## INTRODUCTION

The Uniform School Accounting System (USAS) is based upon the use of a combination of dimensions (different sets of codes, each of which supplies different elements of information). By selecting the most appropriate code within each required dimension, each financial transaction of the school district will be adequately identified.

The use of certain dimensions to identify each type of financial transaction is the responsibility of management of the school district. The determination should consider the informational needs of the school district, the Ohio Department of Education, and other regulatory agencies. For various reasons, certain financial transactions should be coded in more detail than others.

### Dimensions

The dimensions which are used by the Uniform School Accounting System are:

TRANSACTION INDICATORS were developed for identifying the various types of transactions that occur within a school district. Transaction indicators are assigned by the Auditor of State.

FUNDS are established by constitutional provisions or special statutes to help assure that money is spent for purposes specified in appropriations. Identification of funds usually is made in terms of their legal basis, in terms of objectives to be served, and sometimes in terms of both the source of receipts and type of activities which they finance. Fund numbers are assigned by the Auditor of State.

FUNCTION is a broad area of programs, sub-programs and activities into which expenditures are classified. These classifications assist managers by providing the capability of comparing costs through the setting up of ratios or measures for estimation and projection. For example, the ratio of the number of and cost of instructional staff to supporting services staff is an important measure in management. This dimension is designed to permit four levels of detail concerning each major function. For example; Function 1000 (first level) indicates the district-wide Instruction program, 1200 (second level) indicates Special Instruction, 1230 (third level) indicates Special Instruction-Handicapped, and 1233 (fourth level) indicates Special Instruction-Handicapped-Visually Impaired. Functions are assigned by the Auditor of State. An asterisk (\*) indicates the required level of coding.

OBJECT further identifies expenditures as it defines the goods and services for which the school district pays. The object dimension is very significant in the accounting system. As an example, decision-makers can compare the cost effectiveness ratios of two or more pieces of equipment, or that of a purchased service with the same type of service provided in-house. Objects are assigned by the Auditor of State. An asterisk (\*) indicates the required level of coding.

SPECIAL COST CENTER is a dimension which recognizes that school districts must track costs to satisfy temporary or special requirements. The special cost center is also used for each special project which is supported by restricted monies when more than one project exists within a given fund. Special cost center assignments are to be made at the school district level.

SUBJECT AREA/SUBJECT is dimensions used to identify specific educational costs. Subject, a six (6) character dimension, can be separated into three (3) segments of two (2) characters each. The first two (2) characters, the subject area, are used to identify the basic subject areas. The second set of two (2) characters provides a further breakdown of basic subject areas, while the third set provides a breakdown of the second set.

The detail for the subject dimensions was developed by combining Federal and State Department of Education standards in order to gain as much identification as possible. Normally, not all levels of detail would be required, but in some instances, such as vocational education transactions, all levels of detail would be necessary in order to accumulate costs to satisfy reporting requirements. Subject codes are assigned by the State Department of Education. This dimension is very useful in relating cost to effectiveness.

OPERATIONAL UNIT is the dimension which identifies facilities in the system. An operational unit is identified as a permanent operational entity, such as a school, administration building, warehouse, department, office, etc. This dimension is used to identify costs by unit or facility. Operational unit assignments are made by each school district.

### **Dimensions**

(Continued)

**INSTRUCTIONAL LEVEL** is the dimension used to differentiate between various grades or educational levels within the district. Instructional level codes are assigned by the Auditor of State.

**JOB ASSIGNMENT** is the dimension used to identify staff costs. This dimension has value principally for local officials in personnel administration, staff evaluation, assignments, and recruiting. It may be used also in relating staff cost to the activity to which they are assigned. It has value in manpower supply/demand studies and reports. Job assignment codes should be used to identify what personnel do, and are assigned by each school district.

**RECEIPT** is the dimension by which revenues are identified as they are recorded in various funds by the source from which they were received and by the purpose which they serve, such as restricted or unrestricted revenues. Receipt codes are assigned by the Auditor of State. An asterisk (\*) indicates the required level of coding.

Some school districts may not need or desire to utilize all of the dimensions, either for economy or other reasons. However, decisions regarding the accounts to be or not to be used should be made only after local, state, and federal information requirements have been reviewed.

## Account Number Structure

### Expenditures

Expenditure accounting and reporting is based on a multi-dimensional system. A transaction requires the use of several dimensions, each of which has a separate meaning. No single dimension would provide enough information for accountability and responsive management. Objects of expenditure such as salaries, purchased services, supplies, and materials are meaningless unless they are directly related to at least the fund and function dimensions. By relating a specific expenditure to all dimensions, more complete accountability is realized, and more information is available to management.

The Uniform School Accounting System uses nine dimensions in the following sequence:

Transaction Indicator	xx
Fund	xxx
Function	xxxx
Object	xxx
Special Cost Center	xxxx
Subject Area/Subject	xxxxxx
Operational Unit	xxx
Instructional Level	xx
Job Assignment	xxx

Reporting requirements determine the dimensions (and the level of detail within those dimensions) that must be used. Local needs determine extended usage of the remaining dimensions and associated levels of detail. Because of various requirements unique to each district, minimum detail levels would be difficult to establish in many cases. In general, however, it is felt that the use of fund, function (three (3) levels), object (two (2) levels), special cost center (as applicable), and subject area/subject (as applicable) will satisfy most reporting requirements. It is recognized that current reporting formats may change and new reporting requirements may be developed. The multi-dimensional approach provides a flexible structure which can be expanded or contracted to meet local, state, and federal requirements.

It is also recognized that the sequence of dimensions may not satisfy all users of this system. The sequence which has been developed, however, provides a logical order of information consistent with the overall abilities of school districts on a state-wide basis.

### Account Number Structure (Continued)

#### Revenues

All revenues must be attributed to some fund and received from a specified source. Some revenues must also be related to an applicable program (Special Cost Center or Subject). Revenues which are attributed to applicable programs are generally restricted, in that the monies received can only be spent for restricted purposes.

The requirements of revenue accounting and reporting are not as extensive as expenditure accounting and reporting, in terms of number of dimensions and required detail level within the receipt dimension. The dimensions used for revenue accounting are as follows:

Transaction Indicator	xx
Fund	xxx
Receipt	xxxx
Special Cost Center	xxxx
Subject Area/Subject	xxxxxx
Operational Unit	xxx

The sequence of dimensions follows the same logic applied to the sequencing of expenditure dimensions:

#### Revenues

Transaction Indicator	Fund	Receipt Code	Special Cost Center	
xx	xxx	xxxx	xxxx	
Subject Area Subject	Operational Unit			
xxxxxx	xxx			

#### Transfers

During the development of this system, a determination was made that school districts should be given a vehicle for the accomplishment of fund-to-fund transfers. Logically, separate accountability for fund-to-fund transfers is included in this system. Using this mode provides school districts with an adequate audit trail and clearly separates transfers from all other transactions. The following dimensions are used to provide sufficient information concerning fund-to-fund transfers:

Transaction Indicator	xx
Fund	xxx
Function	xxxx
Special Cost Center	xxxx

**Permanent Funds:** Permanent funds account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs--that is, for the benefit of the school district or its students/citizenry. (Trust funds or contributions that do not support the district's own programs are classified as private purpose trust funds in the fiduciary fund category.)

- 007 Special Trust (The Special Trust Fund may be classified as a special revenue, permanent, or private purpose trust fund. A special revenue fund is used if the amount of the original contribution may be expended in support of the district's programs. If the original contribution is required to be kept intact and the earnings are to support the district's programs, the fund will be classified as a permanent fund. Whether or not the original contribution is required to be kept intact, if the earnings do not support the district's programs, then the fund will be classified as a private purpose trust fund.)

- 027 Workers' Compensation Self-Insurance

### **FIDUCIARY FUND TYPES**

Fiduciary funds account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, or other governmental units. The fiduciary fund category is split into four classifications: pension trusts funds, investment trust funds, private-purpose trust funds and agency funds.

**Pension (and other employee benefit) Trust Funds:** To report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, other postemployment benefit plans, or other employee benefit plans. Since school district employees in Ohio participate in State-wide plans, this fund type will not be used.

**Investment Trust Funds:** To report the external portion of investment pools reported by the sponsoring government. If a school district treasurer serves as the fiscal agent for a separate organization and that organization receives interest revenue, the school district sponsors an investment pool.

**Private-Purpose Trust Funds:** To report all other trust arrangements under which the principal and income benefit individuals, private organizations, or other governments. These trust funds do not support the school district's own programs (see page 21).

- 008 Endowments (The endowment fund may be classified as a permanent or a private purpose trust fund. If the original contribution is required to be kept intact and the earnings are to support the district's programs, the fund will be classified as a permanent fund. If the original contribution, whether required to be kept intact or not, and the earnings do not support the district's programs, then the fund will be classified as a private purpose trust fund.)

- 007 Special Trust

**Agency Funds:** To report resources held by the reporting government in a purely custodial capacity (assets equal liabilities).

- 022 District Agency
- 026 Employee Benefits Agency
- 200 Student Managed Activity

**Subject Area Code Definitions**

Subject Area is defined as the selected components of subject matter used by educational entities throughout Ohio. The Subject Area Code consists of two (2) digits. Each district is to use those codes necessary or applicable. Another dimension, described as "Subject," the next four digits, is provided as a further breakdown to define specific subjects within a particular "Subject Area." Subject codes are assigned by the Department of Education. See EMIS web site for the most current information.

**Job Assignment/Position Definitions**

This dimension groups into general categories the kind of work staff members perform within the school district and divides these categories (or classifications) into activity assignments describing the major activities of each position. The Job Assignment dimension consists of three (3) digits. Each district is to use those codes necessary or applicable. The assignments identify the staff member by his or her duties rather than by his or her job title, since job titles for the same position may differ across the state. Job Assignment numbers are created and defined by ODE. See EMIS web site for the most current information.

### **Transaction Indicator Definitions**

The transaction indicator is a numeric identifier for various school district accounting transactions. Numeric code assignments are made by the Auditor of State. They should not be confused with the transaction indicators used in the Uniform School Accounting System State software.

Use of the transaction indicator will serve to differentiate "real" revenues and expenditures of a school district from the cost of the district's transactions (interfund transfers, "pass-through," etc.) facilitating a clear cut means for determining a district's true cost of operations.

The transaction indicator should be used by all school districts for the purpose of identifying receipts and expenditures by category when financial information is accumulated. Reporting requirements as mandated by the Auditor of State do not require the use of the transaction dimension.

### Transaction Indicator Definitions

#### Code   Definition

00 Opening Balance: This indicator is used initially to set up ledgers and journals. The purpose of this indicator is to identify the posting of opening balances as a separate accounting activity.

01 Appropriations and Estimated Receipts: This indicator identifies the posting of approved appropriations and estimated receipts and is also to be used when an appropriation is amended (intra-fund transfer) or when an estimated receipt is modified.

Use of this indicator will serve to identify these distinct transactions.

02 Encumbrances: This indicator identifies the posting of encumbrances as a separate accounting activity. This indicator is also to be utilized when an encumbrance is modified.

03 Receipts - Operational: This indicator identifies receipts which represent direct income to the district (as opposed to monies which are transferred into a fund, and monies received by the district for the operation of auxiliary programs).

The purpose of this indicator is to provide for the identification of revenues from which the district has to operate.

04 Receipts - Non-operational: This indicator identifies receipts which cannot be classified as operational income to the district, such as revenue for auxiliary services and money borrowed in anticipation of tax collections.

The purpose of this indicator is to identify revenues which do not provide for the direct operation of the school district.

05 Expenditures - Operational: This indicator identifies expenditures which represent costs directly related to the operation of the district. The use of this classification helps to isolate the costs of educating pupils and providing the necessary support.

06 Expenditures - Non-operational: This indicator identifies those expenditures made in conjunction with debt repayment, auxiliary programs, and those inter-district projects which utilize one district as the fiscal officer.

The purpose of this indicator is to help identify expenditures which do not provide for the direct operation of the school district.

07 Interfund Transactions-Out: This indicator isolates interfund Transactions such as transfers or advances out of a fund. By itself, this indicator represents only one half of the total interfund transactions process. The purpose of this indicator is to identify the posting of interfund transactions as unique transactions.

08 Interfund Transactions-In: This indicator isolates interfund Transactions such as transfers or advances into a fund. This indicator, when coupled with the previous indicator, completes the process of identifying interfund transactions as unique and avoids confusing such transactions with receipts and expenditures.

09 NOT USED AT THIS TIME

10 Investments: This indicator isolates those transactions which involve the investment of funds. Essentially, it does not increase or decrease the cash balance of the district.

### **Fund Definitions**

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The transactions of each fund are reflected separately from the activities reported in other funds for the purpose of attaining certain objectives in accordance with legal restrictions or other limitations.

Each school district should establish and maintain those funds required by law (See section 5705.09, Ohio Revised Code) along with any funds necessary for compliance with legal and operating requirements. Only those funds where the authority for the creation/existence is identified as section 5705.12, Revised Code, require written approval from the Auditor of State.

All fund numbers are assigned by the Auditor of State.

### **Fund Definitions**

#### **001 General**

- Authority: Section 5705.09, Revised Code
- Purpose: This is a set of accounts used to show all ordinary operations of a school system, generally all transactions which do not have to be accounted for in another fund.
- Classification: Governmental Fund Type, General Fund

#### **002 Bond Retirement**

- Authority: Section 5705.09, Revised Code
- Purpose: A fund provided for the retirement of serial bonds and short term notes and loans. All revenue derived from general or special levies, either within or exceeding the ten-mill limitation, which is levied for debt charges on bonds, notes, or loans, shall be paid into this fund.
- Classification: Governmental Fund Type, Debt Service Fund

#### **003 Permanent Improvement**

- Authority: Section 5705.10 or 5705.12, Revised Code
- Purpose: A fund provided to account for all transactions related to the acquiring, constructing, or improving of such permanent improvements as are authorized by Chapter 5705, Revised Code.
- Classification: Governmental Fund Type, Capital Projects Fund

#### **004 Building**

- Authority: Section 5705.09, Revised Code
- Purpose: A fund used to account for the receipts and expenditures related to all special bond funds in the district. All proceeds from the sale of bonds, notes, or certificates of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures recorded here represent the costs of acquiring capital facilities including real property.
- Classification: Governmental Fund Type, Capital Projects Fund

#### **005 Replacement**

- Authority: Section 3315.11, Revised Code
- Purpose: A fund provided to account for monies used in the rebuilding, restoration or improvement of property which has been totally or partially destroyed due to any cause. Such property may have become unfit for use necessitating its demolition in whole or in part, and may require repair or restoration before it can again be used.
- Classification: Governmental Fund Type, Capital Projects Fund

#### **007 Special Trust**

Authority: Sections 5705.09, Revised Code

Purpose: The special trust fund may be classified as a special revenue, permanent, or a private purpose trust fund. A special revenue fund should be used if the original contributions can be expended for school district programs. A permanent fund should be used if the only the earnings on the original proceeds can be expended and not the principal. If the original contribution, whether required to be kept intact or not, and the earnings do not support the school district's programs, then the fund will be classified as a private purpose trust fund.

Classification: Governmental Fund Type, Special Revenue Fund  
Governmental Fund Type, Permanent Fund  
Fiduciary Fund Type, Private Purpose Trust Fund

#### **008 Endowment**

Authority: Sections 5705.09, Revised Code

Purpose: The endowment fund may be classified as a permanent or a private purpose trust fund. If the original contribution is required to be kept intact and the earnings are to support the district's programs, the fund will be classified as a permanent fund. If the original contribution, whether required to be kept intact or not, and the earnings do not support the district's programs, then the fund will be classified as a private purpose trust fund

Classification: Governmental Fund Type, Permanent Fund  
Fiduciary Fund Type, Private Purpose Trust Fund

#### **009 Uniform School Supplies**

Authority: Section 3313.811, Revised Code

Purpose: A rotary fund provided to account for the purchase and sale of school supplies as adopted by the board of education for use in the schools of the district. Profit derived from such sale is to be used for school purposes or activities in connection with the school.

Classification: Proprietary Fund Type, Enterprise Fund

### **Function Definitions**

Function describes the activity a person performs or the purpose for which an expenditure is made. Function includes the activities or services which are performed to accomplish the objectives of a school district. The activities of a school district are classified into seven (7) broad areas of functions: Instruction, Supporting Services, Operation of Non-Instructional Services, Extracurricular Activities, Facilities Acquisition and Construction Services, Debt Service, and Other Uses of Funds. Functions are broken down further into sub-functions and service areas which are subsequently subdivided into areas of responsibility.

Each of the major function levels consists of activities which have similar general operational objectives. For example, subfunctions under the Function of Instruction include Regular Instruction, Special Instruction, Vocational, and Adult/Continuing. Service Areas, under the subfunction Regular Instruction, include Elementary Programs, Middle/Junior High Programs, and High School Programs.

It is not the purpose of this document to dictate an organizational structure; it does, however, identify and define the elements (areas of responsibility) which can be arranged into any organizational structure according to needs, philosophy, and tradition of each individual school district.

The function dimension consists of four (4) digits. Each district is to use those codes which are necessary or applicable. Function numbers are assigned by the Auditor of State.

4500   SPORT ORIENTED ACTIVITIES: Athletics and sports are activities, offered to students on a voluntary basis that provide opportunities for developing physical and mental fitness in competitive situations. Students are offered opportunities to develop and improve their knowledge, attitudes, and judgments useful for enjoyment, citizenship, health, safety and lifelong learning. These activities are usually planned for enriching the regular classes and lives of the students. The program codes to be used by Ohio's school districts have been grouped to allow separate recording of boys' and girls' sports, with a separate grouping for sports that may be offered on a mixed basis. Within boys' sports and girls' sports, programs are separated on the basis of "team" and "individual" sports.

The term "team sports" is used here to describe appropriate numbers of athletes competing as a unit during an entire contest. The term "individual sports" is used here to describe sports that, while offered on a team basis, consist primarily of competition between individuals, even between members of the same team. Mixed sports are those offered where boys and girls can compete on the same team on an equal basis.

**Special Cost Centers**

**Definition**

This dimension is to be used to track receipts and expenditures associated with individual activities which are part of a multi-purpose program and are time or event dependent (i.e., will expire after a certain fixed period of time or after something is accomplished).

Examples of such activities would be: (a) a building fund through which twelve (12) buildings are being constructed and (b) a federal program which operates within a school district in the form of six (6) projects.

The assignment of code numbers for this dimension is the responsibility of each school district and should be done in such a manner so as to most efficiently and effectively account for the costs associated with activities as defined above. This dimension is to be used for reporting purposes only if the funding agency (i.e. Federal Projects) requires a separate accounting.

**Subject Area Code Definitions**

Subject Area is defined as the selected components of subject matter used by educational entities throughout Ohio. The Subject Area Code consists of two (2) digits. Each district is to use those codes necessary or applicable. Another dimension, described as "Subject," the next four digits, is provided as a further breakdown to define specific subjects within a particular "Subject Area." Subject codes are assigned by the Department of Education. See EMIS web site for the most current information.

### Operational Unit Definitions

The term Operational Unit is used to denote the location of education activities for organizational purposes. It is the site of a physical plant which houses an organizational unit. In other words, budgets and expenditures may be made for each school or operational unit. Such units are locations of specific schools, of transportation, of administration, of warehouses, etc. The assignment of code numbers for this dimension is the responsibility of the school district. Following are examples of Operational Units and Codes.

<u>CODE</u>	<u>DESCRIPTION</u>
001	Adams Elementary School
002	King Middle School
003	Santa Maria High School
004	Central Administrative Office
005	Main Warehouse
006	Main Bus Garage

Each district is to use those codes necessary or applicable.

**Job Assignment/Position Definitions**

This dimension groups into general categories the kind of work staff members perform within the school district and divides these categories (or classifications) into activity assignments describing the major activities of each position. The Job Assignment dimension consists of three (3) digits. Each district is to use those codes necessary or applicable. The assignments identify the staff member by his or her duties rather than by his or her job title, since job titles for the same position may differ across the state. Job Assignment numbers are created and defined by ODE. See EMIS web site for the most current information.

In the absence of a legal requirement in this account, premium should be credited to the Bond Retirement Fund. Accrued interest results from timing differences between the authorized date for the sale of a bond issue and the actual date of sale.

1911 Premium on the Sale of Bonds and Notes

1912 Premium on the Sale of Refunding Bonds

1913 Accrued Interest on the Sale of Bonds and Notes

1914 Accrued Interest on the Sale of Refunding Bonds

1919 Other Premiums and Accrued Interest on the Sale of Debt

1920 SALE OF BONDS: This account appears in the Building Fund and includes proceeds from the sale of bonds, except that if bonds are sold at a premium, only those proceeds representing the par value of the bonds constitute a revenue of the Building Fund.

1921 Sale of Bonds

1922 Sale of Refunding Bonds

1930 SALE AND LOSS OF ASSETS: Revenue generated from the sale of school property or realized from recoveries for loss of school property.

1931 Sale of Fixed Assets: Revenues from the sale of real property owned by the school district.

1932 Compensation for Loss of Assets: Revenues realized from recoveries for loss of school property, except insurance proceeds.

1933 Sale of Personal Property: Revenues from the sale of non-real personal property owned by the school district.

1934 Insurance Proceeds: Insurance proceeds received as a result of the damage to, theft, or destruction of a permanent improvement.

1950 ADVANCEMENTS FROM STATE SOLVENCY ASSISTANCE FUND: Money advanced from the state under the solvency assistance program created by Section 3316.20, O.R.C.

**2000 RECEIPTS FROM INTERMEDIATE SOURCES**: The acknowledgment of monies obtained by the district from intermediate sources. Grants-in-Aid are contributions made by an intermediate unit to a school district and are not related to specific revenue sources of the intermediate governmental unit; i.e., general sources, or, if related to specific revenue sources of the intermediate governmental unit, are distributed on some flat grant or equalization basis.

2100 UNRESTRICTED GRANTS-IN-AID: Revenue received as grants by the school district which can be used for any legal purpose desired by the district without restriction. Separate accounts may be maintained for general source grants-in-aid which are not related to specific revenue sources of the intermediate governmental unit, and for those assigned to specific sources of revenue as appropriate.

2200 RESTRICTED GRANTS-IN-AID: Revenues received as grants by the school district which must be used for a categorical or specific purpose. If such money is not completely used by the district, it must be returned, usually to the intermediate governmental unit. Separate accounts may be maintained for general source grants-in-aid which are not related to specific revenue sources of the intermediate governmental unit, and for those assigned to specific sources of revenue as appropriate.

2300 REVENUE FOR/OR ON BEHALF OF THE SCHOOL DISTRICT: Payments, including contributions of equipment or supplies, made by an intermediate governmental jurisdiction for the benefit of the district. These include the payment to a pension fund by the intermediate governmental unit on behalf of a district employee for services rendered to the district, and a contribution of fixed assets by an intermediate governmental unit to the district. Separate accounts should be maintained to identify the specific nature of the revenue item. Offsetting charges would be made to the appropriate expenditure account as if the district had expended the funds itself.

**Ohio Auditor of State - GAAP Reporting System**  
**Based on the GASB-34 Reporting Model**

The Auditor of State and the State Software Development Team have developed a web based software application using the reporting model introduced by GASB Statement No. 34 to make the year-end conversion from cash to GAAP quicker and easier. Once access is established through the data site, the application is available to school districts at <https://gasb34sys.auditor.state.oh.us>.

The account structure for the GASB 34 Web-GAAP Software Application consists of three dimensions. The first dimension identifies the financial statement where the account appears. The number and financial statement are as follows:

Dimension Value	Financial Statement
1	Statement of Net Position/Balance Sheet
2	Statement of Activities/Statement of Revenues, Expenditures and Changes in Fund Balances
3	Statement of Revenues, Expenses and Changes in Fund Net Position
4	Statement of Changes in Fiduciary Fund Net Position
6	Statement of Cash Flows

The second dimension identifies the section (i.e., current assets, noncurrent assets or general revenues, program revenues, etc.) of the financial statement where the account appears. This dimension value and the associated section change with each financial statement. The third dimension is the detail account number which is assigned by the system.

A list of the basic accounts are as follows:

<u>GAAP Account Structure</u>	
Account Code	Account Name
1.XX.XXX	Balance Sheet/Statement of Net Position
1.01.XXX	Assets
1.01.1XX	Current Assets

## Appendix B

# Summary of the Changes since the Spring 2013 USAS Manual

Last updated 2023

**Summary of Changes since Spring 2013**

**Funds**

The following funds have been added:

466     **Straight A Fund** This fund is to account for grant monies received through the Straight A Program. These grant monies are restricted for projects that will provide for advancement in student achievement, achieve spending reductions in the five-year forecast or allow a greater share of resources to be utilized in the classroom. This fund should be classified as either a special revenue fund or a capital projects fund, depending on the nature of the award. This fund does not need Auditor of State approval to be established.

467     **Student Wellness and Success Fund** This fund is to account for state monies distributed in accordance with ORC section 3317.26, that are restricted for specific purposes related to student wellness including mental health services, services for homeless youth, services for child welfare involved youth, community liaisons, physical health care services, mentoring programs, family engagement and support services, city connects programming, professional development regarding the provision of trauma informed care, and professional development regarding cultural competence. This fund should be classified as a special revenue fund. This fund does not need Auditor of State approval to be established.

495     **Career Technical Construction Fund**

Authority: House Bill 33 - this fund does not need Auditor of State approval to be established.

Purpose:                     A fund to account for grant monies received through the Ohio Facilities Construction Commission (OFCC) to assist with facilities construction projects that support establishing or expanding career-technical education programs under OFCC's Career Technical Construction Program. This fund does not need Auditor of State approval to be established.

Classification: Governmental Fund Type, Capital Projects Fund

507     **Elementary and Secondary School Emergency Relief (ESSER) Fund**

Authority:                     Catalog of Federal Domestic Assistance #84.425D

Purpose:                     To provide emergency relief grants to school districts related to the COVID-19 pandemic. Restrictions include, but are not limited to, providing for coordination of preparedness and response efforts, training and professional development of staff, planning and coordination during long-term closure, and purchasing technology for students. This fund does not need Auditor of State approval to be established.

Classification: Governmental Fund Type, Special Revenue Fund

### 508 **Governor's Emergency Education Relief (GEER) Fund**

Authority: Catalog of Federal Domestic Assistance #84.425C

Purpose: To provide emergency support through grants to schools that have been most significantly impacted by coronavirus. These monies are restricted to support the school to continue to provide educational services to the students. This fund does not need Auditor of State approval to be established.

Classification: Governmental Fund Type, Special Revenue Fund

### 509 **21<sup>st</sup> Century Learning Centers**

Authority: Catalog of Federal Domestic Assistance #84.287

Purpose: This program supports the creation of community learning centers that provide academic enrichment opportunities during non-school hours for children, particularly students who attend high-poverty and low-performing schools. The program helps students meet state and local student standards in core academic subjects, such as reading and math; offers students a broad array of enrichment activities that can complement their regular academic programs; and offers literacy and other educational services to the families of participating children.

Classification: Governmental Fund Type, Special Revenue Fund

### 510 **Coronavirus Relief Fund (CRF)**

Authority: Catalog of Federal Domestic Assistance #21.019

Purpose: To cover costs that are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19). This fund does not need Auditor of State approval to be established.

Classification: Governmental Fund Type, Special Revenue Fund
