

Evaluating Curricular Resources for ELA Adoption

Fargo Bismarck Rugby

Watch Pre-Recorded Informational Video

Participants will access a pre-recorded video that prepares them for ELA resource adoption.

During the recording, participants will understand new SoR legislation and access the NDSOR Curriculum Evaluation Guide. It will walk them through each section of the guide:

1. Defining the Science of Reading
2. Leading and Making Curriculum Materials Decisions
3. Use of an Evaluation Tool

Registered participants receive the Curriculum Evaluation Guide, Audit Tool, and Evaluation Guidelines.

Step 1

Attend In-Person Browsing Experience

We will examine different examples of curricular resources that align to each strand of Scarborough's Reading Rope, including fluency and writing. We have had many districts ask us what Tier 1 ELA curriculum materials and supplemental/intervention materials they should invest in that align to the Science of Reading, so we are providing this opportunity to showcase over 30 different resources.

Step 2
