FISHING PHOTO CONTEST WINNERS 32

Maps for this publication were created by the Department of Technology & Information. Fish illustrations were drawn by Duane Raver. The cover photo is from photo contest winner Courtney Hopkins. A special thanks to the Delaware anglers, our friends at NOAA-NMFS, the ASMFC, and DNREC staff who donated pictures throughout this guide.

FROM THE DIRECTOR OF THE DIVISION OF FISH & WILDLIFE

Fishing, like life, is about people, places and experiences. Our fishing photo contest theme *Fish with a Buddy* encouraged people to enjoy a fishing experience together, whether with a family member or friend. The cover of this fishing guide features the contest-winning photo of two

young buddies sharing a fishing experience at the beach that will hopefully become a lifetime passion. I encourage you to check out the other photo contest winners featuring buddies fishing together on page 32 of this guide, and to make your own fishing experiences and memories with a buddy.

The Division of Fish & Wildlife provides numerous and diverse places for you to fish, ranging from tranquil ponds and rivers to the

expansive Delaware Bay to the vast Atlantic Ocean. The numerous public fishing and boating access areas featured on pages 14, 15 and 17 of this guide provide you access to the shoreline or to get you on the water. We scientifically manage fish populations to help ensure diverse and quality fishing.

The Division and its dedicated and passionate staff are committed to providing you and your buddies quality fishing opportunities and experiences, now and for the future, as *We Bring You Delaware's Great Outdoors through Science and Service*.

As an avid Delaware angler for many years, I hope to see you on the water. "Tight lines" this fishing season...

State and Federal law prohibit discrimination on the basis of race, color, national origin, age, sex, religion and/or disability. Complaints or inquiries should be directed to: Personnel Office, Department of Natural Resources and Environmental Control, 89 Kings Highway, Dover, DE 19901.

This summary is for the convenience of the sportsman and is not intended to cover all fishing laws and regulations. For specific provisions, reference should be made to Title 7, Delaware Code and Delaware Administrative Code. When federal and state laws conflict, the law which is more restrictive governs.

FOR THE ACTUAL WORDING OF THE FISHERIES STATUTES AND REGULATIONS, AS WELL AS A WIDE VARIETY OF OTHER INFORMATION, VISIT THE DIVISION'S WEBSITE at www.fw.delaware.gov

About This Guide

This high-quality guide is offered to you by the Delaware Department of Natural Resources and Environmental Control through its unique partnership with J.F. Griffin Publishing, LLC.

The revenue generated through ad sales significantly lowers production costs and generates savings. These savings translate into additional funds for other important agency programs.

**Anxiety? Panic Attacks? Depression? “Brain Fog”?
 Personality Changes? Changes in Schoolwork?
 Memory Issues? It could be tick-borne diseases.**

Lyme disease and other tick-borne illnesses, such as Bartonella and Babesia, can cause neurologic and psychiatric complications that are directly related to the infections. Patients with tick-borne diseases can have symptoms which mimic every known psychiatric syndrome. A lack of proper diagnosis can further lead to emotional challenges and a lack of support from family and friends. Most common symptoms include “brain fog”, anxiety, panic attacks, feelings of not being “real”, irritability, sleep disorders, mood swings, obsessive compulsive disorders, and anger issues. A well-designed, controlled study of children who received antibiotic therapy for Lyme disease found continued symptoms in some kids, including headaches, brain fog, short-term memory loss, word-finding problems, distractibility, schoolwork deterioration, irritability/depression, insomnia, and sensitivity to sound and/or light. With the high prevalence of tick-borne diseases in the Mid-Atlantic Region, these infections should be considered as a possible cause of mental health issues and the onset of cognitive disabilities, especially in those with unexplained changes in mental status and in those who have had a prior diagnosis of Lyme disease.

2022 LICENSE FEES

2022 LICENSE / STAMP FEES

LICENSE CATEGORY	RESIDENT	NON-RESIDENT
General Fishing License	\$8.50	\$20.00
7-day Tourist Fishing	NA	\$12.50
*Boat Fishing License 20 ft or less (optional)	\$40.00	\$40.00
*Boat Fishing License more than 20 ft (optional)	\$50.00	\$50.00
Head Boat License	\$300.00	\$600.00
Charter Boat License	\$150.00	\$300.00
Guide/Fishing	\$100.00	\$300.00
TROUT STAMP	RESIDENT	NON-RESIDENT
Young Angler (12-15)	\$2.10	\$6.20
Adult (16-64)	\$4.20	

*** Boat Fishing License** - The optional boat fishing license for a recreational angler covers the holder of the license, and all occupants in the boat. A resident who buys a boat fishing license also will be given a regular fishing license to use anywhere in the state. Non-resident holders of boat fishing licenses will need to purchase a non-resident fishing license to fish elsewhere in Delaware when not aboard their vessels. A Delaware FIN is required of all anglers age 16 years or older on the vessel.

Charter/Head Boat Licenses - Both the charter and head boat fishing licenses will cover the license holder as well as all persons fishing from the licensed vessel. Individuals fishing only from a charter boat or head boat do not need to have a separate FIN number. Federal law requires all captains to maintain a log aboard the vessel for federal survey purposes.

Non-resident - Any non-resident who is 16 years of age or older except persons covered by one of the exemptions is required to have a license to fish, clam, or crab in the waters of the State of Delaware. Non-residents may purchase a 7-consecutive day tourist fishing license.

BEFORE YOU FISH

BEFORE YOU GO FISHING, CRABBING, OR CLAMMING IN DELAWARE YOU MUST:

- Purchase a 2022 Delaware fishing license and keep it with you while fishing (page 5).
- Get a free 2022 FIN number (automatically generated with the purchase of an individual license) and keep it with you while fishing (page 5).
- If fishing for freshwater trout get a 2022 trout stamp and affix it to your license (page 8).

WHILE FISHING, CRABBING, OR CLAMMING IN DELAWARE, YOU MUST:

- Abide by size and possession limits.
- Be aware of area and seasonal closures.

PLEASE BE AWARE THAT:

- Delaware does not have fishing license reciprocity with other states. You must have a Delaware fishing license to fish, crab or clam in Delaware.
- Delaware does not recognize Federal FIN numbers or FIN numbers from other states. You must have a free Delaware FIN (page 5).
- You must have a New Jersey FIN number if you fish in New Jersey waters of Delaware Bay.

WHAT'S NEW FOR 2022

- A new law modernizes fishing licenses and trout stamps to allow digital formats. Anglers may now possess their Delaware fishing license and trout stamp in either digital or paper form when fishing in Delaware waters. To purchase a Delaware fishing license or trout stamp, go to <https://de.gov/DigitalDNREC> or see the Digital DNREC box on page 5.
- In 2021, five individuals met the qualifications for "Elite" anglers and are named on page 26. For more information on how to qualify, see page 24. Give it a shot in 2022!
- New Cobia, Blueline Tilefish and Golden Tilefish season, size and daily limit regulations are in effect in 2022, see page 12.
- A new regulation requiring the use of non-offset circle hooks when fishing recreationally with bait for Striped Bass, and a new definition of "bait" are in effect in 2022. Bait is defined as any marine or aquatic organism, live or dead, whole or parts thereof.
- New regulations will likely be necessary for tidal waters species in 2022. The electronic version of Delaware's fishing guide, available at www.fw.delaware.gov, will be updated to reflect such regulatory changes as they occur.
- Anglers and boaters should be aware that shellfish aquaculture leasing is underway in Delaware's Inland Bays. For more information on lease marking, see page 16.

2022 FREE FISHING DAYS!

In celebration of National Fishing and Boating Week, June 4-12, 2022, the Division has designated June 4 and 5 as free fishing days when anyone may fish in Delaware's waters without a fishing license. Anglers age 16 and older must still obtain a free FIN number to participate in the free fishing days.

PUBLIC PONDS

A guide to public ponds, available online, is updated annually with the latest fisheries data. Each pond's information includes: fish populations, vegetation conditions, special regulations and facilities, and a contour map of the pond.

This information is available at: <http://de.gov/pondbook>.

FISH FACTS

Hey, having trouble identifying your catch? Want to know a good bait to use to catch a certain species? Need to find out what the current state record is for a species? Check out our "Fish Facts" page with loads of helpful information on over 180 species of fish and shellfish you can catch in Delaware waters. Just type fishspecies.dnrec.delaware.gov in any browser and click on a category. Many folks keep it bookmarked on their smartphone for quick access. Enjoy!

FISHING LICENSE INFORMATION

FISHING LICENSE REQUIREMENTS AND FIN NUMBER

A general fishing license is required for fishing, crabbing, or clamming in tidal and non-tidal waters throughout the State of Delaware (see Fishing License Exemptions page 6). A fishing license may be obtained at DNREC headquarters (89 Kings Highway, Dover), from over 40 licensing agents located throughout the state, or online by accessing www.fw.delaware.gov and following the licensing link. A fishing license is good through December 31 for the calendar year in which it was issued.

In addition to the general fishing license, all anglers (resident and non-resident) age 16 or older must obtain a free Delaware Fisherman Information Network (FIN) number each year before fishing in tidal or non-tidal waters of Delaware. This includes those anglers exempt from obtaining a general fishing license. See these exemptions on page 6. A FIN number is automatically generated and issued with the purchase of an INDIVIDUAL fishing license. Non-residents who do not have an individual fishing license AND those exempt from the license requirement must obtain a FIN number before fishing.

There are three ways to obtain a FIN number: 1) Visit Digital DNREC at <http://de.gov/erpermitting>, create an account and obtain a free FIN number; 2) Use the "Quick FIN" link at the bottom of the Digital DNREC sign-in page. You do not need to create an account

to obtain a FIN using Quick FIN; or 3) Visit one of more 40 licensing agents throughout the state to obtain a free FIN number. Toll-free phone numbers are no longer available for obtaining FIN numbers. The FIN number is mandatory and failure to provide a valid FIN number to an enforcement agent will be treated the same as a failure to have a valid fishing license. The number that you are issued will be valid through December 31 for the calendar year in which it was issued. A FIN number is not needed if you only crab or clam.

The National Marine Fisheries Service (NMFS) will use the data obtained from the FIN program to identify anglers for survey purposes. The program allows for better estimates of recreational landings, an important component of fisheries management.

All funds derived from the issuance of fishing licenses are dedicated to a special account for the purpose of matching and securing federal money allotted to Delaware under the provisions of the Federal Aid in Sportfish Restoration Act and cannot be diverted to other purposes. Together, these funds support projects having as their purpose the restoration, conservation, management and enhancement of sportfish, and the provision for public use and benefits from these resources (page 6).

Recreational Fishing Licenses Available Online Now.

ONE STOP ONLINE, EASIER AND FASTER
Just go to <https://de.gov/DigitalDNREC>

Are you exempt from purchasing a Fishing License?

Anglers age 16 or older and not required to purchase a Fishing License must still obtain a **Free FIN Number**.

Use **one** of these 3 options:

1. Have a Digital DNREC account?
Log into Digital DNREC and use your existing account to obtain a Free FIN Number.

2. No Account? No problem!

Click on the blue "Quick FIN" box at the bottom of the Digital DNREC sign-in page to obtain a Free FIN Number.

3. Visit a Licensing Agent.

Obtain a Free FIN Number from one of more than 40 Licensing Agents statewide.

Note: FIN Numbers are no longer available using the toll-free numbers.

FISHING LICENSE INFORMATION

FISHING LICENSE EXEMPTIONS AND EXCEPTIONS

Exempt anglers are required to get a FIN number (page 5), unless otherwise noted below.

The following are exemptions or exceptions to the license provisions:

- **Surf Fishing Permit** - Residents and non-residents are exempt from fishing license requirements if they are the operator of a vehicle with a valid Delaware surf fishing vehicle permit when that vehicle is located on a designated Delaware State Park beach. Other occupants of that vehicle are required to have a fishing license if they are fishing.
- **Seniors** - Residents of the State of Delaware age 65 years and older are exempt from fishing license requirements, but must have proof of age and residency.
- **Children** - Children under the age of 16 are exempt from the license and FIN requirement.
- **Other Exemptions** - Anyone qualifying for the following exemptions should contact the Division at (302) 739-9918.
 - » Any resident who owns or lives on a farm in this state containing 20 or more acres and the members of his or her immediate family who reside on the farm may fish on that farm without a license.

- » A member of the armed forces who is a patient in a military hospital and submits a written statement signed by the patient's commanding officer certifying the nature of the disability and place of station.
- » Persons who are patients in any Veterans Administration facility in this State, or in any public hospital or sanitarium for the treatment of tuberculosis, or a patient in a rehabilitation hospital under the State Department of Health, provided such person carries identification which verifies his or her status as such a patient, shall not be required to purchase a fishing license. Forms shall be supplied to such persons when they apply for their licenses to be used for the identification purposes.
- » Persons who have been honorably discharged from the armed forces of the United States and certified by the Veterans Administration as having at least a 60% service-connected disability.
- » Any Delaware resident that is a patient in a rehabilitation hospital under the Department of Health and Social Services. Any Delaware resident who is legally blind.
- » Any person who fishes in a fee-fishing facility, registered as such with the Department of Agriculture.
- » Any resident who has served honorably for 90 or more consecutive days on active duty in the Armed Forces of the United States, including service as a member of the Delaware National Guard, in military actions in Southwest Asia associated with Operation Iraqi Freedom or Operation Enduring Freedom may, for the first 12 months following the date the resident was honorably discharged or removed from active status, be issued a license to fish in this State without charge.
- » Any member of the US armed forces, including any reserve component, serving on full time active duty in Delaware while not deployed or on temporary duty, and any member of Delaware's National Guard, shall be eligible for a resident fishing license. Qualifying persons should contact the Division at (302) 739-9918.

DUPLICATE LICENSES

Duplicate licenses may be printed free of charge by logging into your Digital DNREC Account at: <https://de.gov/DigitalDNREC>. If you do not have a Digital DNREC Account or need more information, please call the Recreational Licensing Office at (302) 739-9918 or email dfwrecl@delaware.gov.

FISHING LICENSE DOLLARS

WHERE DO YOUR FISHING LICENSE DOLLARS GO?

Your license and trout stamp purchases allow the Division to secure additional federal Sport Fish Restoration funds used for fisheries research, maintenance and construction of fishing areas, and aquatic education. Please note that anglers exempted from purchasing a fishing license may voluntarily purchase a license and/or trout stamp to support these activities. The Division is grateful to anglers that contribute to our mission in this way. For more information, please visit us at www.fw.delaware.gov/fisheries.

GENERAL NON-TIDAL FISHING REGULATIONS

These are some of the regulations and state statutes that all anglers should be familiar with. Most have been edited to make them easier to read and understand. **This is not a complete list and it is up to the angler to be familiar with all of the laws and regulations currently existing or newly adopted.** For a complete listing, refer to the Department of Natural Resources and Environmental Control, Division of Fish and Wildlife website or request a copy from the Director's office.

Unless otherwise authorized, it shall be illegal for any person to fish for any freshwater fish in the non-tidal waters of this State with any fishing equipment or by any method, unless it is provided for in the following subdivisions:

A hook and line may be used, with each line to have no more than 3 hooks or 3 separate lures with hooks.

Unless a person is fishing through the ice, the number of hooks and lines that any one person is permitted to use to fish for any freshwater fish in the non-tidal waters of the State shall be no more than 2.

A person may use a dip net to aid in landing any freshwater finfish taken or caught by hook and line in the non-tidal or fresh waters of the State.

Carp and snakehead fish may be taken and/or fished for by using a bow and arrow and/or spear, unless said equipment or method is otherwise restricted by any Department regulation or local ordinance. At this time, no carp or snakehead fish may be taken from State Park ponds or Becks Pond using bow and arrow.

It is illegal to sell, trade, or barter any finfish taken from the non-tidal waters of this State, unless authorized to do so in a permit issued by the Director.

It is illegal to take shad, except by hook and line, and no more than two (2) lures attached. Each lure may have no more than one (1) single pointed hook.

It is illegal to knowingly snag fish in non-tidal waters with any hook (single, double or treble) or otherwise catch or attempt to snag or catch any game fish by hooking the fish in any part of the body other than in the mouth.

It shall be unlawful for any person to fish within ten (10) feet of an entrance or exit of a fish ladder or to remove fish from any fish ladder between March 15 and May 30.

CLOSURE OF DEPARTMENT PONDS DURING DRAW-DOWNS

It shall be unlawful for any person to fish in any pond or lake administered by the Department when the water level is lowered for any purpose provided it is duly posted with signs by the Department that state it is closed to fishing.

SPEED AND WAKE OF MOTORBOATS ON DIVISION PONDS

It shall be unlawful for any person to operate a motorized vessel, except at a **slow-no-wake speed**, on any pond or lake administered by the Division.

CLEAN WATER

How's My Waterway

How's My Waterway (www.epa.gov/mywaterway) helps users quickly find information on the condition of their local waters using a smart phone, tablet, or desktop computer. This tool provides results within seconds using EPA's water quality assessment data. Check out the condition of your local waterbody today!

Photo shows an algae bloom.

CATCH AND RELEASE

Many anglers practice catch and release fishing. This behavior, popularized by bass anglers, promotes the release of fish by anglers so the fish can be caught again. A long-term bass tagging study in Delaware has demonstrated many tagged fish are caught, released, and caught again — a few as many as four times. The Division strongly encourages catch and release fishing to maximize angling success — unless a fish population is known to be overcrowded.

Onthewater.com

NEW LICENSE PLATES

Purchase a Delaware recreational fishing specialty motor vehicle license plate to show your passion and support for sport fishing in Delaware. There is a one-time purchase price of \$95, \$80 of which will be used to promote recreational fishing in Delaware and to support fisheries research, habitat restoration, and fish stocking. The new fishing plates can be ordered by mail. An application and ordering instructions are available online at <https://tinyurl.com/DEFishplate>.

INVASIVE SPECIES ALERT

It is unlawful for any person to transport, purchase, possess, or sell walking catfish (*Clarius batrachus*) or the white amur or grass carp (*Ctenopharyngodon idella*) or live northern snakehead fish (*Channa argus*) or blotched snakehead fish (*Channa maculata*) or blue catfish (*Ictalurus furcatus*) or flathead catfish (*Pylodictis olivaris*) without the written permission of the Director.

FRESHWATER TROUT FISHING

Delaware's freshwater trout program is a self-supporting put-and-take fishery in selected New Castle County streams and Kent and Sussex County ponds. Revenue generated from the sales of trout stamps is used to purchase rainbow, brook and/or brown trout for stocking. Summer water temperatures limit trout survival and reproduction in Delaware waters, so stocked fish are meant to be taken, but may be released at the angler's discretion.

Season / Hours - The 2022 freshwater trout season at Tidbury (Kent County) and Newton (Sussex County) Ponds opens for only youth anglers under age 16 at 7:00 a.m. on Saturday March 5, 2022 and for all anglers at 7:00 a.m. on Sunday, March 6, 2022. The 2022 freshwater trout season on the designated trout streams opens for only youth anglers under age 16 at 7:00 a.m. on Saturday April 2, 2022 and for all anglers at 7:00 a.m. on Sunday, April 3, 2022. It is unlawful to fish for trout in designated trout streams or

designated trout ponds between one-half hour after sunset and one-half hour before sunrise.

Trout Stamps - A trout stamp is required to fish in a designated **trout stream** from the first Saturday in April through June 30 and from the first Saturday in October through November 30 unless exempted by law. A trout stamp is also required to fish **Tidbury Pond** in Kent County and **Newton Pond** in Sussex County from the first Saturday in March through April 1. Stamps are available online in electronic form, or a printed stamp may be obtained at DNREC Headquarters (89 Kings Hwy, Dover). All stamps must be signed across the face to legally trout fish. Purchasers of electronically issued stamps may obtain an original printed stamp by calling 302-739-9918. A stamp will be mailed to you after December 31, 2022. Anglers may possess their trout stamp in either digital or paper form when fishing in designated trout streams and ponds.

SPECIAL FLY FISHING ONLY SECTION (RESTRICTED TROUT STREAM)

White Clay Creek from a point 25 yards above Thompson Bridge at Chambers Rock Road to the Pennsylvania state line is designated as a fly-fishing only trout stream (restricted trout water).

It is unlawful to use any metallic, plastic or rubber spinners, spoons, lures, plugs or natural bait or to use more than two (2) flies on a line at any one time.

It is unlawful to possess more than four (4) trout within 50 feet of a fly fishing only section (restricted trout water). Anglers may catch and release trout on these waters as long as the four (4) trout possession limit is not exceeded. All trout released must be returned to the water as quickly as possible with the least possible injury. These restrictions are in effect year round.

POSSESSION LIMITS OF TROUT

It shall be unlawful for any person to possess more than six (6) trout in any one day; except, it shall be unlawful to possess more than four (4) trout in or within 50 feet of any fly-fishing only waters (restricted trout streams).

COLLECTING STAMPS

If you are interested in collecting trout or waterfowl stamps, please contact the Division at (302) 739-9918 or visit our website at: <http://de.gov/troutstamp>.

FRESHWATER TROUT FISHING

2022 TENTATIVE TROUT STOCKING SCHEDULE

WATER	PRIOR TO SEASON*	MARCH 17	APRIL 4	APRIL 7	APRIL 11	APRIL 14	APRIL 21	APRIL 28	MID OCTOBER
STREAMS (SEASON OPENS 7:00 A.M., APRIL 2 – YOUTH ONLY)									
Beaver Run									
Christina Creek									
Mill Creek									
Pike Creek									
Red Clay Creek									
White Clay Creek									
Wilson Run									
PONDS (SEASON OPENS 7:00 A.M., MARCH 5 – YOUTH ONLY)									
Tidbury									
Newton									

* Prior to season: stocking includes trophy-sized rainbow trout (14 inches or greater) at all locations
 ** April 14 and April 28: Brown trout 11 inches or greater will be stocked at locations listed
 *** April 21: Stocking of 12-13 inch and trophy-sized rainbows to prepare for the annual anglers fishing derby for anglers with special needs and senior citizens on April 23, 2022 in Wilson Run at Brandywine State Park. For details on the fishing derby, please call the park office at 302-577-3534.

It shall be unlawful for any person to stock any species of fish into the non-tidal public waters of this State without the written permission of the Director. This regulation does not prohibit the stocking of private impoundments.

PERSONAL FLOTATION DEVICES (PFDs)

A PFD must be worn by a child 12 years old or under while aboard a vessel which is underway. All PWC riders and anyone being towed must wear a PFD. Current regulations require all vessels to carry a wearable PFD for each person onboard. A throwable PFD is also required on vessels, excluding those less than 16'. The Office of Boating Safety & Education suggests all vessels carry a throwable with a line attached for casting, and that you wear your life jacket as it is meant to be worn, and at all times.

ALCOHOL

Just as drinking and driving don't mix, drinking and boating are a dangerous combination. Sun, glare from the water, constant boat motion and boat vibration all contribute to boater fatigue. Add alcohol consumption and those problems are compounded. Additionally, alcohol affects balance and muscle coordination, causes tunnel vision and slows reaction time. It also affects reasoning and increases the tendency to take risks. Operating a boat under the influence of alcohol or drugs is against the law and could result in fines up to \$1,000 for first offense and/or up to 60 days in jail. A blood alcohol content of 0.08 or greater constitutes being under the influence.

REGISTRATION, NUMBERING AND MARKING OF UNDOCUMENTED VESSELS

Vessels equipped with any type of motor must be registered in Delaware if principally used (a period of more than 60 days) in this State. The registration card or valid temporary registration card must be on board when the boat is in use. For further information on boating registration call The Office of Boat Registration at: (302) 739-9916 OR visit <https://de.gov/boatreg>

SAFE BOATING SPEED

The speed of all vessels on Delaware waters must be slow enough to prevent any wake of appreciable height when the vessels are within 100 feet of: "Slow-No-Wake" speed areas, docks, launching ramps, marked swimming areas, swimmers, anchored, moored, or drifting vessels.

DELAWARE SMALL BOAT EQUIPMENT REQUIREMENTS

EQUIPMENT	CLASS A (LESS THAN 16 FEET)	CLASS 1 (16 FEET TO LESS THAN 26 FEET)
1. Annual registration fee	\$20.00	\$40.00
2. Decals & boat number	Display properly on bow	Display properly on bow
3. Personal flotation Device (PFD)*Must be serviceable (see below)	One approved wearable PFD for each person on board	One approved wearable PFD for each person on board plus one throwable PFD.
4. Whistle	One hand, mouth or power operated, and audible at least one half (1/2) mile	One hand, mouth or power operated, and audible at least one half (1/2) mile
5. Fire Extinguisher Portable	One type B-1, if carrying passengers for hire, or if boat construction will permit entrapment of flammable vapors.	One type B-1, if carrying passengers for hire, or if boat construction will permit entrapment of flammable vapors.
6. Ventilation At least two ventilator ducts fitted with cowls or equivalent, if boat construction will permit entrapment of flammable vapors.		
7. Atlantic Ocean, Delaware Bay and Delaware River South of Artificial Island—U.S. Coast Guard regulations require all vessels to carry day and night distress signaling devices. Outboard motorboats less than 16' in length are exempt from daytime requirements.		
* Test for serviceability of PFD—All PFD's must be readily accessible, in serviceable condition, legibly marked with approval number of the U.S. Coast Guard and be of appropriate size. PFD's must have flotation material without rot or being waterlogged, un torn or damaged coverings and straps in good condition.		

TAKE A BOATING EDUCATION COURSE

Those persons born on or after **January 1, 1978** must take an approved boating education course before operating a motorized vessel, to include personal watercraft (PWC). Contact the Office of Boating Safety & Education for more information on taking a classroom course at: (302) 739-9915 OR find their online course options by visiting <http://de.gov/boatsafety>

Delaware Fish & Wildlife Natural Resources Police are responsible for enforcing all of the safe boating laws in Delaware. To report violations and accidents call their 24 hour dispatch line at: (302) 739-4580.

2022 SEASONS, SIZE AND CREEL LIMITS

NON-TIDAL WATERS				
SPECIES		OPEN SEASON	MINIMUM SIZE	DAILY LIMIT
	Largemouth bass	All year	12 inches; except 15 inches in Becks Pond	6; except 2 from Becks Pond
	Smallmouth bass	All year	None between & including 12 - 17 inches	6 (no more than 1 > 17 inches)
	Striped bass hybrid	All year	15 inches	2
	Panfish (white perch, yellow perch, crappie, bluegill & pumpkinseed)	All year	No Size Limit	50 (no more than 25 of one species)
	Trout (special rules apply, pages 8 - 10)	Streams open 1st Sat. in April Ponds open 1st Sat. in March	No Size Limit	6 (4 in fly-fishing only waters)
TIDAL WATERS				
SPECIES		OPEN SEASON	MINIMUM SIZE	DAILY LIMIT
	American eel	All year	9 inches	25
	American & hickory shad	Closed Nanticoke R. & its tribs.; Open all year elsewhere	No Size Limit	2 American shad 10 Hickory shad
	Atlantic croaker	All year	8 inches	No Daily Limit
	Atlantic sturgeon	Endangered - no harvest permitted (see also page 25)		
	Black drum	All year	16 inches	3
	Black sea bass	May 15 - Dec. 11	13 inches (excluding caudal filament)	15
	Bluefish	All year	No Size Limit	3 - fishing from a private vessel or shore 5 - fishing from a charter boat or headboat
	Catfish (any species)	All year	No Size Limit	No Daily Limit
	Cobia	All year	37 inches	1 per angler or 1 per vessel
	Red drum	All year	20 - 27 inches may be retained	5
	River herring (alewife & blueback)	Closed - no harvest permitted		
	Scup	All year	9 inches	50
	Spanish mackerel	All year	14 inches	15
	Spotted seatrout	All year	12 inches	No Daily Limit
	Striped bass	All year, except catch & release only on spawning grounds Apr 1 - May 31	28 < 35 inches; except 20 - 25 inches only - Jul 1 - Aug 31 in the DE Bay, River and their tributaries.	1, except catch & release only on spawning grounds April 1 - May 31
	Summer flounder	All year	16 inches	4
	Tautog	Jan. 1 - May 15	16 inches	4
		July 1 - Dec. 31		4
	Tilefish (Blueline)	May 1 - Oct. 31	No Size Limit	3 - person from private vessel 5 - person from US Coast Guard uninspected for-hire vessel 7 - person from US Coast Guard inspected for-hire vessel
	Tilefish (Golden)	All year	No Size Limit	8
	Weakfish	All year	13 inches	1
	White perch	All year	8 inches	No Daily Limit
	Winter flounder	Feb. 11 - Apr. 10	12 inches	2

2022 SEASONS, SIZE AND CREEL LIMITS

SPECIES		OPEN SEASON	MINIMUM SIZE	DAILY LIMIT
 Blue crab	See page 23 for more details	Pots: Mar. 1 - Nov. 30; other gears year around	Peeler - 3 inches	1 bushel
			Soft-shell - 3.5 inches	
			Hard-shell - 5 inches	
 Jonah crab		All year	4 3/4 inches	50
 Hard clams		All year	1.5 inches	100/resident 50/non-resident
 Lobster		All year	3 3/8 - 5 1/4 inches (slot)	2; V-notched prohibited
 Conch See page 22 for details	Knobbed whelk	All year	5 inches / 3 inch whorl	5 bushels
	Channeled whelk	All year	6 inches / 3.125 inch whorl	5 bushels

SHARKS AND HIGHLY MIGRATORY SPECIES (HMS) - SPECIAL PERMIT REQUIRED FOR FEDERAL WATERS

SPECIES		OPEN SEASON	MINIMUM SIZE	DAILY LIMIT
	Smoothhound and spiny dogfish	All year	No Size Limit	No Daily Limit
	Blacktip shark, bull shark, lemon shark, nurse shark, silky shark, spinner shark, tiger shark	Jan. 1 - May 14 July 16 - Dec. 31	54 inches FORK LENGTH	Boat anglers - only 1 shark of any species per vessel, except 1 additional bonnethead and 1 additional Atlantic sharpnose per angler onboard vessel. Shore anglers - only 1 shark of any species per angler, except 1 additional bonnethead and one additional Atlantic sharpnose per shore angler.
	Great hammerhead, scalloped hammerhead, smooth hammerhead	Jan. 1 - May 14 July 16 - Dec. 31	78 inches FORK LENGTH	
	Blue shark, oceanic white-tip shark, porbeagle, thresher shark	All year	54 inches FORK LENGTH	
	Atlantic sharpnose shark, blacknose shark, bonnethead, finetooth shark	All year	No Size Limit	

PROHIBITED SPECIES

	Sandbar shark, sand tiger, Atlantic angel shark, basking shark, bigeye sand tiger, bigeye sixgill shark, bigeye thresher, bignose shark, Caribbean reef shark, Caribbean sharpnose shark, dusky shark, Galapagos shark, longfin mako, narrowtooth shark, night shark, sevengill shark, shortfin mako, sixgill shark, smalltail shark, whale shark, white shark	The sandbar & sand tiger are toothed sharks commonly taken in the nearshore waters of the state and are prohibited species. Like all prohibited species, they must be immediately released to ensure the maximum probability of survival.
---	---	---

SPECIAL RESTRICTIONS FOR SHARK

It is unlawful to fillet a shark prior to landing. A shark may be eviscerated prior to landing, but head, tail and fins must remain attached to the carcass.

It is unlawful to release a shark in a manner that will not ensure the sharks maximum probability of survival (i.e. no gaffs, no clubbing, careful hook removal, etc.). A non-offset, corrodible, non-stainless steel circle hook must be used when fishing for shark, except when fishing with flies or artificial lures.

It is unlawful to possess the fins from any shark prior to landing unless they are naturally attached to the body of the shark.

TUNAS AND HMS - SPECIAL PERMIT REQUIRED

	Atlantic tunas, swordfish and billfish	*Special permit required - All private vessel owners/operators recreationally fishing for and/or retaining regulated Atlantic Highly Migratory Species (Atlantic tunas, sharks, swordfish and billfish) for personal use in the Atlantic Ocean must obtain an Atlantic Highly Migratory Species (HMS) Angling Permit. Further limits and restrictions apply. Consult hmspermits.noaa.gov or call toll free (888) 872-8862 for specific information and permits.
---	---	--

SURF FISHING

The Division of Parks and Recreation surf fishing beaches are located in Cape Henlopen State Park, Delaware Seashore State Park and Fenwick Island State Park, and on Beach Plum Island. Special restrictions and regulations apply to these areas. For more information contact the Division of Parks and Recreation, (302) 739-9220.

In order to drive a vehicle on a designated State Park beach, a SURF FISHING VEHICLE PERMIT is required. Only four-wheel drive vehicles with a minimum ground clearance of seven inches that are licensed to operate on public roadways are eligible for Surf Fishing Vehicle Permits. Permit holders must be actively engaged in surf fishing while on the beach. Permits are available at State Park offices, various license agents, and at the DNREC main office in Dover.

Purchasers of Surf Fishing Vehicle Permits will receive additional rules and safety requirements. The revenue collected from these permits supports the management of seashore State Parks and beaches. None of the proceeds from these permits go towards fisheries management programs or fishing access projects conducted by the Division of Fish and Wildlife.

Zach Pillarelli

Ben Smith landed the state record striped bass while surf fishing at Delaware Seashore State Park in 2012!

* Area number refers to the numbered yellow or brown boxes on the Fishing Area map (see map on page 17).

Access areas are closed from sunset to sunrise unless fishing.

Note - All motor boats launched from tidal access areas administered by the Division of Fish and Wildlife must be registered in Delaware or have a valid ramp certificate. Ramp certificates cost \$35 and are available from the Division of Fish and Wildlife or authorized agents (see page 29).

** A daily or seasonal fee may be required at areas administered by the Division of Parks and Recreation.

RECREATIONAL GILL NETS

Gear and seasonal restrictions apply to recreational gill nets and anyone obtaining a permit will be informed of these restrictions. In addition, during 2022, all recreational gill nets must be removed from the Delaware Bay and Ocean on the following dates: May 1-8, May 13-15, May 20-23, May 27-29, June 3-5, June 10-12, June 17-19, and June 24-30 in order to reduce weakfish mortality rates as required by the Atlantic States Marine Fisheries Commission's Weakfish Management Plan. Each closure period begins at 12:01 a.m. on the first day and ends at midnight on the last day. No striped bass caught in recreational gill nets may be retained at any time.

BE AWARE

Did you know it is illegal to transport an invasive species alive? Please help us track invasive fish by killing and reporting your catch at <http://bit.ly/reportinvasivfish> or use your phone to scan the QR code!

Flathead Catfish

Flathead catfish are most easily recognized by their broad, flat head, brown mottled coloration and lower jaw which sticks out further than the upper.

Northern Snakehead (Mature)

Northern snakehead are identified by a long dorsal (back) fin and anal fin, a rounded tail, and a large mouth reaching beyond the eye with many, sharp teeth. They are often confused with native bowfin. Visit <http://fishspecies.dnrec.delaware.gov> for more identification information.

Blue Catfish

The invasive blue catfish (on top), and a channel catfish (lower) can be differentiated by spreading out the anal fin and looking for a straight or lobed appearance.

Northern Snakehead (Juvenile)

SHELLFISH AQUACULTURE — INLAND BAYS

Anglers and boaters should be aware that shellfish aquaculture leases are established in Delaware's Inland Bays. Leased areas may contain submerged or floating aquaculture gear. Although anglers may fish in these areas, it is unlawful to anchor on a leased area or tie a vessel to any lease markers or gear. It is also unlawful to harvest any cultured or wild bivalve shellfish from the lease sites or associated navigation corridors. Shellfish aquaculture leases are presently located in the areas indicated on page 17; however, other areas may be leased in the future. For an interactive map of the leased areas, or more information on the program, please refer to <https://dnrec.alpha.delaware.gov/fish-wildlife/fishing/shellfish-aquaculture/>.

Shellfish aquaculture leases in the Indian River and Rehoboth Bays must be marked with 6-inch PVC pipe and shellfish aquaculture leases in Little Assawoman Bay must be marked with 9 x 16 inch orange bullet floats.

STOP AQUATIC HITCHHIKERS!

Be A Good Steward. Clean. Drain. Dry.
StopAquaticHitchhikers.org

CLEAN all visible aquatic plants from watercraft and trailers as well as waders and boots.

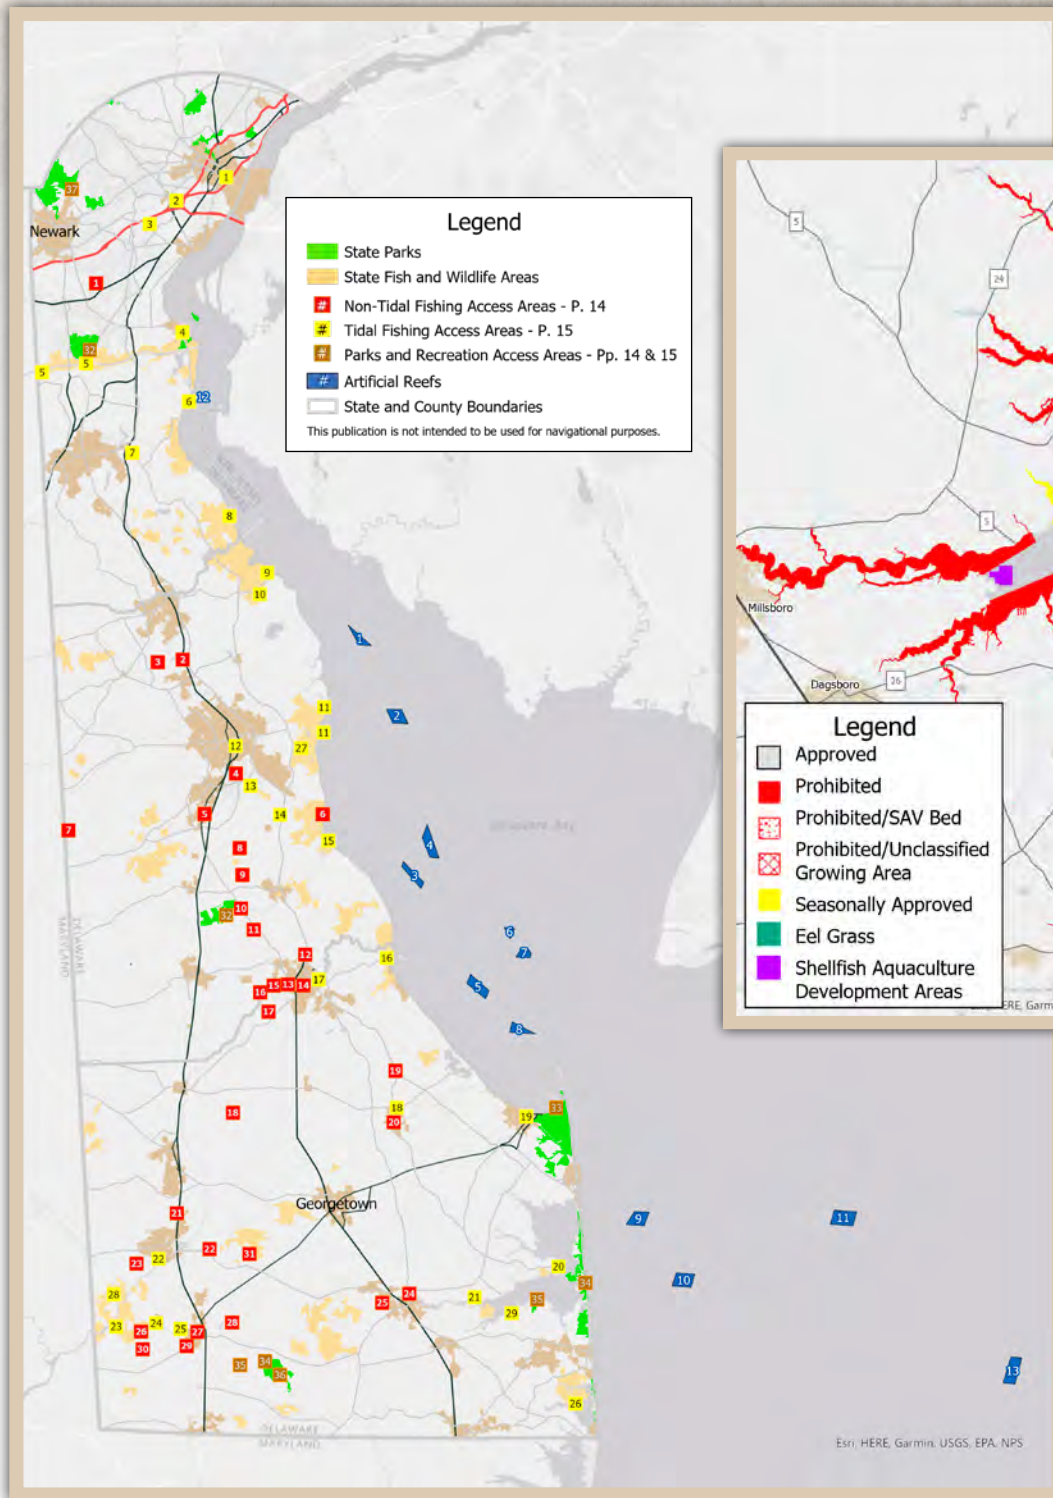

DRAIN equipment (boat bilge, ballast tanks, bait containers, motor) before leaving any water access area.

DISPOSE of unwanted live bait (minnows, worms) in the trash.

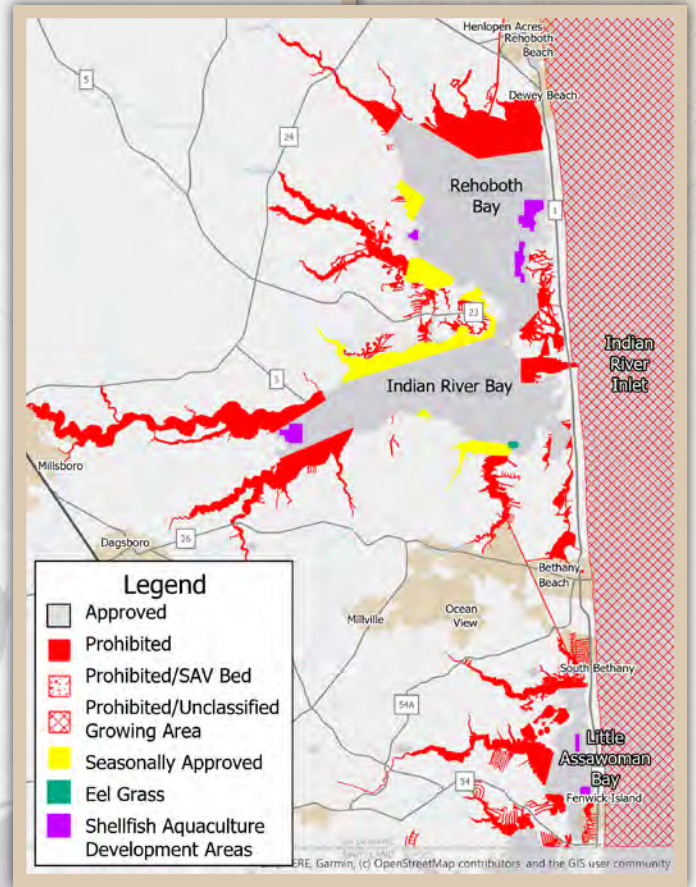

REPORT: In most cases, new fish species that are introduced into our waters don't survive or present a problem. But some may flourish and potentially cause ecological or economic harm. When there is harm, these species are called invasive. Currently, we have several species in our waters that we are tracking as potentially invasive and the department could use your help to document new sites. If you catch something you feel is unusual, please send an e-mail to DNRECFisheries@delaware.gov or call 302-739-9914 or go to <http://bit.ly/reportinvasivfish> from your phone. If you catch a Northern snakehead, blue catfish or flathead catfish please do not return it to the water, but kill it and contact us. Document the catch by freezing it or taking a good photo.

FISHING & CLAMMING MAPS

FISHING MAP

CLAMMING MAP

Scan this QR code using your smart phone or tablet to get an expandable high resolution map of Delaware's shellfish closures or type bit.ly/ZuiLyY into your browser!

GENERAL TIDAL FISHING REGULATIONS

These are some of the regulations that all anglers should be familiar with. For a complete listing refer to the Division's website or request a copy from the Director's Office. See page 5 for license requirements.

STRIPED BASS SPAWNING SEASON

The spawning season for striped bass in Delaware is considered to begin at 12:01 a.m. on April 1 and continue through midnight on May 31 of each calendar year. It is unlawful

for any person to take and retain any striped bass during the spawning season from the Nanticoke River or its tributaries, the Delaware River and its tributaries to the north of a line extending due east beginning at and including the south jetty at the mouth of the C & D Canal, or the C & D Canal or its tributaries. Catch and release only during this season; no harvest is allowed.

SHARK FISHING

Anglers are prohibited from landing and keeping protected sharks, including Sand Tiger and Sandbar sharks due to their slow reproductive rate and overfishing. To ensure the maximum likelihood of survival, prohibited sharks, as well as highly migratory shark species that are not retained, **must be immediately released without removing the fish from the water** by cutting the line near the hook or by using a de-hooking device.

When targeting sharks, non-offset carbon or mild steel circle hooks (not stainless steel) are required. This way, if the shark is lost before it is landed, the hook will rust out within a few weeks. For more information on ethical shark fishing practices, go to <http://www.eregulations.com/delaware/fishing/ethical-catch-release-sharks/>.

AMERICAN SHAD AND HICKORY SHAD

It shall be unlawful for any person to have in possession more than two (2) American Shad and more than ten (10) hickory shad. Additionally, it shall be unlawful for any person to take and reduce to possession any American shad or hickory shad from the Nanticoke River or its tributaries.

RIVER HERRING

Both commercial and recreational river herring (blueback herring and alewife) fisheries are closed to harvest.

No person shall fish with any type of net, within 300 feet of any constructed dam or spillway on a tidal water river, stream, canal, ditch, or tributary located in this state.

SUMMER FLOUNDER

It is unlawful for any person to have in possession any part of a summer flounder that measures less than the current minimum size limit between said part's two most distant points unless said person also has in possession the head, backbone, and tail intact from which said part was removed.

Fisherman's Wharf

By The Drawbridge, Lewes, DE

Fishing, Charter Boats, Restaurants

Join us for our 81st year of family fishing!

Ahoy!! Welcome to Fisherman's Wharf, by the drawbridge in Lewes, Delaware. It's a family affair here where the Delaware Bay meets the Atlantic Ocean, with 3 generations of Parsons to serve you! There's plenty to do here at Fisherman's Wharf for the whole family. Our fleet includes head boats, deep sea charter boats, cruising and sightseeing vessels.

GENERAL TIDAL FISHING REGULATIONS

ELECTRIC LIGHTS

Electric lights may be used in tidal waters for recreational fishing. Electric lights are often used in bowfishing, which is an effective method for taking invasive fish such as the northern snakehead.

COURTESY DOCKS

Crabbing, fishing or swimming from floating courtesy docks at any Delaware Division of Fish and Wildlife boat ramp is prohibited, unless otherwise posted.

KNOW BEFORE YOU GO TILEFISHING

SCAN ME!

- All recreational vessels fishing for blueline or golden tilefish must have a permit and report their trips **within 24 hours** of returning to port.
- Start by registering and account on **GARFO Fishonline website:** greateratlantic.fisheries.noaa.gov/apps/login

ARTIFICIAL REEF PROGRAM

Delaware has fourteen permitted artificial reef sites in Delaware Bay and along the Atlantic Coast. Development of these sites began in 1995 and will continue. The Delaware Reef Program is one part of a comprehensive fisheries management effort and is designed to enhance fisheries habitat, benefit structure-oriented fish, and provide fishing opportunities for anglers.

The site charts in the free reef guide show where reef materials have been deployed since 1995. The reef program uses DGPS (Differential Global Positioning System) to accurately place materials on site. Locations (latitude - longitude) noted for each site indicate the position of deployments of reef material from an anchored barge. In the case of large, concentrated reef deployments, a latitude or longitude range, may be given such as: N 39 15.377'-402'. This indicates material occurs between 39 degrees, 15.377 to 15.402 minutes north latitude. Due to variability between DGPS receivers, slight variations in readings may occur. It is suggested you use your GPS and a good fathometer to locate reef structure, then note the coordinates on your own GPS. You can view the reef guide online at dnrec.alpha.delaware.gov/fish-wildlife/fishing/artificial-reefs/ or contact the Fisheries Little Creek field office for a copy (302) 735-2960.

Circle Hooks for Striped Bass

A new regulation requires using non-offset circle hooks when fishing for striped bass using cut or whole natural baits like clams, squid, mackerel, menhaden, seaworms, or eels. Using non-offset circle hooks significantly increases survival of released striped bass by reducing occurrences of gut hooking.

What's a circle hook?

Unlike a J-shaped hook, on a non-offset circle hook the point curves back toward the shank.

BEWARE of Circle Hook Imposters

Just because it says circle hook on the packaging does not mean it is. Typically, on these imposter circle hooks, the point is angled back toward the shank but NOT at a perpendicular angle.

How do circle hooks work?

If a striped bass swallows your bait, the circle hook will slide out from its throat and catch on the corner of its jaw. The circle hook sets itself when the fish tries to swim away.

How do I use a circle hook?

When a fish takes your bait, do not sweep the rod upward to set the hook! Instead, simply let the line come tight and fight the fish.

What if I gut-hook a fish?

When using circle hooks, you may occasionally gut-hook a fish. If this happens, cut the leader as close as you can to the hook and leave it in the fish.

CRABS, CLAMS, CONCHS AND OYSTERS

BLUE CRABS

A fishing license is required to crab in all waters of the State of Delaware.

The blue crab is common in all the tidal waters of Delaware. It is a popular recreational resource and tops the list of the State's economically important marine fish and shellfish.

Blue crabs grow very quickly and reach maturity in 12 to 18 months. Most do not live beyond two years under current exploitation levels.

In order to grow, a blue crab must shed its shell and form a new shell. This process is repeated up to 18 times to attain maximum length. It is legal to take crabs at three stages, but to get the most yield in weight out of a crab, they should reach a minimum length before being harvested. This is measured from point to point of the top shell.

The minimum size for hard-shell blue crab is 5 inches, except mature females. Mature females (sooks) are identified by the rounded apron on

their under side. Once this stage of development is achieved, females stop growing. Therefore, female blue crabs with a U-shaped apron may be retained at any size. Females bearing eggs, commonly known as sponge crabs, may not be taken and should be returned to the water immediately.

Recreational crabbers may not use, place, set or tend more than two pots. The person claiming to own the pots must be the one to set and tend them. These pots must be marked with all white buoys with the owner's full name and permanent mailing address inscribed either on the buoy or on a waterproof tag attached to the buoy. All crab pots must be tended at least once every 72 hours. All crab pots must be removed from the water between December 1 and February 28. Recreational crabbers may use a trot line (no length limit) and any number of hand lines or traps. The recreational daily limit is one bushel per person.

Mature Male

She-crab
Immature Female

Sook
Mature Female

Sponge Crab
Female with Eggs
(Orange eggs under the apron)

JONAH CRAB

Jonah crab are a species of crab that typically occur in offshore waters. The recreational possession limit is 50. The minimum size limit is 4¾" measured at the widest part of the carapace. The claws must remain naturally attached to the body of all Jonah crab retained and no egg-bearing females may be taken.

A turtle by-catch reduction device is required to be attached in each funnel entrance of a recreational crab pot to reduce the possibility of diamondback terrapins entering and drowning. A by-catch reduction device is a rigid rectangular frame of plastic or metal that measures 1.75 inches x 4.75 inches and is available at local tackle shops, or can be hand-made from heavy (>11 gauge) wire or other suitable material.

CLAMMING

METHODS OF TAKE AND LIMITS

A fishing license is required to harvest clams in waters of the State of Delaware. See page 5 for details.

It is unlawful for any person to attempt to take, catch, kill or reduce to possession any hard clams with a device other than a hand-held rake with a head no wider than fourteen (14) inches measured perpendicular to the tines and a straight handle not in excess of seven (7) feet in length.

Minimum Hard Clam Size

The minimum size for a hard clam is 1 1/2 inches from point A to point B.

It is unlawful to harvest hard clams from one-half hour after sunset through one-half hour before sunrise.

It is unlawful for any resident to harvest more than one hundred (100) clams per day unless otherwise permitted to do so by license or permit.

It is unlawful for any non-resident to harvest more than fifty (50) hard clams per day unless otherwise permitted to do so by license or permit.

No shellfish harvesting (excluding crabs) is allowed in the **Prohibited Areas** marked on the map on page 17 or any tidal river, stream, or impoundment of the state. This includes all non-tidal and impounded water as well. Shellfish harvesting is allowed from December 1 through April 15 in the **Seasonally Approved Areas**. This is your protection against contracting shellfish-borne diseases. This is also the law. All boundaries may be marked with signs and/or buoys saying "No Shellfish Harvesting" or "Prohibited Shellfish Area." Questions regarding these closures should be directed to the Watershed Assessment Section Shellfish and Recreational Waters Programs 302-739-9939. Clamming is prohibited in eel grass beds marked with white PVC pipes and signs.

OYSTERS

RECREATIONAL HARVEST PROHIBITED

It is unlawful to recreationally harvest oysters in Delaware. This prohibition protects vulnerable oyster populations and protects you against contracting a shellfish-borne disease.

How to Install a Turtle Excluder Device (TED)

- 1 Obtain a 1 3/4 x 4 3/4 inch TED (metal or plastic) for each funnel opening in the crab pot, along with heavy plastic cable ties. Hog rings or cable ties can be used to attach metal TEDs.
- 2 Position the TED in the rear area of the funnel opening.
- 3 Loop heavy plastic cable ties around the TED's corners and through the funnel wire. Pull the plastic tie closed and trim the excess cable.

Use a minimum of four cable ties to attach the TED in funnel opening. Additional cable ties may be needed to achieve a firm attachment.

National Aquarium in Baltimore

CONCHS

Conch (channeled and knobbed whelk) may only be taken using conch pots with at least one escape vent measuring at least 5 inches x 10 inches in the top or parlor section. The recreational harvest of conch by any other method is prohibited. Recreational conch potters may not use, place, set or tend more than two conch pots. The person claiming to own the pots must be the one to set and tend them. These pots must be marked with all white buoys with the owner's full name and permanent mailing address inscribed either on the buoy or on a waterproof tag attached to the buoy. All conch pots must be tended at least once every 72 hours. Knobbed conch must measure at least 5 inches along the axis or have a minimum diameter at the whorl of 3.0 inches. Channeled whelk must measure at least 6 inches along the axis or have a minimum diameter at the whorl of 3.125 (3 1/8) inches.

MEASURING CONCH

LEGENDARY FISHING AWAITS!

SALMON RIVER, PULASKI NEW YORK

It only takes one light tackle hook-up for you to understand why they are called Steelhead.

Anglers from around the world will tell you that these underwater lightning bolts do more than steal your bait. By the time they have had their way with you, they'll have stolen your heart and soul. Whether heading upstream for a fall feeding frenzy or dropping back to Lake Ontario in the spring, these 5-10 lb. "chromers" will give you the freshwater fight that brings you back for more.

Let this be your year to experience the legendary waters of the Salmon River -- long regarded as one of North America's premier steelhead destinations!

SPORT FISHING TOURNAMENT

TOURNAMENT RULES

1. The Sport Fishing Tournament is open to the public. There is no entry fee. Charter boat captains are eligible. Weighmasters are eligible to enter, provided their fish are weighed in at a weighing station other than their own.
2. All fish except those caught beyond the three-mile limit in the Atlantic Ocean entered in the Tournament must be caught within the boundaries of the State of Delaware. Any fish caught outside the three-mile territorial sea must be landed in a vessel leaving from a Delaware port and returning to a Delaware port.
3. All fish entered in the tournament must be weighed at an official Delaware Sport Fishing Tournament Weigh Station.
4. All fish entered in the tournament must be caught in a sporting manner with hook and line. No other person may touch the rod or line until the fish is brought within the grasp of the mate.
5. All scales used to weigh in fish must be certified yearly by the Delaware Division of Weights and Measures (Department of Agriculture 302-698-4500).
6. All fish entered in the tournament must meet the minimum weight requirement as set up for this year's tournament.
7. No smallmouth bass will be recognized from Kent or Sussex Counties unless Division of Fish and Wildlife qualified personnel examine and approve the catch.
8. **A fish will not be recognized as a state record unless qualified personnel from the Division of Fish and Wildlife approve the catch.** In case no Division personnel are available at the time of the weigh-in, the angler must save the entire fish for examination and approval at the earliest convenient time for the Division.
9. In the case of a tie for the largest fish of the year or a new state record, both fish will be recognized.
10. To replace a record for a fish weighing less than 25 pounds, the replacement must weigh at least 2 ounces more than the existing record. To replace a record for a fish weighing 25 pounds or more, the replacement must weigh at least one-half of 1 percent more than the existing record. Example: at 100 pounds the additional weight required would be 8 ounces. Any catch that exceeds the existing record by less than the amount required to defeat the record will be considered a tie.
11. For a potential state record fish to be recognized, the reel must be operated manually by the angler.
12. The Tournament Director reserves the right to disqualify any entry.
13. All entry forms must be filled out completely and in a legible manner by the weighmaster. The signed forms should be mailed in **by the angler**.
14. The tournament runs from January 1 - December 31. **No entry forms for the previous tournament year will be accepted after 4:30 p.m. January 31.**
15. Citations will be only issued for **dead** Snakehead and Blue Catfish provided anglers have them measured for both length and weight at an official weigh station. Invasive species are not eligible for live release awards.
16. Only one saltwater award and one freshwater award will be issued to any one individual during the tournament year; although, anglers may apply for and receive multiple citations within a year.
17. Special citations will be issued upon approval of the Tournament Director in the case of unusual catches or extenuating circumstances. If the weigh station feels the catch is rare or unusual, an entry form should be submitted for approval. All decisions by the Director on unusual species will be final.
18. Citations will be awarded for released white or blue marlin. Fill out the standard entry form except for length, weight, and girth and include a signature and telephone number of a witness to the catch other than the angler and captain. Any marlin kept for taxidermy also will be eligible for Tournament entry provided a taxidermist receipt is enclosed with the entry form. Marlin retained for any purpose other than mounting will not be eligible for entry in the Tournament.
19. Anglers that receive adult division Tournament citations for five different species, no more than two of which can be Live Release Awards, **within one calendar year** will be recognized as "Delaware Elite Anglers". Both saltwater and freshwater Tournament species, or any combination thereof, are eligible. Once an angler achieves "Elite" status, he/she will receive a plaque commemorating their accomplishment. Anglers that achieve "Elite" status may continue to participate in the Sport Fish Tournament, but will not be eligible for additional Elite Angler plaques in subsequent years.
20. The Tournament Director reserves the right to disqualify any weigh station if the Tournament rules are not observed.
21. Hybrid striped bass will only be recognized for entry when caught in non-tidal water.
22. Youth Division applies to anglers age 15 and under that meet the associated minimum size or length eligibility requirements. All Delaware Sport fishing rules apply except for rule 18, as catches awarded under the reduced minimum size requirements of the youth division are not eligible Elite Angler consideration.

23. The State of Delaware assumes no responsibility in the certification of a catch for consideration by the International Game Fish Association or any record keeping body other than the Delaware Sportfishing Tournament. If the angler wishes to qualify his/her catch for consideration in some other tournament, it is the responsibility of the angler to insure that his catch and weigh-in meets the appropriate criteria. The Delaware Sportfishing Tournament makes no distinction based on line classes or sex of the angler or fly versus conventional fishing gear.
24. Call (302) 735-2960 for tournament information. Call (800) 523-3336 on weekends or holidays to coordinate state record verification.

LIVE RELEASE RULES

In order to promote conservation ethics among Delaware anglers, the Division of Fish and Wildlife is providing recognition awards to anglers who catch and release live eligible species that exceed minimum qualifying lengths. Applications for Live Release Awards are available online or may be picked up at any Sport Fishing Tournament Weigh Station. To qualify, an angler must follow the same general tournament rules of the Sport Fishing Tournament, but:

1. **Shark:** Fork Length
Billfish: Lower Jaw Fork Length
Bluefin, Yellowfin, and Bigeye Tuna: Curved Fork Length
Black Sea Bass: Total Length (Excluding the Tail Filament)
All Other Fish: Total Length (tip of the jaw to tip of tail)
Girth: The circumference of the fish at its widest point. This measurement must be verified by a witness who signs the entry form.
2. The fish **must be released immediately after measuring**.
3. Fish retained for any reason other than obtaining a valid length measurement are not eligible.
4. Billfish released alive are eligible for either the Live Release Award or the Sport Fishing Tournament Award, whichever one the angler chooses.
5. Recipients of live release awards will be eligible for one freshwater live release award and one saltwater live release award per year, but may receive multiple citations in either category.
6. Applications for live release awards **must be submitted to the Division of Fish and Wildlife within 30 days of the catch**.
7. The entry form for live releases must include both the angler's signature and the signature of a witness to the actual measurement and live release of the fish.
8. No fish entered for a Live Release Award will be eligible for consideration as a State record fish.

Tuna, Yellowfin or Bigeye	70	48 ³	52.5	45 ³
Wahoo	20	50	15	41
Weakfish (Sea trout)	3	20	2	18

Place the fish on a measuring board or stick with the tip of the jaw or snout (the mouth closed) at the end of the instrument. Hold the head down with one hand to keep the fish in place, pinch the upper and lower lobes of the tail together while swiping the tail back and forth across the board. Note the measurement of the longest part of the tail*; that is the "total length." Keep in mind that fish which barely make the minimum length may shrink after being on ice for an hour or more. Sometimes it is possible to get an accurate measurement while the fish is still in the landing net.

Maryland DNR

BE ON THE LOOKOUT

Have You Seen a Sturgeon Lately?

Have You Seen a Sturgeon Lately? If you find a dead sturgeon please report it immediately by email at sturgeon@delaware.gov, by calling: 302-735-8663, or scanning the QR code to the right. Don't forget to include an exact location and contact information in your message.

NOAA/NMFS Permit 20314

* - Lengths apply only to live release citations; weights apply only to fish officially weighed at a weigh station.

** - It is illegal to transport an invasive species alive.

1 - Must be 17 inches or longer.

2 - Must be taken from non-tidal waters.

3 - Federal regulations require that these species, if not retained, must be released in a manner that will ensure maximum probability of survival, without removing the fish from the water.

4 - Prohibited shark species (see p. 13) are not eligible for entry.

SPORT FISHING TOURNAMENT UPDATES

YOUTH DIVISION

The Delaware Sport Fishing Tournament has implemented a youth division for young anglers age 15 and under. The youth division features lowered minimum qualifying sizes for each species. With the decreased minimum size requirements in the youth division, young anglers have a greater chance to be rewarded for that trophy catch. All 15 freshwater species and all 30 saltwater species recognized in the tournament's adult division will be eligible for youth division recognition and awards.

The youth division applies to the Live Release Award program for conservation minded young anglers that choose to return their trophy catch unharmed, immediately after landing and measuring their catch.

Youth division qualifying lengths and weights are provided on page 25. Other than the reduced qualifying lengths and weights the same tournament rules will apply to the youth division. Youth division entries are not eligible for the elite angler program.

ELITE ANGLER AWARD

In 2017 the Division of Fish & Wildlife created a new "Elite Angler Award". Anglers that received Tournament citations for five different species within one calendar year, no more than two of which can be Live Release Awards, are recognized as "Delaware Elite Anglers". Five individuals achieved Elite Angler status in 2021 (at the time of printing). Michael Gardner of Townsend, DE, Alan Rosenberger of Laurel, DE, David Thomas of Newark, DE, Chester Townsend IV of Dagsboro, DE, and David Wyatt, Camden, DE. Congratulations on your outstanding achievement!

Matthew Wyatt, Age 15, with his qualifying 26" Chain Pickerel.

Nolan Bowie, Age 8, with his qualifying 9" Bluegill.

2022 award pins.

ACCESS POINT ANGLER INTERCEPT SURVEY (APAIS)

The most critical responsibility of Delaware Division of Fish and Wildlife's (DDFW) Fisheries Section is sustainably managing our fisheries to keep fishing in Delaware great. Good management depends on good data, so the Fisheries Section is always looking for ways to improve its data collection. To that end, the Fisheries Section, working with the Atlantic Coastal Cooperative Statistics Program (ACCSP), will conduct the Access Point Angler Intercept Survey (APAIS). This survey is a critical component of the Marine Recreational Information Program (MRIP), used to estimate the number of fish caught and harvested by recreational anglers. MRIP counts and reports marine recreational catch and effort, using in-person, telephone, and mail surveys. The Fisheries Section believes that a Delaware APAIS conducted by DDFW will result in improved data quality and greater stakeholder confidence in that data. We anticipate that our involvement in conducting the APAIS will:

- Improve data quality and efficiency of data collection;
- Maximize angler participation; and

- Give Delaware anglers a bigger stake in the recreational data and the data collection program.

What to expect when interviewed

The intercept survey is conducted by DDFW fisheries personnel at fishing access points along the Delaware coast. Saltwater anglers returning from a fishing trip may be asked to participate in the dockside survey. The interview, which only takes a few minutes to complete, consists of two major sections:

1. A background portion that addresses fishing mode (private boat, shore, or charter boat), gear type, number of anglers, hours spent fishing, general area fished, whether anglers were targeting specific fish species, and the anglers' county and state of residence; and
2. The latter portion which focuses on the anglers' catch. We ask questions pertaining to the species and number of fish released as well as those fish kept. For released fish, we collect information on whether they were used for bait,

or released alive or dead. We also ask to measure and weigh fish retained by the anglers

The intercept surveys are conducted by DDFW fisheries personnel at fishing access points along the coast of Delaware.

By participating in this survey, you're helping keep recreational fisheries sustainable.

- You're our **"eyes and ears" on the water** — what we learn from you is critical to understanding the health of our fisheries.
- You're on the **front line of conservation**. You can have a real impact on our waterways and how they're managed.
- **Your input** helps ensure that regulations are working and that our fish populations can support recreational fishing for future generations to enjoy.

YOUTH FISHING & TOURNAMENT INFO

36TH ANNUAL YOUTH FISHING TOURNAMENT

As part of its activities for National Fishing and Boating Week, June 4–12, the Delaware Division of Fish and Wildlife will hold its 36th annual Youth Fishing Tournament from 10 a.m.–1 p.m., Saturday June 4, 2022. The event will take place at designated ponds statewide.

This fishing event is for youths ages 4 to 15. An adult must accompany youths under age 12 and contestants should bring their own fishing equipment. The tournament is free to the public and prizes will be awarded for each age group and largest fish caught in each species.

The tournament was established to introduce youth to the sport of fishing and to teach the catch and release approach to conservation. Registration is free and there is no entrance fee required. The tournament is held rain or shine.

In addition to the youth fishing tournament celebrating National Fishing and Boating Week, the Division has designated June 4 and 5, 2022 as free fishing days when anyone may fish in Delaware's waters without a fishing license.

AQUATIC RESOURCES EDUCATION CENTER

You can learn about native Delaware sportfish and fishing opportunities in the First State by visiting Delaware's Aquatic Resources Education Center at 2520 Lighthouse Rd., Smyrna, near the Route 9 Bayshore Byway. The center offers two stocked catch and release fishing ponds and a unique vantage point for exploring the tidal salt marsh bordering Delaware Bay. There is a boardwalk over the marsh, plus trails and interpretive signs with information about ARE features including the popular **Take a Kid Fishing!** Program.

2022 TAKE A KID FISHING! PROGRAM

Fishing is a great way to relax and it's the perfect outdoor family activity in these times of social distancing. The Delaware Division of Fish and Wildlife offers free **Take A Kid Fishing!** events at the Aquatic Resources Education Center and other ponds throughout Delaware. **Take a Kid Fishing!** is geared to kids age 6 to 15 and their families. Participants learn about basic fishing skills and they have a chance to try their hand at catching a fish. Why not join us this summer for a great day at the water's edge?

EVENTS FOR 2022

Because of the ongoing COVID-19 pandemic, we anticipate that there may be some changes to our 2022 schedule of **Take A Kid Fishing!** events. For the most current and accurate in-

formation on the 2022 schedule, event locations and additional information about our programs, please check www.de.gov/takf.

REGISTRATION

Take a Kid Fishing! events are free of charge, but pre-registration is required. You can register by sending an email to mary.rivera@delaware.gov. This program is part of Delaware's Children in Nature Initiative, a statewide effort to improve environmental literacy in Delaware, create opportunities for children to participate in enriching outdoor experiences, combat childhood obesity and promote healthy lifestyles. Delaware's multi-agency initiative, which partners state and federal agencies with community organizations, is in conjunction with the national No Child Left Inside program. Find us on Facebook at Delaware Fish & Wildlife.

DELAWARE'S SMALL POND PROGRAM

The Division has nine small ponds scattered throughout the State which offer shore angling targeted at youth. The ponds range from ½ to 8 acres and contain good populations of largemouth bass and bluegill. Catch and release is the order of the day so barbless hooks are required at most. Additional information about the pond locations and available facilities can be found at: <http://bit.ly/SmPond-DE>.

LARGEMOUTH BASS TOURNAMENT PERMITS

A Division of Fish & Wildlife Fishing Event Permit is required to hold a Largemouth Bass tournament in Delaware's public ponds or rivers, regardless of the number of boats or anglers participating in the tournament. Applications may be submitted online at: <http://de.gov/fisheventrpt> or by calling the Division's Enforcement Section at (302) 739-9913. Tournaments held on State Park properties must be approved by the Division of Parks and Recreation prior to submitting a permit application. Contact the appropriate park office for approval: Lums Pond (302) 368-6989, Killens Pond (302) 284-4526, and Trap Pond (302)875-5153.

The Tournament Director/Organizer must submit a Largemouth Bass Tournament Report (<http://de.gov/basstournrpt>) within 30 days of tournament completion. Tournament anglers are encouraged to practice catch and release and to implement other measures that minimize stress to bass caught during tournaments. These conservation measures, links to the permit application and reporting form, and a newsletter for bass anglers, can be found on the Division's Largemouth Bass Tournament page at: <http://de.gov/lmbtourney>. Contact the Fisheries Section at (302)739-9914 for additional information.

FISH CONSUMPTION ADVISORIES

Fishing is an important activity in Delaware's inland and coastal waters. Among the benefits provided by fishing are quality recreational opportunities, direct and indirect input to the local economy, food for recreational anglers, and food for the commercial marketplace. Fish are a good source of readily digestible protein. They are low in fat and sodium, and the unique types of fats found in fish are believed to provide cardiovascular benefits.

Despite the general benefits of fishing and fish consumption, there are also health risks associated with consuming some locally caught fish. Certain toxic chemicals such as polychlorinated biphenyls (PCBs) and mercury persist in the environment and accumulate in fish.

When you eat the fish, you also ingest these chemicals. In cases where the health risk is elevated to recreational anglers and their families, the Department of Natural Resources and Environmental Control (DNREC), in cooperation with the Department of Health and Social Services' Division of Public Health (DPH), issue fish consumption advisories to inform the public of the situation. The most recent fish consumption advisories for Delaware waters are shown on the accompanying table. These advisories are intended to protect public health and hence are conservative.

Although the list of waters and fish species under advisory is extensive, monitoring shows that contaminant concentrations in the

fish are slowly improving over time in many cases. This is the result of steady progress in cleaning up the sources of the contamination along with natural processes. DNREC and DPH will continue to monitor contaminant levels in fish over time and issue new or revised fish consumption advisories as appropriate.

For more information concerning health advisories for Delaware waters, go on-line or contact the Division of Public Health at (302) 744-4546. For more information on balancing health risks and health benefits of consuming seafood, visit <http://seafoodhealthfacts.org>.

CUTTING THE FAT

Toxic chemicals tend to concentrate in the fatty tissue found in the:

- 1) dorsal area.
- 2) lateral line.
- 3) belly flaps.

When cleaning fish, always skin it and trim away fatty areas shown by the dotted line.

* Women of childbearing age and children should not consume any amount of these fish.

For more information on the specific contaminant(s) of concern for each waterbody listed, consult the Division's website (www.fw.delaware.gov) or contact DNREC at (302) 739-9902, or the Division of Public Health at (302) 744-4546.

Contaminants of concern:

A) PCBs, B) Dioxins and furans, C) Mercury, D) Chlorinated pesticides, E) Dieldrin, F) DDT, DDD and DDE, G) Chlordane, H) Heptachlor epoxide

FISHING PHOTO CONTEST WINNERS

The Division of Fish & Wildlife held its eleventh annual Fishing Photo Contest in 2021 with the theme "Fish with a Buddy." Submitted photographs must be taken in Delaware by Delaware residents and depict lawful fishing activities. Division of Fish & Wildlife Director David Saveikis, Fisheries section staff David Stormer and Fish & Wildlife's Outreach Administrator Mark Ostroski served as judges and virtually reviewed eligible entries. First place was awarded to Courtney Hopkins of New Castle for her photograph of brothers Mikey and Miles Hopkins fishing at Navy Crossing, Cape Henlopen. Second place was awarded to Rodney M. Layfield of Georgetown for capturing Bill Hocker, Levi Layfield and Rodney Layfield with a Drum catch while fishing on the Delaware Bay. Three honorable mentions were awarded, one to Jonathan Curry of Wilmington and two to Matt Katirai of Wilmington.

1st Place

Awarded to Courtney Hopkins of New Castle for her photograph of brothers Mikey and Miles Hopkins fishing at Navy Crossing, Cape Henlopen.

"Beach Brothers"

2nd Place

Rodney M. Layfield of Georgetown for capturing Bill Hocker, Levi Layfield and Rodney Layfield with a Drum catch while fishing on the Delaware Bay.

"Drum Catches and Releases"

HONORABLE MENTIONS:

Fun Day at the Beach
Photo by Matt Katirai

First Trout
Photo by Jonathan Curry

Brother and Sister Fall Catfishing
Photo by Matt Katirai

Congratulations to all the winners!

For information about future contests, visit www.fw.delaware.gov.

Shhhhh. No wake zone.

Protect your baby (and their toys) with coverage for fishing gear and personal property too.
