#### MEDICAL ORG GUIDELINES

#### CDC

- Interim Considerations for COVID-19 Vaccination of Healthcare Personnel and Long-Term Care Facility Residents
- Evaluation & Management
  Considerations for Neonates At Risk for
  COVID-19
- <u>Pregnancy, Breastfeeding, and Caring for</u> <u>Newborns</u>
- <u>Contraindications to Breastfeeding or</u> <u>Feeding Expressed Breast Milk to Infants</u>
- <u>Covid-19 Vaccines while Pregnant or</u> <u>Breastfeeding</u>
- ACOG • <u>Coronavirus, Pregnancy, and</u>

Summary of Guidelines regarding mother-infant separation and breastfeeding with COVID or PUI patients:

- WHO, AAFP, and ABM recommend continuing standard practices of skin-to-skin and direct breastfeeding with first hour latch, utilizing appropriate mask and hand hygiene, unless mother or infant are too un-well or unstable (March 2020).
- AAP now recommends in-room separation of mother and infant, allows for direct contact and direct breastfeeding with mask/hand hygiene (July 23, 2020)
- CDC recommends shared-decision making processes (June 2020). ACOG promotes informed/educated choice utilizing shareddecision-making between providers and patients (June 2020).

- **Breastfeeding: A Message for Patients**
- <u>Supporting Obstetrician-Gynecologists</u> and Their Patients During COVID-19
- <u>ACOG and SMFM Recommend COVID-19</u> <u>Vaccination for Pregnant Individuals</u>

# WHO

- <u>Breastfeeding and COVID-19 For</u> <u>Health Care Workers</u>
- <u>Q&A: Pregnancy, childbirth and</u> <u>COVID-19</u>
