino acids or protein, dextrose, lipids, electrolytes, vitamin &/or mineral supplements, and trace elements.)

Adjuncts to parenteral nutrition are other drugs which are physically mixed into a parenteral nutrition solution at any time prior to administration. Bill for these products as part of the parenteral nutrition billing.

**Note:** Non-compounded products must be billed using the product's NDC number. Compounded solutions must be billed as a compound claim. See the *California Specific Compound Pharmacy Claim Form (30-4)* completion section of the *Medi-Cal Rx Provider Manual* for more information.

## Separately Administered Intravenous Lipids (milliliter) \*

\* Restricted to dispensing within 10 days following inpatient discharge from an acute care hospital, when I.V. therapy with the same product was started before discharge. There is a maximum of 10 days' supply per dispensing within this 10-day period.

Intravenous lipid solutions or suspensions that are administered separately from parenteral nutrition solutions (that is, are not physically mixed into the parenteral nutrition solution container) should be billed using the product's NDC number.

## Intravenous Solutions of Unlisted Antibiotics (milliliter) \*

\* Restricted to dispensing within 10 days following inpatient discharge from an acute care hospital, when I.V. therapy with the same antibiotic was started before discharge. There is a maximum of 10 days' supply per dispensing within the 10-day period.

**Note:** Non-compounded products must be billed using the product's NDC number. Compounded solutions must be billed as a compound claim. See the *California Specific*

Compound Pharmacy Claim Form (30-4) completion section of the *Medi-Cal Rx Provider Manual* for more information.

## Intravenous Solutions of Other Unlisted Drugs (milliliter) \*

\* Restricted to dispensing within 10 days following inpatient discharge from an acute care hospital, when I.V. therapy with the same drug was started before discharge. There is a maximum of 10 days' supply per dispensing within the 10-day period.

**Note:** Non-compounded products must be billed using the product's NDC number. Compounded solutions must be billed as a compound claim. See the *California Specific Compound Pharmacy Claim Form (30-4)* completion section of the *Medi-Cal Rx Provider Manual* for more information.

## Drugs Removed from Contract Drugs List

Drugs listed on the following pages have been deleted from the Contract Drugs List on the date noted to the right of each drug listing. Providers will not be reimbursed for any drugs with a date of service on or after these deletion dates unless they have an approved prior authorization request.

### Continuing Care Exceptions

A patient who is receiving one of the deleted drugs may continue to receive it without prior authorization if the criteria for continuing care is met. Affected drugs are marked with a symbol (§). For information on continuing care, see the *Reimbursement* section in the *Medi-Cal Rx Provider Manual*. Providers can access the Provider Telecommunications Network (PTN) to determine if a patient is being dispensed a drug which is eligible for continuing care. For complete information on the PTN, see the *Provider Telecommunications Network (PTN)* in the Part 1 manual.
